Wee shall use our utmost deligence to send you a good quantity of bales for the Janry. shipping and hope shan't fall short of the number wee formerly advised and the merchants have contracted to deliver, But except youll please to send us money hither itt will be Impossible for them to comply therewith, persuant to your honour &ctas. orders wee sent for Pola Chittee Coolapa Chittee and Quorundapa Chittee and desired them to supply us with what money they could offering them our bills upon your honour &[cta.] but they answered they had no money of Sunca Rama in their hands nor from themselves was able to suply us with any our Merchants have now brought in near the amount of 60000 Pags. in goods which has obliged us to give our bill on your honour &cta. for 10000 Pags. payable to Chola Chittee the order of our merchants of yesterdays date which we request youll please to give due honour too, though they say 'tis a very great hinderance to receive so much of their money by bills and if they could be supplied according to your honour &cta. directions with 20000 Pags. before hand they would yett undertake to Compleat this Investment by the middle of ffebruary butt without ready money they can't comply with what they have contracted for.

Since writing the forgoing and dispatch of the Phœnix we have been honourd with yours of the 7th. adviseing your Payment of our Bill of Exchange which wee shall pass to your account in Conformity as to our Investment this year had wee money you should have received goods but wee advised you in our last how affairs were here and our Merchants of the[ir] Debt have since brought in some gunnies wax &cta. for the necessary Expences of the Factory if your Honour &cta. send us money as wee desired you shall yn. have long cloth and sallampores for the September ship as wee promised.

Wee strangely admire at the want you mention of the Beteelas there being that care and Circumspection used here Mr. Morton saw every peice told into the bales besides whom there was the Compa. and merchts. Braminees that took the account and haveing so few goods left wee took acct. of the remains of the Godown and adjusted acct. with the merchants and all which came right so that wee desire your honour &cta. to make some due Inspection and Inquiry into it with you.

President Beard &cta. desireing us to be very kind to the silk weavers on the Phœnix and to assist them with what they might have occasion and they requesting 20 Rupees wee lent them it as ℔ their Inclosed obligation which wee desire you to receive and Creditt our account for wee again wish your honour &cta. a mery new year and Remain.

Honble. Sr. &cta.

Recd. 13th. Janry. 170$\frac{2}{3}$.

Wee received both yours ye. 21st. Novembr. the 3d. December with a Pacquett for Vizagapatam which wee imediately forwarded and yours of the 15th. Decembr. the 30th. wherein wee observe your orders relateing to what goods wee shall pack up for the Bengall ship which shall be punctually observed and shall now give your honour &cta. a full answer to what wee omitted in our last in answer to yours of the 6th. November.

We shall take care that the Merchts. bring in their full quantity of Chay goods due upon last Contract before wee meddle with their white goods.

As wee advised your honour &c^{ta}. in our last y^{t}. the Oringall goods are cleared and arrived safe but the merchants are suspitious they shall come into Trouble upon their servants giving an obligation to the Phousdar there that if they did nott bring Copy of the Comp^{a}. Phirmaund to pay custome for said goods therefore do desire your honour &c^{ta}. to send us the Phirmaund relateing to the priviledges of this place by the first Opportunity.

As to the Dustore which is due from the Madapollam Merchants in M^{r}. Lovell and Woolston time that by your honour &c^{ta}. Letter dated the 27th. August 1701 in answer to ours of the 9th. wee did all conclude that you would call Mr. Woolston to account for the Dustore and that wee should nott stop itt from our merchants and if it is a mistake in us wee shall endeavour to recover it of them when wee have an oppertunity therefore hope your hon^{r}. &c^{ta}. will nott Charge itt to our accounts.

Wee have accquainted the Madapollam Merch^{ts}. that your honour &c^{ta}. cannott Imbrace the offer made by them unless they will abate 20 ℔ Cent upon the last Contract to which wee have nott as yett received any answer.

On the 5th. past Mahomud Suffore made an agreement to supply us with the quantity of Timbers wee want for the R^{t}. Hon^{ble}. Company and took earnest upon which wee sent M^{r}. Hastings to Madapollam to receive them butt he has putt us off under pretence of other buissiness of his masters till the 30th. before he sent orders for the delivery of them at Maddapollam which makes itt uncertain whither wee shall have them here ready for the Europe ship.

Since writeing the foregoeing on the 3^{d}. Ins^{t}. at night the ship Phœnix arrived here from Bengall and In her way touched at Vizagapatam where she staid but 24 hours haveing nott a bale of goods from them wee do hope to dispatch her in Eight or Ten days at furthest with one hundred bales att least but can't promise your honour &c^{ta}. any more by reason that you positively order us nott to take in any more white goods then what mentioned in your former orders.

The Colchester has gott a freight for Persia and the Wentworth and John and Mary will be disptched home next month and also the Degrave belonging to the new Company.

Wee should have sent your honour &c^{ta}. our Generall Bookes some months agoe but that wee co^{d}. nott gett any Paper to Copy them which wee advised you off but haveing since procured some shall send them by the ship We are.

Council.

Fort William in Bengall
ye. 15th. day of December 1702.

Srs.

Recd. 15th. Janry. 1702 ψ ship Phœnix.

Wee have before us to answer yours of ye. 3d. and 21st. of August and 22d. September. We return many thanks for the news Imparted to us.

Wee are glad the silk wormes thrive so well by ship Phœnix wee send ten Necands or silk winders have maintained them ever since October and given Impress untill the last of Febry. Captain Carswell promisses to entertain them kindly as to their Casts that no offence be given them therein we have wrote to Mr. Holcombe &cta. at Vizagapatam to be kind to them also and if willing to travell from thence Overland rather then to Continue on board ship that he would send Peons with them for Madras.

md. sr.

We have taken the Lead out of ship Sarum and weighed the same qt. 839. 24 and pigs 194 and have put on board so much Iron as the Captn. gave under his hand he should have occasion for to Kintilage the ship to make her sayleable from the West coast with pepper for Madrass wee dispatched her the 8th. Instant which was as soon as the Captain would gett ready herewith comes Copy of her Invoice amounting unto Twenty one Thousand one Hundred sixty and Eight Rupees Eight annas seven pice.

The John and Mary arriving with a Ladeing of pepper from York Fort wee have

md. srs.

ordered the same on shoare and weighed itt qty. 4113. 1¼ for which have Creditted your Presidency wee were obliged to open the Pacquett for the ships Charterparty besides to have a little advice from thence before the dispatch of the Sarum was not unessessary which we hope will meet with your Approbation.

Wee have paid Mr. Boddam one hundred fifty and seven Ryalls of 8/8 which please to Creditt this Presidency for and honoured the Bill of Exchange although drawn on your honour &cta. that the Compas. settlements may nott want creditt another time.

Since you complain so reasonably of the heavy Tonnage on your hands wee have undertaken to Lade the John and Mary directly for England the first ship, she hath on board about two hundred and fifty bales and Chests and beleive she will not be able to take in so many more however this will run us in debt again and if youll please to send fifty or sixty thousand Rupees or Twenty Thousand new Pagodas with the moors stamp which pass for three Rupees Eight annas here wee shall think ourselves much obliged and hope youll be able to do itt suddainly after the arrivall of the Chambers and Fleet Friggott from China.

By the Hampshire wee sent Three hundred Baggs of Salt Petre more then her Kintiledge and by the Phœnix one Thousand and by last years shipping fifteen hundred baggs which was more then the Loyall Cooke wanted for Kintilage by five hundred so that wee account wee have sent Eighteen hundred baggs for stores and would have sent more but that 'tis so difficult to procure and Indeed considering the Company hath twelve Thousand maunds of Petre in Pattana 'tis nott a time to send more then what you have an absolute occasion for and wee beleive from what you advise you will nott bee able to send home above one ship more then the Phœnix this season and wee hope to have the Rt. Honble. Compa. Petre from Pattana next August, The Genll. and Councill from Suratt adviseing that

the English Duch [*sic*] and French with the Governour &c^{ta}. Officers att Suratt had agreed to represent the case of that Port to the Mogull by their Vacquells at Court that with an Expence they doubted nott to gett an order for our trade to go on as formerly.

We are advised that the new Company have sent a ship of one hundred and fifty Tons burthen directly for Java to Lade with Sugarrs for England if that will turn to account at home you can't want Lintilage should wee bee so unhappy as nott to supply you from hence 'tis nott to be imagined how much trouble there hath been to provide Petre this year and the merch^{ts}. playing the Rogue have sold it and taken earnest from two or three People which occasioned disputes between the Dutch and ourselves and between them and the new Companys People we gained the Point but tis reported if new people will be bafled and a small Ketch anchors still before their Factory (bound for Metchlepatam) for 1000 baggs.

Copy of the account you Inclosed between Cap^{n}. Lambert and M^{r}. Bruce wee sent ℔ ship Monsoon for Gombroone and wrote to the Agent and Councill as directed we shall send the Originall by Cap^{tn}. Mathews who will depart hence in the London within few days.

Wee are very glad you have overcome y^{e}. point with the Government and not suffered them to raise Customs on the Companys goods for it would intale a charge for the future you have a very right notion the carrying on a trade underhand may prove very prejudiciall to the nation in generall and our masters in perticular but what can wee do in that case if the Dutch French and New English send home their masters shipping ours must not lye by the walls however wee have nott bespoke any Dhacca goods and but one hundred bales of floretta yarn and Tanna silk because those goods must come in by Rewanna which will advance the kings Customes considerably and the Duan finding it out what Interest will he have to write to the King to clear our buissiness nor will the Phousdars or other officers who being fedd with money represent the thing to the Prince so that whilst the Government finds the Europeans will carry on their buisseness [*sic*] at any rate wee have butt little prospect of times being mended wth.out by some accident it be done by these Gentlemen at Surat for that Port may suffer more the other of the Mogulls dominions without the Europeans in Generall would leave of trade one year or the English in perticular and make a bustle to gain their Old Priviledges again which are almost lost the English in hughly are very near in as bad a Condition as those in Suratt there are severall Imprisoned barbarously used Chaubuct and what not they address to the Consull without release Indeed many of them deserved punishment but it ought to be given by the English Government the New Companys Covenant Serv^{ts}. have been ill used and detained severall days in prison when S^{r}. Edward Littleton &c^{ta}. have laid the faults altogether upon those who complained against them.

Most of the goods wee provide this year are made at the Aurungs between Santapoore and Ballasore the Jemmedars permitt them to be made in their Country for the good of their Tenants when they are laden on Boats, wee send soldiers and sloops to clear the Chowkeys so that goods comes in with the Companys Dusticks every day.

Wee had not notice of the Colchesters arrivall in Ballasore road untill y^{e}. 12th. ultimo and she did not gett into the river untill seven or eight days afterwards the beginning of the month wee ordered Petre on board the Phœnix and desired Cap^{tn}. Carswell to be in a readiness to sayle by the 5th. Instant for by that time wee resolved to dispatch him and the Pilot was appointed to be on board but his Coopers being sick or one excuse or another that he made that he left not this place untill the 14th. in the morning yett if the bales be ready on the Coast wee doubt not but she may have an early dispatch for England wee always take care to give the ships Timely Dispatches from hence and oftentimes leaves provisions behind them but the King William dispatcht early and the Martha late sayled about the same time from Fort S^{t}. George so that we desire youll please to order the subordinations to the Northward to gett their bales in a readiness & if not that the blame may be laid where it ought to be.

We have put ship Colchester up for a Bussera and Persia freight and expect a great many bales by y^e^. beginning of next month hope shell be clear of the new deeps by the Latter end and return to you in good season wee shall desire the Agent and Councill in Persia to send those horses wines &c^ta^. you wrote for wee hope by these means the Company will have none of their ships Eating Demorage without Employment for when the Chambers Friggot arrives wee doubt nott butt you may be able to send her quickly for England considering That the unfortunate loss of ship Norris with so great a stock hath given you the opportunity to have the Coast Trade with our Competitors so that goods may be both plentifull and Cheap.

The steward hath put on board the Phœnix forty Geese and Forty Goats with provisions for the Voyage.

The Necauds are to have their wages at Fort S^t^. George (Viz^t^.) Nine at five Rupees and the Jurdarr seven Rup^s^. ℔ month.

Wee have sent samples of the Gold to Rajamaull to be assayed when have answer from thence shall pay it away to the merchants and advise you at what rate if you send us Pagodas please to remember the Shawgehaune Pag^s^. are valuable 4 each more then those with Images.

The Colchester arrived so late that wee could not have returned the Lead on the Phœnix had wee designed but wee shall creditt your Presidency for the same beleiving wee may putt it of for goods at three Rupees Eight Annas or three Rupees ten annas ℔ maund Factory.

Herewith comes Cap^tn^. Carswells bill of Ladeing and Invoice of goods putt on board the ship amounting unto Rs. 27032. ans. 15. ps. 2 which wee hope will safely arrive. Wee have ord^rd^. Cap^tn^. Carswell to touch at Vizagapatam although you gave no direction therein.

Salt Petre is risen to six Rupees ℔ maund in Hughly if wee can meet with some reasonable at the latter part of the year and can spare a sloop these Troublesome times wee will send five or six hundred baggs.

The Degrave will sayle for England w^th^.in a short time butt the Tankervile will be kept at Hughly a guard ship.

The Bengall Merchant hath Two thous^d^. Eight hundred baggs of salt Petre on board her and may sayle in Feb^ry^.

Wee hope to dispatch the Wentworth by the latter end of next month.

Wee haveing no answer to what wrote about M^r^. Peacheis Effects have disposed of them and brought the Proceed into the R^t^. Hon^ble^. Companys Cash as usuall when no wills are made by the deceased party.

The Redwood came short in Tale two sticks and in weight m^d^. 15. s. 19.

Severall Chests of Liquor &c^ta^. that came ℔ the Wentworth for the Govern^r^. and Gentlemen of Madrass upon the Captains desire are shipt on board the Phœnix the Mates Receipt for them come herewith wee call not more to mind but that wee are.

Hon^ble^. S^r^. &c^ta^.

TO THE HONBLE. THOMAS PITT ESQR.
PRESIDENT AND GOVERNOUR OF FORT ST.
GEORGE &CTA. COUNCILL.

YORK FORT 6TH. JULY 1702.

MAY ITT PLEASE YOUR HONOUR &CTA.

Our last to your honour &ctа. was ℔ Ketch Josiah of the March last which being entered in Copy Book of Letters sent now Remitted to must humbly crave reverence Invoice and Bill of Ladeing of what sent by her is Inclosed also account of what wanted sent ℔ Ditto Ketch. ℔ John and Mary to Bengall and recd. 15th. January 1703 ℔ Ship Phœnix.

Wee formerly advised our hopes of makeing Coppar Cash to the norward Currant which since is effected wherefore it will be requisitt that a larger quantity be sent then formerly wrot for. 2

On ye. 7th. Aprill last arrived ship John and Mary from England sayling from Plimouth the 4th. Augst. last by whom received 5 Chests of Treasure and some stores 3

	£	s.	d.
being as ℔ her Invoic now sent amounting to	5604	15	6

for wch. shall creditt account Currant Fort St. George her Charter party comes now Inclosed.

Considering how late the ship arrived and that wee could not hope to dispatch her for England directly so as to save her passage about the Cape as also that she enters not into demorage till the 7th. Augst. next likewise the great want that generally is of pepper to fill up the homeward bound shipping wee therefore thought it most for the Interest of our Rt. Honble. Masters to Dispatch her directly to your honr. &ctа. haveing laden on board her Bahars 620 pepper which [wth.] the mill wee have lately made is very well garbled and questioned not but 'twill come out better than any ever sent from this Coast though there was Indeed a mistake Committed by our guardians in sending off a few baggs that were very foule. 4

This ship brought us out of England ten soldiers five of which dyed in their passage and another almost dead when he came a shoare who deceased four days after. 5

The Rt. Honble. Compa. as your honour will perceive by their Genll. to us by this ship have been plased [*sic*] to take off the customs of a halfe penny the pound on pepper wherein must acknowledge their favour to this settlement. 6

Our going to dyet money the Rt. Honble. Compa. approves nott off therefore at the Begining of last may wee returned to a Genll. Table haveing ordered that they do so likewise att Bantall. 7

Wee have lately held a publick Bitchar with our two neighbouring Rajahs to the northward wherein wee have procured the makeing fanams Currant and large promises of Increasing their pepper plantations particular acct. whereof is Entered in our Diary the Six June last. 8

Wee have already found out severall falce fanams which wee are Informed came from the southwrd., wee are makeing all possible enquired [*sic*] and search to Discover the Author haveing offered the Primum 50 Dollars to any person that shall discover such practices that so the author may be brought to Condigne punishment, 9

10 What pepper now sent by the John & Mary has almost cleared our godowns however this being your season for Gathering in their Cropp hope in a short time to have a considerable quantity.

11 Your honour &c^{ta}. will perceive by a Generall to us from Bantall dated the 2^{d}. Instant the State of affairs there so that wee are assured on all hands that if timely and effectuall care be not taken for prevention troubles will Insue therefore after serious consideration and consulting the best of our Mallay freinds here who on all occasions hitherto have been found very faithfull who are unanimously of the opinion that the Deputy Governour proceed thither and endeavour to settle matters in those parts which wee have resolved on so soon as can be with conveniency after dispatch of this ship.

12 Wee were lately alarmed with the fears of Troubles att Cattawne by Rajah Quassas and a great number of y^{e}. Dagonys designed for that place wee therefore Imediately dispatch a Baggess Ensigne with Ten soldiers and good armes thither which hope may have broken their measures however still have a Cautious Eye over them knowing sablat and Cattowne to bee places whereto those of the most turbulent and unquiet people make their resort.

13 The difference formerly advised between Rajah Kalippa and the Proateen wee hope is fully accommodated having referred to arbitration Raja Mooda and our datus being the referrers who awarded the Proateen to pay ℔^{rs}. 86 but he had not at ℔ sent wherewithall therefore wee advanced him the said summ haveing taken security for its payment otherwise its more than provable troubles would have ensued to the destruction of his Country which produces good quantity of pepper.

14 Wee have sent to summons the two southern Rajahs Pangram Jangall and Pangram Jantenally their Dep^{ty}. and Proateens to a Publique Bitchar for the same reasons as was those of the northward.

15 In our last wee advised sloop Expedition being gone to the northward for pepper who is returned with her Ladeing and since made another tripp with the like success.

16 Wee long since sent after the Marys Blunderbushes but she being lost so far to the Southward much doubt their Retreivall not yet haveing received any answer thence.

17 Wee have made a considerable progress in order to the building the Pullow Pagarr at Sillabarr point haveing cleared the place and have people dayly at work there which being a matter of the greatest Consequence wee forward as much as possible.

18 What quantitys of pepper they have and may expect at the Northern Paggars will apear by their aforementioned Gen^{ll}. to us of the 3^{d}. Instant.

19 What bookes and papers could possibly be got in readiness with the slender assistance wee have are now remitted being according to the Inclosed List, M^{r}. Shaw's frequent Indisposition and Want of assistance occasions no Generall books to be sent by this Conveyance but he hopes ℔ next to satisfie your Honour &c^{tas}. Expectations.

20 Our Military here since our supply by the Scepter have held up bravely and a great deal of providence it has been to us for had the usuall mortality attended them wee should have been most miserably put to it considering the poor supplys wee have since had ocasioned principally by the loss of the Advice.

21 That your honour &c^{ta}. have not any perticular advices from Bantall is occasioned by the John and Marys not proceeding thither which all along designed till now very lately pepper comeing in sufficient to compleat her Cargoe diverted her going thither to fill up their severall Letters to us now remitted will fully Inform the State of affairs there.

Wee cannot forbear our most humble and reiterated Intreatys for assistance both Civill and Millitary being both and at the Northward so extreamly wanted for lack of which as your honour &c^{ta}. may perceive by the Comp^{a}. Generall to us by John and Mary wee are in danger very much to suffer in reputations. 22

Wee are lately advised of a cessation of Arms at Padang and one Dutch Ship gone thither from Batavia and six more to follow with men armes and amunition for defence of the place. 23

Wee have entertained with Cap^{tn}. Kents permission M^{r}. John Manning who came over purser in the R^{t}. Hon^{ble}. Comp^{a}. service as Factor and Thomas Upton who came over in said Ship a soldier a writer both being persons capable of buiseness therefore hope your honour &c^{ta}. will approve thereof. 24

Our Panlima and some others have been very Important with us for to write your honour &c^{ta}. that a settlement at Pryaman may easily be obtained since the Natives there have Lately turned away the Dutch wee promised them wee would but what their former agreement was with the Dutch and pretentions may be we know not This we are assured on all hands that it is a Port that will vend great quantities of goods a very good harbour and provisions very cheap and plentifull. 25

Amongst the slaves to be sent if any procureable some husbandmen washermen and Potters would be very serviceable our number at Present being so small that since the John and Marys arrivall our buildings have been altogather at a stand being imployed in cleaning Pepper loading and unloading boats, and other necessary works so that if possible any to be gott intreat may be supplied which is a matter of the greatest Consequence. 26

Captain Kent advised us that at the Cape he had the news of the Madrass Friggots arrivall there and of her being sayled two months before he came, for a more Particular account desire your honour &c^{ta}. will be pleased to be referred to him. 27

The John and Marys long boat was run away with out of this road and three of her saylers in her wee have received advices that they run on shoare about fifteen or twenty Leagues to the southward of Sillabarr, where the boat was staved and the men seized on wee have sent after them to have them brought hither what will be the success as yett know nott. 28

Wee shall nott as formerly advised duly to represent our wants to the R^{t}. Hon^{ble}. Company their Honours now requireing it in their late Generall to us by this ship. 29

Wee must in Justice to Cap^{tn}. Kent advise your honour &c^{ta}. that he has all along during his stay here on all occasions shown himselfe very willing to serve the R^{t}. Hon^{ble}. Companys Interest and haveing lett us have some things which wee much wanted that he could ill spare therefore desires that he may be paid in specia [*sic*] particulars are as ℔ storekeepers List. 30

By this ship wee have permitted to take their passage for S^{t}. George Fransisco Reposa and Micall Fernandis haveing long served the R^{t}. Hon^{ble}. Company here being very desireous of returning to Fort S^{t}. George they have behaved themselves very well and now growne old in service, Wee intreat your Hon^{r}. &c^{tas}. favour to them. 31

Wee have lately found out a mistake humbly craveing pardon for the omission for as wee find nott M^{r}. Colliers bill of exchange for ℔^{rs}. 442. 1. 1 either in our Cash Booke Consultation Booke or Copies of Letters conclude Likewise that itt was omitted in our originall advices by the Ketch wee now acknowledge said summ to be rec^{d}. in the Account Cash 18th. Ultimo. 32

By a Ketch Lately arrived from Batavia wee have news of the New Companyes haveing withdrawn their ffactorys from Chusan in China and Banjare on the Island Borneo being the act of their President occasioned Principally for want of due supplies To the latter Place persons are again sent by the China President who in their voyage thither mett the President of Banjarr who approves nott of the 33

designe as they managed itt when this vessell sail'd from Batavia both Presidents were there. One bound for China with three ships and the other in one of his own for Metchlepatam.

34 The Orenzeb wee are advised had been att Batavia six weeks before this Vessell sailed thence which was in the latter end of May last and waited Mr. John Dolbens Arrivall in the Chambers Friggott who came out supra Cargoe of both ships for China they both sailed out of England together which makes them fearfull of her.

35 By a late Letter received from Bantall understand their fears of troubles in those parts to bee Pretty well blown over since Panlema Feea is retired out of Sultan Guillmotts country who was the Person in Combination with the Dagones so much dreaded.

36 Wee should have dispatched this ship in a much shorter time but in the first place willing to have her countenance as long as wee could espetially since for some months past have been apprehensive of troubles to the Northward wee have likewise mett with several other dissappointments occasioned by bad weather and loss of her boats, however the season of the year promiseth her haveing a quick passage and wee doubt nott butt will arrive time enough ere any shipping will be ready to proceed from the Coast to Europe.

37 On the request of Captn. Kent and his officers wee permitted them on their particular accounts to lade 44 Baharr of Pepper for which have paid the Custome of one half Penny ℔ Pound.

38 Wee have now laden on board ye. ship Baharrs 620 of Pepper black, with some old useless armes amounting to as ℔ Inclosed Invoice ℔rs. 8021. 1. 1 Bill of Ladeing for Ditto goes herewith.

39 The last year wee agreed with Captn. Renax of Battavia for a Parcell of Benjamin and not haveing money to pay him according to our agreement were forced to allow him Interest at the usuall rate of the Country which is 15 ℔ Cent ℔ Annum expecting wee should have been supplyed from England before his return to these parts but being disapointed and he complaining for want of his money wee desired Captn. Phrip who was then at Padang to discharge our obligation for the credit of our Rt. Honble. masters promiseing him to represent ye. case over to your honr. &cta. so as wee questioned not butt that he should be secured from being a sufferer the whole amount of what he paid was ℔s. 2788. 3 for which have presumed to draw bills on your honour &cta. payable to Captn. Richard Phrip or order and desire your honour &cta. will be pleased to adjust the account of Interest with him as shall be judged most convenient for his not loosing anything by serving the Rt. Honble. Compa. since had he invested said money in Gold at Padang he had made at least 12 ℔ Cent Proffitt on his Voyage to Madrass.

40 Mr. John Davis our surgeon haveing given us such repeated Provocations by his rude behaviour Incompatible with any civill Governmt. which though wee bore wth. a great while on account of our necessitys yett at last found ourselves for Example sake to discharge him, wee could say much on this subject but are very sorry should have occasion to Complain of any Person assuring your honour &cta. that even this is very much against our Inclinations.

41 Tis a Constant Fate that hath attended these settlements to have frequent Alarms as just now on writing understand that from Jantenalla that he hath a parcell of Disaffected people which he not knowing how to manage himself requested our assistance and what wee could Judge of the consequence could be no better (then what he himself presented) then the Destruction of the Pepper Plantations in his Country wee therefore imediately dispatched away 30 soldiers to quitt them at once haveing ordered them to be under his directions also that what persons they shall take who will consequently become slaves halfe of them must be for the use of the Rt. Honble. Compa. with which they were very well satisfied.

The following persons have paid into the Rt. Honble. Companys Cash the undermentioned summs for wch. requesting bills of Exchange of your Honour &cta. wee granted them humbly craveing their acceptance being Vizt. 42

Since ours by ship Phœnix copy of which comes Inclosed have receᵈ yours of y^{e}. 6th. & 21st. Nov^{r}.

The Rice sent on ship Hampshire was what wee bought up here in the time of our Troubles and had not been sent but Cap^{tn}. Tovey declared the Salt Petre on board would not make his ship sailable and desired Rice for that purpose and wee had no better to send.

Wee made no Provisions for Rice to send ℔ ship Phœnix but expected the Cap^{tn}. could have stowed away the two hundred Jarrs of Oyle with the Match Gunnys and Ropes but when they were sent on board he declared that he Could not safely carrie them wth.out Rice and being then Just upon his dispatch and haveing no new Rice in the House but what provided for the Sarum was the Reason we sent so much Old Rice as could safely stow away the Jarrs of Oyle but for the future shall observe to send grain and stores the best of their Kind.

Cojah Surhaud is an Armenian and his gratitude like the Rest of that Cast wee advised in our last that wee had hopes of a great freight for ship Colechester Cap^{tn}. Matthews falling down the river without freight but he made a hault ten days below Repore and S^{r}. Edward Littleton procured him a large quantity of Bales from the Hindiston Merchants but at a low rate two annas ℔ maund more then a Country ship Carried them for.

The remainder of the bales were in a Turks and Armenians hands they being a subtle people represented matters to the Turk that wee Could not Perswade him to freight on our ship, and very unwilling was obliged to Comply with Cojah Surhaud to lett out the ship for thirty eight Thousand Rupees to Persia & Bussera to be paid on her Return to Fort S^{t}. George or Bengall wee shall write you fully of this matter by our next.

Wee have no fine green Cloth but shall send the white Lead and Lynseed oyle by one of the Companys Vessells which wee design to send to your Port the beginning of the next month.

Wee have ordered our Accomptant to examin Mr. Trenchfeilds accounts and will write you farther about that matter so soon as buissness is a Little out of his hands being now employed upon the dispatch of the John and Mary.

Wee thank you for all news Imparted Espetially for that about the Proclamation of Warr in Europe which wee have Imparted to the New Compa. President and will take measures accordingly but wee have no other orders from the Rt. Honble. Compa. then what formerly receed which were to order their shipping for St. Hellena and to lade provision and necessaries for the use of their Garrison consigned to the Governr. and Councill there and Captn. Rouse Reports that men of Warr were ordered there to Convey the Homeward bound shipping yett the Rt. Honble. Companie take no notice thereof to us.

Captn. Kent advises us that want of Provisions and Hardness of weather forced him to Bengall wee ordered a survey to be taken of the ship by severll. Comanders and Europe Carpenters who gave In their Opinion that she was Capable to proceed for England and then ordered Goods to be shipt on board her had Captain Kent saved his passage for Madrass the Pepper on board his ship being maunds 4113. 1¼ would have filled up the Hampshire and sent her directly for Madrass but then the John and Marry would have been a burthen to you her Charterparty being out the 20th. of this month.

The pepper the John and Mary brought will about two thirds be shipt on board the same Vessel and Wentworth to be shott between their Bales to help up their bad Tonnage of Laack and Cotton yarne and the remainder wee shall dispose of in the months of February and March (which is the season that Commodity sells best) to bear the Expence of the Garrison untill such time as youll please to supply us wth. money.

Our Vacqueel advises from Dhacca that the Duan will give his sunnud for free Trade in case each of the Europe nations will Present the Prince with Rupees 20000 and the new Company the like summe in all Rupees 80000 which causes us to beleive that the news is true which the Dutch and Armenians report that the Kings Husbolhookum arrived at Surrat two months since for the freedom of Trade to all Europeans. Reced 4th March 1702/3.

Your Hon^{rs}. of the 17th. past wee reced 28th. & gladly observe the save arrivall of the Phœnix wth. you w^{ch}. was dispatched from hence wth. as much Expedition as possible.

Wee shall Observe your Hon^{r}. &c^{tas}. orders in receiveing such Goods as the Merchants shall bring into the Factory but leave them unsorted till further orders.

If the Person wee agreed with for the Timbers had been as good as his word they would have been here time enough for the Europe ship. M^{r}. Hastings was sent to Maddapollam on purpose as soon as he had taken earnest of us for them that no time might be lost not haveing any reason to suspect that a Person who lives so credibly as he does In this Place would be guilty of so mean and base an action for which wee cannot pretend to have any satisfaction or get any Timberrs without his leave.

Wee shall for the future keep our Acc^{tt}. of Disbursments under another head since your honour &c^{ta}. does not think it propper for us to keep it under the head of Paymaster which it has been ever since M^{r}. Foquetts comeing here haveing no old Bookes to put us in a method how they were kept in former times.

Herewith comes by this boat in persuance to your honour &c^{ta}. orders M^{r} I. Harrison M^{r}. ffra. Hastings M^{r}. Rich^{d}. Harrison and M^{r}. Matthew Weld with the six soldiers who are paid to y^{e}. 1st. of this month.

Wee are very sensible that your honour &c^{ta}. has sent possitive orders for us to stop the Dustore here but what made us not stop what due from the Maddapollam Merchants in Woolston time was because your Hon^{r}. &c^{ta}. wrote us in a Generall Letter that you would call Woolston to Account for the Dustore and besides it is positively mentioned in his Contract that they should pay no Dustore but since your Honour &c^{ta}. has ordered them to pay it, wee shall take care to recover it as soon as possible.

On the 29th. past the Hughleana Ketch belonging to the New Company arrived from Bengall and has brought them seven Chests of Treasure when she left Bengall which was the beginning of January, the John and Mary, and Bengall Merchant were dispatched for England and the Wentworth about half laden and the Colechester near ready to saile for Persia.

The new Comp^{a}. have made up here about fifty Bales for the Katherine but have not yett done sorting she is now at Maddapollam to take in what bales they have there ready but by what wee can understand she will nott bee able to take in above 200 bales in all.

Fuckerla Cawn has quarrelled with Ranga Raw about his not paying him his rent upon which he and his family run away and Fuckerla Cawn is come after him to Maddapollam but he is gott on the other side of the River and is a raiseing what forces he can and severall Rashwarrs thereabout are joined with him the new Company being suspicious of meeting with troubles about their walls at Maddapollam have sent M^{r}. Tiller thither with a present.

The Phousdar and the rest of the officers begin to dunn us for their presents therefore hope your Honour &c^{ta}. will supply us by the first opportunity and also with paper &c^{ta}. Factors provisions. We are,

Receed. 4th. March 1702/3. Herewith your Honour &c[ta]. will receive our last Generall dated ye. 4th. Instant which wee sent by boat Sitteram on which the Gentlemen and soldiers your honour &c[ta]. ordered took their passage but meeting with Contrary winds could not fetch further then Currera where they lay att anchor for some days but their provisions and water being near expended and the Moors Governour of that place refuseing to lett them have any provisions or a Cask of water under four Pagodas they ordered the Tandell to weigh anchor and come back to this Place where they arrived 20th. In the afternoon Inclosed is the List of Provisions they had with them which wee did think was sufficient for a month but they say that some of their potted meat and Salt Pork proved so bad that they could not eat it, It is now very uncertain when Wee shall have another Opportunity of sending them to your Honour &c[ta]. here being no Vessells in the Road that is bound to Fort St. George but the boat they returned upon which most People are of Opinion not possible for them to gett their passage now, and the soldiers declare they had rather travell overland a foot then goe again in the boat.

On the 9th. Instant Mr. Pitt went to Maddapollam to make Fuckerla Cawne a Vissitt and carried him a present which was very well accepted off Mr. Pitt was Tashreift with a horse and Cloths when he first come there hee wrote to Mr. Frewen for leave to be in our Factory with his Family which wee granted he is now gone away for Ellore and has left his Cheife Bramine to make up the Accounts with Rango Raze.

The Katherine arrived here yesterday from Maddapollam where she has taken in 130 Bales and they have about 100 Bales more made up for her here (Account whereof comes Inclosed) which is all the Goods they have ready designing to dispatch her the 25th. Instant.

Inclosed is a Paper received from one Diego Demenezes a Portuguez Inhabitant of this Place wherein he requests of your Honour &c[ta]. to receive into the Rt. Honble. Companys Cash 2600 Rupees at 7 ℔ Cent Interest to be devided when he dyes amongst the poore of Madrasse St. Thoma and Goa as mentioned in said paper & does promise if your Honour &c[ta]. does approve of his proposalls to make a farther addition being very antcient and no wife nor child here to provide for.

The Phousdar of this Place is turned out and a new one comeing downe from Gulcondah who they say is near kin to Rustandell and is to be feared will be very Troublesome if wee do not present him at his first comeing which wee cannot doe unless your Honour &c[ta]. send us a supply.

Herewith your Honour &c[ta]. will receive the Gentlemen reasons as they call them for returning hither which wee demanded of them for the satisfaction of your Honour &c[ta]. the Charge being Pags. 66. 35. 4 includeing the freight of the Vessell as to what they alledge about the boats not carrying above 100000 sticks of firewood is faulse for the owner of the boat had agreed with the Cheife to Carry for Madrass 180000 stickes and was goeing to Dew to take it in when your Honr. &c[ta]. orders arrived about sending them up and as to their being meazed with the soldiers wee do not understand their meaning they haveing all comitted into their own custody to deliver out as they thought convenient.

As to their last Article that they did not use any constraints with the people of the Vessell to come back is what the Tandell denyes to us and said positively that they forced them to weigh anchor and come back and as for her going upon a 2d. Voyage wee know nothing more of itt then that gott a little and provisions aboard and sailed this morning. This is all that wee think matteriall to answer to their Paper referring it wholly to your honour &c^ta. to Judge whether wee are highly to blame as they represent itt. We are.

We have received yours of the 18th. Febry. which Came to our hands y^e. 23d. and are glad to understand the Phœnix departed so early and rich a ship pray God send her to arrive in savety. Recod. 4th. March 1702/3

Wee Cant tell the reason why the Anjengo Peon was so long upon the road he was ordered to accompany our Peons but answered he doubted not but to be there before them.

Had wee any Person here that could Translate Dutch Wee should have sent you the Generall in English for notwithstanding we have many Dutchmen in this Garrison there is very few of them can read their mothers tongue much less translate any Letter which is very plaine from the mistake we made in adviseing your Honour &c^ta. the Purport of that Letter which being only to desire leave for some

of our Inhabitants to go thither to bee wittnesses in a Cause will not be refused them Butt the Justices of the Choultery have already taken their Depositions which they think may be satisfactory at Negapatam.

Wee shall pay the master and the other Englishman belonging to Sloop expedition Accustomary Diet money which wee think is two Pagodas each ℔ mensem, But both them and the Lascars expect to receive their wages here about which wee pray you'll send us your orders.

Wee are very glad to understand your Hon^{r}. &c^{ta}. are pleased to have a better opinion of this years cloth than that which formerly went from this Place how farr short it is in goodness to yours wee cannot be Judges but the buyer in England will find out the difference so that when your Honour &c^{ta}. receives the account of their sales it will then appeare by their prise how far short they are in goodness.

Wee are sorry to hear your Honour &c^{ta}. are pleased to esteeme the Cloth unevenly sorted since all Imaginable care has been taken therein and wee can assure your Honour &c^{ta}. that the bales N^{o}. 1 are sorted up to muster but its Impossible to make so even a sortment to a Lower number Since what cloth dont come up to the first Number though but very little difference is turned to the second and cannot be so evenly sorted as those by the muster which with submission to better Judgment wee think a very good reason to have but few numbers since wee shant want cloth to Compleat the Investment the want of which formerly wee presume was the reason the Companie approved the sorting to lower numbers and getting an equitable abatement thereon besides your honour &c^{ta}. has in a Letter to Mr. Frasier complained of many numbers and that twas Impossible to Judge in lower numbers between the price and Cloth except it was Considerable wee therefore for the reasons before mentioned made no more then two Numbers. But if this be the true reason our Merchants are grown so rich their estates must have been gotten by former Investments because the Companie are now Considerably in arrears to them w^{ch}. if not speedily paid will soon make appear that their Riches consists chiefly in their Creditors which begin now to be so clamorous that ye Merchants are very uneasy and make us so too with their daily dunns w^{ch}. wee wish maynt be of ill consequence to the next Investment.

Wee cannot immagine with what reason your Merchants could complaine to your Honour &c^{ta}. that wee employed their washers or that their goods lay unwashed which we assure your Hon^{r}. is false for that they never brought in any cloth to be either turned out to washing or for sorting but it was immediately done tho' our own was detarded thereby and had they had no more cloth washed then the thirty washers could have done which were sent from Madrass not halfe that quantity could have been sent ℔ the Phœnix they then did which Conicoply Paupia yesterday owned in the presence of many wittnesses Inclosed your Honour &c^{ta}. will receive a List of what brown cloth your Merchants have brought into the bounds what is at washing and how much embaled by which your Honour &c^{ta}. will perceive wether wee can comply with your orders in sending a thousand peices of their Long Cloth to be dyed blew wee have already sent about four or five hundrd. of our own and shall send the remainder as soon as it comes in which we shall gett dyed of as deep a colour as possible for the prise wee now pay but if your Hon^{r}. &c^{ta}. will please to have it dyed of as deep a colour as y^{e}. Dutch which is almost a black it will cost four Pagodas a Corge more.

For the future wee shall take care to send you the Generall Bookes of this place so early that they may timely be brought into yours and sent home in due order Copy of our last years bookes shall be sent you as soone as possible as also Copy of our bookes B D and F which are almost finished with the Copy of our last years Consultations and Dyarys Account of Cash expences and Receipt which for the future shall be kept up & sent you in due time and if wee find wee want any help therein wee shall pray your honour &c^{ta}. to send us some if wee, do

request may, be persons proper for such business and writes good hands and since your Honour &c^{ta}. are pleased to recommend its an acceptable peice of service to the Company to have copied out Land Custome and Sea Customers bookes Mintmasters Paymasters and storekeepers to Commence and end with the Generall Bookes each Gentlemen who Officiates in said Posts has promised the Compliance thereto.

The sloop Expedition shall be repaired as soon as youll please to send us sheathing boards &c^{ta}. materialls to do it withall and if the Pegu ships happen to fall in here wee shall supply ourselves with planck and what elce wee want.

Mr. Bridges returnes his most humble service to your Honour &c^{ta}. for your approvall of his being secretary and promises to keep his business in such order that you shall have no reason to disapprove of his service.

Wee request youll be as speedy as possible in supplying of us with what stores you can being in great want of them and for the six Culverin ordnance wrote for which is wanting for the south curtain they must be for Tevenapatam because wee have no south curtain at Cuddalore and those Gunns that can be spared from of the Curtains at the Fort are designed for the new bastion that's building att Cuddalore.

The account of the Companys yearly revenue in this place was drawne out as accustomary but no Custome included for the Companies goods exported because they pay none and for those Imported as also for the Dustore the Companie have always had Creditt in their Generall bookes so the List was drawn out accordingly but wee are under a misfortune here of being a markett for the sale of severall goods for which your place receives the Custome therefore for the future wee hope your honour &c^{ta}. will please to direct that what goods comes down for sale shall pay the Custome here according to their entry that the place may receive the benefitt for what its markett can vend.

Wee are sorry to hear that England is become a Principall in the warr with the Emperor and Dutch against France and Spaine we shall keep this Garrison in the best posture of defence wee can and those few men wee have in due decorum but hope yo^{r}. honour &c^{ta}. will send us a supply of English men if you can possible spare them for in the List sent home you will see we are in great want thereof.

Inclosed wee send your Honour &c^{ta}. a Prise currant of the present prises of China goods here. But if any quantity arrives they will Lower the Prise the best Comoditie M^{r}. Dolben can leave with us is gold of which if your Honour &c^{ta}. please to order us a quantity it will be very serviceable & acceptable.

The silk winders shall be paid according to their Contract deducting what they have already receed.

Wee have ready embaled above two hundred bales and hope by the Conclusion of this month to have as many more in a readiness which shall be kept according to your Honour &c^{ta}. orders till a ship of the Comp^{a}. arrives or that youll please to order any other Conveyhance for them.

The Juncaneers of Bomy Pollam (which are under Gangaram) have lately been very Insolent and put in chaines two of our Peons wee sent thither for wood and match wee have lying there and demand a hundred Pagodas for their ransome and for the Liberty wee have of provideing wood if your Hon^{r}. &c^{ta}. approve thereof wee can easily do ourselves right by manning a Chellinge with twenty men and bring the (Conicoply) who is the great Instrument of stopping our people hither after which wee shall agree upon easier termes which may deter those rogues from committing the like affronts and their master from protecting and detaining all malecontents of this place which he has hitherto done and still refuses

the delivery of Four Dutch men belonging to this Garrison and Mr. Afflecks slave who wee hear are with him which being the needfull with due respect wee crave leave to subscribe.

Our last unto you was on the 6th. ultimo since then have dispatched the Colechester for Persia who sailed from the new deeps the 6th. Instant according to Contract made with Coja Surhaud Israel Copie of the same our letter to the Agent and Councill comes Inclosed as also our dispatch to Captn. Rouse, Cojah Surhaud was very negligent in his affairs & would not send his bales on board the ship notwithstanding they were in his house att Calcutta the President and warehousekeeper often sent for his Gomastah and prest them very earnestly to send ym. on board but the fellow said he could not without his masters orders the broker Receed 14th. March 1702/3.

wrote Cojah Surhaud very earnestly to come down severall times and sent a boat to wait on him butt he deferred Comeing down day after day untill both the smacks were sent down the river to attend the Colechester and Wentworth for Coxes Cap^{tn}. Rouse stayed here untill the day before the ship was to sail from Culphy. The primo Instant Cojah Surhaud Israel came from Hughly and wee lent him the Charles and Betty sloop and the Presidents Brigantine w^{ch}. carried about Two hundred and Fifty bales they both gott on board the ship before she left sago and delivered the bales but Cojah Surhaud who ffollowed in a long boat with a deck meeting with a little bad weather would not venture into the new deeps and so gott not on board to write his Letters nor to take bills of Ladeing for the goods besides he had left the Boatswaines receipts behind him with his Gomastah to follow in a Country boat two or three days after which was not able to proceed without great danger.

So farr as wee can learn the occasion of this misfortune was Cojah Surhauds hopes of four hundred bales of hendoston merchants goods that was every day expected from Pattana in Hughly and he thought that in case the bales were not sent on board which were in Calcutta wee would nott give the Cap^{tn}. orders to sail according to Contract but by permitting the ship to stay one day or two at Culphy the springs would sett in so strong that she must of necessity have stayed eight or ten dayes longer for when he left this place the second Instant he depended so much upon persuadeing Cap^{tn}. Rouse to stay after he had gott on board by weighty reasons that he wrote to hughly to the hendeston Merchants to send their goods to Culphy for he would gett Vessels to Carry them from thence to Sago but he was disapointed and although wee are sorry for it not knowing what trouble the Captain and Gentlemen may have at Gombroon yett Coja Surhaud is rightly served considering that twas by his means the Turk did nott lade six or seaven hundred bales whom wee were first contracting with and resented the thing so ill that after Cojah Surhaud had hired y^{e}. ship he would not put one bale on board her but sent them for Surratt on moores shipping Cojah Surhaud Demainding more freight of him then wee have done.

If there arrise any disputes on the ships return to Fort S^{t}. George youll find that it hath not been our faults and Cap^{tn}. Rouse hath hitherto dischargd his Duty and deported himselfe very well unto them.

Wee have news from Suratt and Pattana that the Mogulls Husbollhoocum for free trade to the hatemen are arrived there Copy of which comes Inclosed M^{r}. Redshaw &c^{ta}. are getting in the twelve thousand maunds of salt petre detained last year and wee are sending them a Bill of Exchange to receive Ten Thousand Rupees in Pattana to give them creditt to Provide eight Thousand more in twelve Thousand maunds so that you may expect a plentifull supply the next year.

Wee are of opinion the Husbolhoocum for Trade is arrived Dhacca because the Duan makes propositions to the Two English Companys French & Dutch to permitt their trade to go forward in case each of them will present the prince with Twenty Thousand Rupees, S^{r}. Edward Littleton &c^{ta}. advices they are willing to bee at a reasonable expence to have an order of Trade wee know not what they Terme so haveing fflung away Ten Thousand already without hopes of benefitt butt wee have returned answer that we will be at no expence to putt the Mogulls orders in execution but in case the Prince doth authorize trade to go forward as formerly when our Masters Ships arrives wee will make him a present of rarities &c^{ta}.

The 11th. Instant M^{r}. Halsey left this place to dispatch ship Wentworth from Coxes wee detained her some time for one hundred Bales of Raw silk expected from Cassimbazar and wee were unwilling she should sail without it bearing so great a prise in England her Invoice amounts to Three hundred Thirty five thousand four hundred Rupees.

Although wee have little money in cash yet the latter part of the year the eminent Merchants and some others that have gott goods are willing to lett us have them on bills of debt rather then to keep them about so that wee shall be

able to send you by this vessell and the Mary Smack upwards of two hundred Bales which wee hope may arrive before the dispatch of the Chambers considering she may not arrive with you from China untill the Beginning of this month tho' on the other hand you haveing the whole Coast Trade to yourselves this year (by the unhappy loss of the Norris) and but the Phœnix from hence it be somewhat doubted yett wee conclude these goods Cannot be unacceptable to you.

Mr. Thomas Curgenven desired leave this vacation time to Voyage for Fort St. George to visitt the Governour and some Freinds there which wee assented unto considering his Industrie in dischargeing his trust when Booke keepers Assistant here and promiseing withall to return by the Mary Smack or on the first Conveyhance which we expect he will since wee shall have occasion for him on settleing ye. subordinations after the Husbolhoocum and our Masters shipping arrives.

By this vessell comes—Coops of Geese and—Goats and shall send more by the Mary Smack.

Wee have ordered the examination of Mr. Trenchfeilds accts. and shall send it by next vessell.

One of the new Companys Vessells passing by this place Brings news that the Bengall Merchant was dispatched from Coxes three or four days since wth. near seaven hundred Bales of goods the Upton Galley is at Hughly and may be dispatched from thence sometime this month being about one hundred and Fifty Tonns burthen and all this is done out of a stock of one hundred Thirty and seaven Chests of Treasure besides broad Cloth Lead &cta. and Twelve Chests of Treasure remains of last years besides as they affirm and Sr. Edward Littleton &cta. expected 70 or 80 Chests of silver By the Norris for the Bay Stock.

There is a Difference between Sr. Edward Littleton and councill who charge him in common discourse with many ill practices espetially what acted with Muttradass which being none of our buiseness shall not Trouble you with perticulars.

This sloop Charles and Betty built upon the Frame sent us ℔ Ship Anna from England wee send you laden with Petre and Bale goods to remain at Fort St. George it being Consistant with our Masters orders as youll find by Copie of a Parragraph in their letter by ship Wentworth sent you Inclosed ye. William and Mary Smacks being sufficient to supply our occasions whilst our Masters order ships up the River which we are apt to beleive they will continue dureing the Warrs.

Inclosed comes Mr. Harris his bill of Ladeing and the Invoice of what ship on board amounting to 22327 Rupees. We are.

Sirs,

Receed 24th. March 1703 p Mary Smack.

The Inclosed is what wrote by the Chales and Betty Sloop which vessell wee have detained two or three days longer to sail in Companie with the Mary Smack considering the lateness of the year and the Experience Mr. Adams hath in the passage beyond what Thomas Harris can pretend to.

Herewith comes Bill of Ladeing and Invoice of what Shipt on board the Smack with second Bill of Ladeing and abstract of the Invoice of what shipt on board the Charles and Betty both amounting to Ruppees 65629 which wee hope will safely arrive wth. your honour &cta.

The Charles and Betty sloop being ordered by our masters to remain on the Coast wee beleive you have no occasion for the Mary smack wherefore Intreat your early dispatching her from Fort St. George for wee have onely the William Smack here which wants sheathing and fitting and must be done at Ballasore after the return of the Mary hither for wee shall not part with her hence untill the Mary returns and then there will be but a short time for repairing the William Smack before we may reasonably expect the Arrivall of our Masters shipping and wee would willingly have her ready and in Ballasore road to attend the shipping upon their arrivall or to come away with the Treasure.

In case you have Rupees coined please to Send Sixty or Seaventy Thousand by her or one Thousand Chests of Coppar if the China ship is returned in failure thereof Fifteen or Twenty Allomgerey Pagodas but rather then not to have her early returned to us please to dispatch her empty or with what ffreight may offer within Ten or Twelve days this wee hope may meet with your approbation for the reasons above given.

Wee would have sent more salt petre by this Vessell but tis not to be procured at six Rupees ℔ maund the Dutch buying up large quantities upon the arrivall of a ship from Batavia which brought advices of warrs being in Europe wee doubt not but wt. hath been sent will supply your occasions this year and wee expect the Companies early from Pattana in August.

We send Ten Casks of Red Lead to help Kintilage the Smack and on the Charles and Betty was sent ye. white lead and Lynseed Oyle wrote for.

Wee have not received the Account Currant of your Presidency these two last years which made us beleive that it agreed with what sent you from hence if there is any error when yors. arrives wee shall rectifie ours thereby.

Wee would have sent some goats wch. ye. steward had provided by this vessell but Mr. Adams saith he cannot find rome for them carrying his water and Cables upon Deck.

The upton Galley remains yet 'at hughly and Sr. Edward Littleton &cta. think not of dispatching the Tankerviell this season for England.

Herewith comes Mr. Trenchfeilds Accounts for severall years and acct. errours as they stand in the Compa. Bookes for your perusall which we hope will clear that point and for other matters wee can give no light therein here being no person in this councill that was in the country at that time excepting the President who was not then in trust or acquainted with the Companies affairs nor is there any black servants that were then writers in the warehouse liveing or to be found to be discourst about this matter more than what formerly wrote you.

Herewith comes account sale of ye. Gold receed by ye. Colchester according to desire for your satisfaction.

Upon the smack wee send John Bailey who came out upon ye. Wentworth soldier, prisoner to Fort St. George that he may serve out ye. time Covenanted with ye. Rt. Honble. Company in your Garrison if you think convenient he haveing given in a deposition against his officer ye. Ensign here that said Ensign would have hired him to shoot ye. Presidnt. upon examination of ye. Charge could not find circumstances to beleive ye. Deposition but that it proceeded from malice the Ensign haveing turned him out of his house for abuseing his Familie in his absence and therefore not fitting to serve under him. Wee are.

Hon^ble. S^r. &c^ta.

The news of the Norris wrack being seen between Carrera and Ramapatam about two months agoe by a Vessell that was bound to Madrass wee suppose your honour &c^ta. has had an account of the reason of our not adviseing your Hon^r. &c^ta. before of it was in hopes of getting a more particular account from the persons that saw it the being at Pettipollee and yesterday the Tandell of the Vessell arrived here who gives us the following account Viz^t. That as they were Sayling between Carrera and Ramapatam toward Madrass the beginning of February they saw something at a distance floteing in the sea which a first sight could not tell what to make of (the sea haveing free passage over it) but comeing near to it plainly deserned it to be the wrack of a large ship all burnt and Could see the forepart of the ship above water and the starn post and some of the ribs but did not Come within 200 yards of it haveing never a boat. Rec^d. 18th. Aprill 1703.

The Tandell and Armenian that was on board was for Comeing to an anchor by it being in 10 Fathom water and lying by it all night it being six a clock at night when they discovered it but the Portuguez Pilot would not agree to it declareing that the wrack belonged to the new Company and if they sho^d. meddle with it the new Company would say they stole some of the Treasure out of her so they took no farther notice of it but made the best of their way towards Madrass but the winds proving contrary could gett no farther than Charea coal point where they lay near a month and then returned to Pettipollee but did not see the wrack as they came back.

Upon this news the new Company immediately sent away an Englishman to Pettipollee to make farther inquiry of the Portuguez Pilot and Armenian and has carryed them to Ramapat^m. to shew him where they saw the wrack and have also sent Pero C Dubash and this day President Pitt M^r. Tiller and severall of y^e. Comp^a. servants sett out for Ramapatam and have taken into their service Eight Topazes soldiers and some Peons to go with them which makes a great noise in Town they haveing not as wee can hear received any further advices of the wrack nor from their people which are gone to Ramapatam but wee are of opinion what makes President Pitt in such haste to go from hence is Rustundell Cawne being within Ten Leagues of this place and going to Chiceocull and expected here in few days.

Wee have severall times advised your hon^r. &c^ta. of Rustundell Cawnes comeing here and also for things proper for Presents for want of which the Phousdar and all the officers are our enemies and our Freind Mahumud Careem is at Gulcondah which gives us just cause to dread his comeing being so ill provided for him and he being of a very avaritious temper and consequently wont be satisfied with a small matter wee shall be as frugall as possible and as soon as he arrives and wee can Judge how wee are like to Come of shall advise your Honour &c^ta. Honble. Sir &cta.

Recd 20th. Aprill 1703.

Wee have received yours of the 29th. March and 10th. Aprill also a short Letter from Mr. Secretary dated the 30th. Ultimo Incloseing Invoice and Bill of Loading for sheathing nailes Packing stuff &cta. sent us in a Country Boat. The Drum heads are full of holes and not fitt for use and the Gunner says the Red Betteelas are so rotten as not worth makeing up so wee must be forced to return them again and request you will please to send us some more by the first opportunity for wee have but one Flagg to the staff that fitt to hoyst.

If Gunner Atkinson has received the wages for the two Europe men belonging to sloop Expedition they say he has not as yet remitted it them the sloop is in a good forwardness and hope shall be able to gett her over the barr the next new moon her Bottom is extreamly well repaired and may be a serviceable vessell to the Company for many years as soon as wee receive your honour &cta. orders she shall be dispatched from hence with as many bales of the Companys as she can carry wee bought no more sheathing plank then wee thought necessary for her use which Cost us Twenty Pagodas a hundred and but Thirty four Timbers of 22 to 24 foot long and about seaven Inches thick which cost us Pags. 1¼ a peice of which if your Honour &cta. please to have any sent you pray advise for Aver Mercon has requested us to spare him Ten for which he is to give a Pagoda and halfe.

Wee shall not fail punctually to comply with your Honour &cta. orders for sorting cloth in the next Investment and use our utmost endeavours to bring the Merchants to the lowest terms possible Inclosed comes the state of their account by which your honour &cta. will perceive what number of bales wee have in a readiness with their amount what quantitie of cloth is at the washers and in the Merchants Godowns which wee shall gett in and embaled as farr as possible that they may be in a readiness to be sent you upon such ships as you shall please to order.

By your permission wee have this day given our Bill to the merchants on your Honr. &cta. for Twenty Thousand Pagodas Payable to Racanada Chittee and Oangemonaidou att six days sight out of which the Honourable President will receive wt. due to him from our Merchant and by the state of their account you will perceive there remains a Considerable Ballance so that they have not been so plentifully supplied as you are pleased to express or is accustomary the delays of which since your honour &cta. are no ways Jealous will be prejuditiall to a future Investment its plain the Company have the advantage thereby as soon as your merchants bring in Long cloth wee shall have it Dyed of the deepest colour according to the Company's orders but then it will cost nine Pagodas a Corge dyeing.

Your honour &cta. Instructions which was brought by the present Deputy Governour has been complied with, with all the exactest care wee possibly could and if youll please to turn back to our Letter of the 22d. January last youll find wee gave you an account that there was no other goods Landed out of ye. Loyall Cooke then two hundred and Fifty Chests of Coppar wch. has paid the Companys permission and Custome to the Customer of Tevenapatam in the month of Octobr. last and by him again repaid into the Rt. Honble. Compa. cash when his monthly accounts were past which amounted to Pagodas 421. Fa. 15. Cash 36 The monthly expence of the Generall Table is particularly entered in the Cash which has been Transmitted

you to December last Inclosed your honour &c^{ta}, will receive each monthly expence to the expiration of last month which does not amount to above one halfe expended by the Deputy Governours Predecessors he manages it wth. all the good husbandry he is Capable of and hopes to meritt your applause upon perusing the account. The money overpaid him &c^{ta}. in Commission upon the Loyall Cooke is again repaid into the R^{t}. Hon^{ble}. Companys Cash according to the account rece^{d}. from your honour &c^{ta}. particulars of which now comes inclosed.

Since your honour &c^{ta}, cannott send us any Culverin Ordnance wee shall make use of what can be spared from the Fort But they will not be sufficient for the new work thats now carrying on at Cuddalore.

Since your Hon^{r}. &c^{ta}. are pleased to direct that what goods come here to be sold if first Landed with you must pay the Custome there wee must acquiess and thô wee agree it is all one to the Company yet if what goods come from your Port was to pay custom here it would be much our advantage Because wee receive Twenty times the value by Certificate of what is returned from this Port to yours in the same manner.

The Deputty Governour acknowledges the Favour he rece^{d}. from the Hon^{ble}. President of the news papers from Aleppo and Spawhaune which adviseing that England is a principall in y^{e}. warr with the Emperour and Dutch against France and Spain has Induced us to put this Garrison in the best posture of defence wee could and all things are in as good readiness as our circumstances will admitt and since your Hon^{r}. &c^{ta}. cannot spare us any Europe men wee shall do the best wee can with those few we have if occasion requires.

According to your Honour &c^{ta}. Instructions wee shall lett M^{r}. Haynes have two or three of the silk winders to instruct his people he obligeing himselfe that what silk he makes will dispose of to the Comp^{a}. at the markett price hitherto wee have been able to doe little therein for want of the silk winders to Instruct our people and Food for the Worms But now wee have taken in a large peice of ground and are planting it with Mulberry shrubs near Mange Copang which wee think the proprest place for these people to inhabitt being within the reach of our Gunns which will be a security to what silk they shall make Our wormes thrive well and the silk they produce very good and if wee can perswade a number of people here to be instructed in this Trade wee doubt not but in time to bring this business to perfection.

Ramadas the Juncaneer of Boomepollam has released our Peons but gives out that no person belonging to the English with Letters or anything else shall pass by his Juncan and that if wee order any to take in the wood wee have lyeing there wee must pay for the same notwithstanding its paid for already or make him a Considerable present, he has lately been very Troublesome to the French and has sold four hundred ox load of Paddy they had comeing into Pollicherry for which wee hear they Intend him the same Treatment they formerly shewed one of his Predicessors which wee hope they will perform being near neighbours and ease us the Trouble of doeing our selves Justice.

In ours to your Honour &c^{ta}. bearing date the 3^{d}. December last wee gave you a full account of Narra Reddees Buiseness some of the partners have paid some shears and some have promised payment in few days others have lain in prison a long while being either not able or not willing to pay their proportions which is the onely means wee have to make them comply for they have neither houses or goods to seize upon to make satisfaction.

Persuant to your Honour &c^{ta}. Direction wee have delivered the Presidents Commission to W^{m}. Owen to be second Ensigne of the first Company of Foot Soldiers of this Garrison for which he returns his humblest Thanks and promisses a Faithfull Discharge of his Duty.

M^{r}. Richard Farmer keeping the Stewards account till the ultimo of October last the Ballance of which is Four Hundred Seaventy Five Pagodas Thirty Five

Fanams and one Cash which he alledges was a Ballance left by Mr. Bawgus his predicessor in the month of Aprill 1701 which appearing by said account under Mr. Bawgus owne hand wee think Mr. Bawgus chargeable therewith which wee advise because Mr. Bawgus being at Madrass your Honour &cta. may take such methods for recovery of the Companys money as you think best.

Mr. Skingle being very much troubled with Fitts desires leave to returne to Madrass to seek For remedy Mr. Nelthorpe also desires leave to go to Madrass to request your Honr. &cta. to lay downe the Companys service and to return for England and wee not haveing hands here sufficient to do the Companys buiseness desire your Honour &cta. will please to send us Two or three hands who write good hands, by the First Oppertunity. July never came to our hands nor the Copy of the former nor any other originall dated the 15^th^. February till that before mentioned of the 16^th^. September which wee recd with that of y^e^. 9^th^. November as before mentioned.

Recd. y^e^. 3. May 1703 p Ruparle.

Wee thank you for the account you have given us of Affairs in England and India.

Wee do not perceive by all you have wrote us that the restraint on your Trade was taken of but wee hope it is since by the Kings orders for that tis done in all these parts and as wee wrote you in our last wee were credibly informed that when orders were issued here and at Amadavad and all others places of our Investment the same were issued out for your part Bengall and all places of the Kings Dominions.

Wee are glad to hear of the safe arrivall of the Loyall Cooke and Phœnix with you the ill Treatment the Comander of the latter gave his passingers wee beleive hath cost the R^t^. Hon^ble^. Company at least Forty Thousand Rupees in the Freight of the Loyall Bliss and Nathaniell from Persia which ships arrived here about the 11^th^. of December.

Wee take notice of what you write concerning the Padrees misinforming us our former Vukeel did us good service till Abdull Guffrees complaint of his Ships being robbed in the south seas reached the Camp which was as long as wee had occasion to combat with our adversaries afterwards he proved rogue enough but wee hope we have found out wages and means to be pretty even with him he spared your Vacqueell by our orders rupees [*lacuna*] of which wee think wee formerly advised you wee have occasion to keep our vacqueel that wee wrote you about in our last sometime longer at Court if you have occasion you may make use of him as wee then wrote you.

The Copy of your Letter from the Consull at Grand Cairo with the Letters mentioned for Mess^rs^. Wheeler and Cockroft and all other papers sent us with yours of the 18^th^. July are miscarryd.

By what wee have already mentioned of the Bliss and Nathaniell youll perceive that they mett with better success then the Susanna & Rhebow wee don't yett hear of the formers arrivall in Persia and the latter was lost on the Chagoes in her way thither.

S^r^. Nicholas Broker lately wrote him that he had agreed with Enattula Cawne for a Phirmaund on the Terms S^r^. William Norris would have agreed with Yar Allebeague which was reported to be two lack of Rupees to which our Vacqueel writes S^r^. Nicholas answered that he would not be at the Charge of a Phirmaund therefore he required him to come away without one which he adds that the Broker accquainted Annattula Cawne with his M^rs^. orders who was very angry and refused to lett him come away.

An Act of oblivion being agreed on between both Companys wee will not foule our peons any more with the Crimes of our adversaries.

You were advised by our last Letters gen^ll^. or particular that the Speaker was cast away on the Island Maritious where the prosperous is gone wee dont as yett know.

If any ships goes from hence to your Port this year wee will send you garden seeds & salloes the former shall be packed as you desire and wee will send you wheat likewise if the Government will permitt us so to do which wee do not expect for that by reason of the excessive and unseasonable rains this year and the destruction of grain by the Sevagee army the price is advanced here abo^t^. three or four hundred ℔ Cent already wee know of no ships that went from hence to your Coast last year One Dane one Armenian ship and the adventure when the two former sailed wee were Invironed with horse and foot and Could not gett bread to eat and the owners of the other ship did not think it would quitt their Cost to send the Vessell to you except they could reap the markett price for what she carried and they did not order M^r^. Thompson to exact more and wee presume the Freighters of the Phœnix tooke the same Liberty, elce you would not have had occasion to have requested us to order you wine Fruit &c^ta^. from Persia at a Cheaper rate.

Wee shall be gladd to hear that notwithstanding the misfortune the Aurunzeb mett with near Batavia she remains in a Capacity to perform her voyage wee begin now to expect to hear of her arrivall on this Coast wee observe what you write concerning Mess^rs^. Catchpoole and Loyd and their Settlement att Chusan but are not at all amazed with their magnifying mole hills to the magnificience of mountains.

All news sent us by the Hon^ble^. Presid^t^. in particular Letters hath been in the same manner thankfully acknowledged wee have according to the R^t^. Hon^ble^. Comp^a^. orders proclaimed her Majesty in all their settlements on this Coast with the utmost solemnity.

Wee heartily wish the Loyall Cooke and Hampshire a prosperous voyage and safe return to our masters and have by the Loyall Bliss and Nathaniel sent them copyes of what you wrote us concerning their affairs.

Wee hope the Kings orders is long ere this arrived Bengall for takeing off the restraint on trade there wee did about the same time wee sent you Copyes of his orders to this Governour on that account transmitt the same to them and have since forwarded another copy so that we hope their Port was opened time enough for the Ladeing what ships under their managements.

What Effects M^r^. Dubois left at Bombay wee have ordered to be sold at publique outcry and the produce to be put into the R^t^. Hon^ble^. Companys Cash and brought to your creditt and account of which wee hope to send you by next conveyhance wee are Informed from thence that what he left in trust with M^r^. Broome was to satisfie him for what money he paid in England to satisfie the R^t^. Hon^ble^. Companys first demands according to Contract as appears by papers under M^r^. Dubois's hands therefore its our presents thought that nothing of that can be appropriated towards the Discharge of his Debts.

What money of M^r^. Harbins was attackd in President Beards hands must be secured for that he hath not discharged his debt to the R^t^. Hon^ble^. Comp^a^. concerning which John Gayer wrote said President if he mistakes not from Bombay and repeat y^e^. same by next conveyhance.

Your Pacquet to Agent Owen and M^r^. Bruce shall be carefully forwarded by first conveyance with our orders to require them to Comply with what you have wrote them wee will Likewise order them to send you y^e^. quantity of wine, Fruit &c^ta^. you desire as for horses wee believe twill be needless for that wee have wrote them severall times to send us some for presents and their answer that they cannott procure such as wee want.

Wee never expected that what was taken from us and the Dutch by this Government would be restored till force makes them relinquish their Interest in the security papers to effect which wee have neither men ships nor orders and thô the Dutch are Intrusted with both at Batavia they don't seem to be Inclined to make use thereof.

Haveing answered yours wee proceed to give you an account of what news wee have from Europe and of occurrences here.

Copys of all materiall of the former with Copy of our M^rs^. Letter to us forwarded by overland conveyhance is inclosed to w^ch^. wee desire youll be referred.

The Loyall Bliss and Nathaniell sailed for England from Bombay the 11^th^. Instant being ordered to stop a day or two at Carwarr to take in some pepper to compleat their Ladeing for want of shipping to bring itt up from thence their Cargoes will amount to above five Laack of Rupees which is Considerable more then they brought us the same day they sailed from Bombay the Arrabian Merchant let for 133 Tonns to the new Company that have lain here about Five months sailed from this part for England wee are not certain what her Cargoe amounts to but suppose about sixty Thous^d^. Rupees.

The 19^th^. of the past month arrived the Albimarle this Port from Bussera and Persia when S^r^. Nicholas Waite will dispatch wee do not yett know. Thô. she hath been almost three years out of England when she came from Persia the Susanna was not arriv^d^. there.

The french ship that came out to this Coast this year hath been down a Callicutt and taken in abo^t^. five hundred Candys of Pepper were they heard the news of the warr which made them hast away to Goa where she lieth under alquando Castle their Chief wee believe designes to send the remainder of her Cargoe thither on Portuguez vessells but she will in probability be a winter ship.

The 4th. Instant the Savajees came against this Citty with an army of about 7 or 8000 Thousd. horse besides Foot who robbed and burnt allmost all the Towns and Villages round about for a considerable space but did not attempt anything against ye. walls of the Citty thô a great many people flying out of it became a prey to them tis thought that they have carryed away in money Jewells and fine goods to the amount of Ten Laack of Rupees besides wt. they have distroyed by fire but they are now gone as wee beleive without design to return again this year.

The Armenian ship from your Port arriv'd here about the beginning of last month.

Yesterday wee were advised from Bombay of the arrival of a particular subscription ship there commanded by one Leckey late Chirurgeon to the Island what her Cargoe or Burthen is or were [*sic*] she is designed wee dont yett hear but she hath been at St. Lawrence & from thence to Acheen were she mett the sloop Expeditn. run away with by her mate from Bencoolen Copy of a declaration of two of the men belonging to the Garrison that was on board her and brought from acheen to Bombay by Captn. Leekey is inclosed.

The Rt. Honble. Compa. and the executors of Mr. Edward North deceased who formerly served ye. Compa. at Anjengo have wrote us to receive all his Effects into their Cash and draw Bills on them for the amounts payable to foresaid Executors sopposeing all his estate was of this India but their being Pagodas Five hundred and eleven and Twenty Fanams in the hands of Mr. Thomas Wright one of your Councill wee desire youll receive that summe into the Rt. Honble. Companys Cash with you and that youll draw First second and Third Bills on them payable to Messrs. Edwrd. and Hugh North in London for the value and that youll deliver said Bills to Mr. Wright that he may forward one of them to England ℔ first Conveyhance.

Wee think it absolutely necessary at ys. Juncture to lay in a small store of paddy which is now indifferent and cheap and can be always measured out to the servants and Peons again at the Buzar price for it's more then probable upon Doud Cawnes returne from the southward but he will give us some trouble and hinder provisions comeing into this place and unless wee have a store of paddy and other provisions to supply the soldiery and servants in case of necessity it may prove of ill consequence. TO THE HONOBLE. THOMS. PITT ESQR.
PRESIDT. AND GOVERNR. OF FORT ST.
GEORGE &CA. COUNCILL.

MAY IT PLEASE YOR. HONR. &CA.

Receed 9th. May 1703 ℔ Sloop Sumatra.

1. Wee have received your honour &cas. ℔ ship Bencoolen and Hampshire of the 19th. June with two Postcrips [*sic*] of the 9th. and 25th. July and 12th. October last the former came to hands ye. 10th. October and the latter the 7th. December last past to which wee come now to respond.

2. Wee have been so full in our Generall to the Rt. Honoble. Company ℔ ship Hampshire copy whereof comes inclos'd to which Referr to avoid needless repetitions.

3. By the Hampshire have sent the Rt. Honoble. Company a List of the severalls wanted here and hope a supply thence ℔ first, since as your honour &ca. observe we may be furnished from thence on much easier termes.

4. Of Rupees Fanams and copper cash for these parts the quantity wee Judge may be sufficient for ye. prest. is vizt.

Rupees to the amount of Dollars	3000
Fanams	2000
Ditto for the Northward	5000
Coppar Cash	3000

which intreat may be sent ℔ first and if mexico Dollrs. be not in any quantity procureable desire pillar in their stead which if weighty question not on an Emergency to putt off for pepper.

5. Wee herewith send copy of Capt. Phrips memorandums in relation to Jubang to wch. humble refeer [*sic*].

6. Wee hope our masters will not blame us for the pepper spared the Anne since nothing but an absolute necessity could ever have induced to make such a trespass on their honours orders.

7. That wee have no news of the John and Mary who sailed hence the 11th. July last with a Loading of pepper is very surprising wee are apt to beleive she may have been drove by your port and so obliged to goe to Bengall Copy of her Invoice is now sent.

8. The Sarum sailing from Bengall presume has no orders to touch at Nayas therefore as Opportunity offers shall endeavour to get slaves from thence.

9. For the Liquors sent ℔ Ship Bencoolen render our due acknowledgements.

10. Wee shall be very punctuall to observe orders and now whilst writing have almost compleated the Hampshires Loading and have little reason to doubt the having pepper sufficient to come in so as to dispatch her a full ship to our Masters within the Limits of charterparty time which expires the 30th. Instant.

11. Ship Sarum not being yet arrived dispair of dispatching her with pepper for the homeward bound shipping tho' wee had it ready in our godowns here.

12. The pepper sent by the John and Mary was very well garbled by an Engine lately made as is also what now sent ℔ ship Hampshire insomuch that the Commanders and officers affirm that the Lading of it is no manner of Fatigue to their people which used to be so troublesome.

13. In our dispatch to Capt. Tovey shall follow the method prescribed in your honour &cas. to Capt. Boulton.

14. Ship Union imported here the 18th. December past sailing out of the Downes ye. 8th. March 170½ by whom recēd a Generall from the Rt. Honble. Company copy whereof comes inclosed After taking in what pepper wee can procure for them they designe for Fort St. George thence for China they were unwilling to go for Bantall for pepper there so having formerly promised the Commander and SupraCargoe of the Bencoolen a loading of pepper hoping she would have reached the Coast time enough Eré ye. homeward bound ships sailed for Europe and now Judging ye. Countenance of a ship to be very necessary to the Northward wee have permitted them to purchase pepper there they paying the Rt. honble. Companys stated customes due thereon and during their stay there to be Assisting to the Chief and Councill with their ship and men as the Rt. honble. Comps. occasions shall require and that the pepper they shall carry over the Rt. Honourable Company are to have ye. refusall.

15. Wee have laden on board the Hampshire pepper black Bahars 640 which with ye. goods continued on her compleats 380 Tonns copy of the Invoice by her is inclosed.

16. Having lately made Capt. John Vernon a Factor wee have appointed him youngest of Councill at Bantall and Leivetenant of Soldiers there whereby gaining experience in those parts hope he will be very capable of doing the Rt. Honble. Compa. very good service there and in consideration of Ensign Trohocks long and Faithfull service in peace and warr and always behaved himselfe bravely for his incouragement wee have given him a Leivetenants Commission and therein hope your honour &cas. approbation wee have also given an Ensignes Comisn. to Mr. Thoms. Powell writer and hope he will deserve it.

17. The padre of the Theatim [*sic*] order seems to be well qualified for his function your honour &cas. contract with him wee shall take care duly to comply with.

18. To advise the age of pepper is no way practicable for in the first place tis not ye. planters usually who bring it in but the Mallays who goe up into the country to purchase it in small parcells of severall people and of different ages which is promiscuosly mixt and brought down hither so that all wee can do is to ask them how old their pepper is which perhaps they may or may not know the former being admitted the pepper of different ages must be kept seperate and wee never have in our godownes a quantity but what is of different crops sometimes occasion'd by the badness of the barrs, especially those at ye. No.ward where wee have pepper of three or four severall crops afterwards if it answers any end

y^e^. pepp^r^. whose age wee do come to the knowledge of must be kept seperate likewise on board w^ch^. would be a vast hindrance to the stowage of a ship wee can and do appeal to any man that has been upon and had any experience of this Coast for the Justification of our Assertion herein.

19. The redwood for stakes wee have taken out to be ready for the use designed.

20. Our Accomptant now having reasonable assistance hopes to bring up the generall bookes so as to transmitt them ℔ first Opportunity he has been for the most part very sickly which together with the want of assistance has occasioned their being so far behind hand to our no small regrett.

21. It has been usuall for such of the R^t^. hono^ble^. Comp^as^. servants as would transport themselves hither being in Fort S^t^. George Writers for their incouragement to be made Factors which M^r^. Thomas Greaves being ignorant of humbly referrs his case to your hono^r^. &c^as^. consideration.

22. Wee should have Complyed with your orders in sending grass seed could wee have been able to get any quantity what others may say that goe from hence wee know not but affirm that wee cannott see any but what generally sticks to our cloaths w^n^. walking in the grass wee beleive that Twenty men at one Suco ℔ Diem which is the hire of cooleys here would not be able to gather a Bushell in a week.

23. Java horses here are not procureble we know of no other way but to write to Batavia a Letter to be left there directed to the Command^r^. of any ship bound to this Port or Fort S^t^. George Requesting him to buy and bring them for us according to your honour &c^as^. description which shall not faile to do ℔ first good conveyance.

24. Wee are very sorry to understand there should be such a report as that the Deputty Governour and Two or three more monopolize the trade of this place to themselves wee know not of any such practices every man being free to buy and sell as he pleaseth which priviledge hope wee have an equall Right to we desire to know the particulars and if cannot clear ourselves herein shall most readily submitt to your honour &c^a^. censure.

25. The two slaves invoice'd ℔ ships Hampshire and Bencoolen were not sent aboard.

26. Wee herewith remitt your honour &c^a^. what books and papers could get ready being as ℔ List inclosed.

27. Wee have spoke to the sultan of y^e^. Buggassees to send for Buggasses from Java but wee are now advised by the Union that there is neither Warr or a likelihood of it with Portugall so that if there be not occasion for them wee beleive theyl be satisfied to remain inhabitants here otherwise must allow something towards the charge of comeing and returning.

28. With the greatest deference and submission to your honour &c^a^. in relation to our drawing bills of Exchange wee offer these following considerations.

1^st^. The R^t^. Hono^ble^. Company in their Generall ℔ ship John and Mary seem very much to incourage the trade of this place by their remission of a half penny ℔ pound on the coastom [*sic*] of pepper and should wee not be allowed as wee have occasion to remitt our Effects to the coast it will labour under the greatest Inconveniency and hardship imaginable not only in respect to ourselves but to all traders.

2^dly^. The currant exchange is Dollars 17 for Pag^s^. 10 which was settled when the China trade was not in such vougue as at present and consequently Dollars cheaper so that of late the R^t^. hono^ble^. Company have been considerable gainers thereby.

3dly. What remitted supplys the Rt. honoble. Company without running any risque.

4thly. For goods sold wee receive only Fanams and copper cash not one weighty Dollar or Rupee returning to us.

5thly. This place affordeth not any goods in quantity propper to send to the Coast pepper only excepted wch. in a great measure the Rt. honoble. Company reserve to themselves by their Limitations.

6thly. If wee do not draw and trade wee must of necessity return Fanams and copper cash to ye. Coast which not being ye. propper Coin there we cannott but in reason suppose but that they ought to be there taken by the Rt. honoble. Compa. as receed here and wee cannott find but that all along since the First Settlement drawing of bills was rather incourag'd than prohibited by the Rt. honoble. Compa.

29. In relation to promoting the increase of the pepper plantations wee have not been wanting having of late had the great Dupattys and proateens to the southward of Juntanallys country belonging to the rivers of Selumah Coonkey, Tallo, [A]llas, Pring Penoh Secoonyeh Manarr Bancannon at a publique [Bitcharr] here which countrys during their subordinacy to the King of Bantam afforded vast quantities of pepper wee have been large herein to the Rt. honoble. Company ℔ ship hampshire to which crave referrence.

30. The making white pepper under our present Circumstances wee have fully advised in our genll. Letter to the Rt. Honoble. Company ℔ ship Madrass to be altogether impractible [*sic*].

31. Wee have gained the point as to Carcopp but not without some difficulty the Mallays being now clearing it wee have great hopes of its producing in a few years great quantities of pepper.

32. The wine License in Mr. Betts his time was Farmed out for 300 Dollrs. ℔ annum which Mr. Barwell &ca. not approving of by putting down all Tipling houses it never made anything since till our putting it up to publique outcry when it rented for 46 ^{rs}. ℔ mensem but still the same inconveniency attended it as formerly for ye. Farmrs. licensing to many others to sell that twas Impossible to prevent our soldiers getting of Arrack Clandestinely to the great prejudice of their health to obviate this wee have since farm'd it out for 600 Dollrs. ℔ Annum obliging the Farmer to sell only himselfe and not to license any others yet our people will get it by one means or other the time of ye. License will expire in August next when after due notice given shall put it up to publique outcry which wee Judge to be the Fairest and Justest method for proceeding herein and Freest from Censure or Intreague.

33. The mistake committing in not mentioning Mr. Colliers bill was advised in ours ℔ Ship John & Mary entred in copy book of letters sent now remitted.

34. The best account wee have been able to give of deceased persons estates hath been formerly and are now remitted to the Rt. Honoble. Company ℔ ship Hampshire.

35. What ye. Padres character may have been we know not but he has behaved himselfe very well here and says Mass daily whether Culpable or not therein wee cannott determine.

36. Wee should have returned Martha Edmonds To St. Hellena but fear'd the Rt. honoble. Comps. displeasure since tis their orders to the Governour &ca. there to send their delinquents hither to be imployed in working on the Fortifications.

37. Wee are very credibly informed the Indrapore Guns were carried thence by the Dutch to Padang however that wee may be throughly satisfied shall make a Farther Scrutiny.

38. Wood this country affords in great planty [*sic*] but not any so durable as Redwood.

39. In the List of stores now sent of the severalls wanted here have incerted the quantity which desire may be supplyed with.

40. Our want of slaves is so great that wee have been necessitated to entertain Mallay Cooleys to goe on with our building this wee have pathetically Represented to the Rt. Honourable Company.

41. That difference between the two Proateens by our mediation is now accomodated.

42. Our Correspondence with the King of Pangram at Bantam wee shall continue having likewise represented it to the Rt. Honoble. Company.

43. That provisions are dear here is known to every man that has been upon the place notwithstandg. the richness of the soil but they are of so lazy a Temper that they will not trouble themselves farther than to get a bare subsistance and how to remedy it wee cannott tell this wee can affirm that some times provisions are not procurable for the genll. Table which inconveniency induced us formerly to goe to board wages.

44. That wee promised Mr. Collier his pay over was in consideration of the Ketch being in so great want of him and as wee are given to understand he was instrumentall in saving her from a very imminent danger near the Island of Nassaw.

45. Wee very well approve of Mr. Read as to Davis his deportment most humbly referr to our Dyarys and Consultations in August last and our Generall to the Rt. Honoble. Compa. ℔ ship Hampshire also to David Lee and Thoms. Wilkinson's Affidavit now remitted.

46. Since our last have here deceased Mr. Richard Luxford Mr. Thomas Manning entertain'd from the John and Mary and Ebenezor Browning.

47. Wee are in expectation of the plate by the First being in great want of it.

48. Mr. Broughton has accepted to be Fourth of Councill here having alter'd his intentions as to his prest. leaving the place.

49. Wee have granted John Burton Corporall liberty at his request to goe for the Coast having his wife and Family in Fort St. George he is paid to Ultimo Instant.

50. The Effects of Mr. John Davis Messrs. Shaw and Broughton take care of in order to their being brought into the Rt. Honoble. Comps. Cash.

51. There are severalls found wanting in bales ℔ Hampshire as ℔ Attestation now remitted.

52. One of the country people belonging to Pangran Jangallo was kill'd at Sillabarr by one of our Bugasses the affair is now accommodating by the Pangrans and our Dattues there which hope suddainly amicably concluded.

53. There are severall Errors in Fort St. George Invoice ℔ the Hampshire one for Pags. 1142 on the charges of Sallampores they are Rectified in ours from ys. place ℔ said ship.

54. The Theatine Padre desires to have ye. Allowance of the Rt. honoble. Comps. Table which wee have granted him he complaining much that 10 Dollrs. [℔] mensem was not sufficient for his subsistance.

55. Wee have presumed to draw the following Bills of Exchange on your honour &c^{a}. having receed the undermentioned Summes into the R^{t}. Hono^{ble}. Comp^{as}. cash humbly craving their acceptance, viz^{t}.

P.S.

The R^{t}. hono^{ble}. Comp^{a}. in their gen^{ll}. to us ℔ Ship John and Mary having been pleased for the Incouragement of ships frequenting this port to Remitt a half penny ℔ pound on their customs of pepper and on the Bencoolens arrivall the 10th. October last wee had a considerable quantity by us as also at the Northward wee on the Supracargoes request promised them a loading of pepper which the hampshire and Unions Arrivall prevented their taking in here hoping she would have arrived time enough in Fort S^{t}. George for supply of the homeward bound shipping therefore that they might not be altogether Frustrated wee thought could do no less than to let them have it at y^{e}. Northward where the countenance of a ship will be of service in these ticklish times on the conclusion of their Troubles having likewise obliged them by contract to be assisting to them with their Boat & men as the R^{t}. Hono^{ble}. Comp^{as}. occasions should require they also to let the R^{t}. Hono^{ble}. Company have the refusall of said pepper on their arrivall in Fort S^{t}. George.

Padrey Frey Antonio De S^{t}. Guilherme who now takes his passage on the Bencoolen has promised on his arrivall in Bengall to incourage Topaz soldiers single and married to transport themselves hither the latter with their Families, but tis his opinion that a Time be limited for their service five years, which expired to be left at their choice whether to remain here as Soldiers Inhabitants or return to the Coast or Bay which conceeded wee beleive will induce a great many to transport themselves and when they find they can be able to get a comfortable subsistance very few will be desirous of returning and so consequently will be of great strength and advantage to the place wee cannot but esteem this a matter of the greatest moment for if once those sort of people can be convinced of the healthfullness of this place their resorting to us in great numbers is not to be questioned and certainly a person of the Padres character is the fittest Instrument to be employed on such an occasion being likewise a prudent and deserving man and such is the universall bigotry of that sort of ignorant people that they pay a more than ordinary deference to his Function The Theatim [*sic*] Padre Don Joseph Martelli hath as he adviseth us wth. great instances wrote both to Fort S^{t}. George

and S^{t}. David Letters of the greatest incouragement for Topazes coming over to us and seems not to Doubt of success as to Bengall the other has the same sentiments wee humbly pray that your honour &c^{a}. will please to write to the President and Counc^{ll}. of Bengall that such methods may be adjusted that wee may not be Dissapointed of our expectation herein.

Padre Frey Antonio De S^{t}. Gulherme hav^{g}. paid into the R^{t}. Hono^{ble}. Companys Cash Doll^{rs}. 156 for which having given him Bills of Exchange on your honour &c^{a}. payable to himselfe intreat they may be honoured with Acceptance.

Reced. 10th. May 1703.

Wee observe your honour &cas. dispatch of the Phœnix with so considerable a Cargo God send her in safety to our masters That wee had no bales ready for her wee acquainted your honour &ca. was occasioned by our Merchants haveing discharged their arrears to about 2000 Pags. which lying among the weavers from Ganjam to Tune could not easily be collected till Further buiseness.

Our warehousekeeper shall send monthly an account of what goods in our godowns but fro thence your honour &ca. will not be able to Judge of our affairs for our cloth provided towards Ganjam and these parts cannott come in monthly, being to great a charge to bring it overland but is kept sometime till the change of the moonson wn. 3 or 4 months cloth comes att once which wee thought fitt to intimate to your honr. &ca.

Wee dare not presume to dispute with yor. honr. &ca. about the peices of cloth wanting in the bales but wee Assure you there was no care or circumspection wanting here.

Mr. Stables is perusing and examining of yor. Journll. parcells in order to adjust ym. with our bookes and Messrs. Cranwell Morton and Horden are ordered to transcribe or. bookes S and T with ye. greatest expedition which as soon as finished shall be remitted you.

Our place is a dead charge wee must allow but it has been so these severall months for want of mony to carry on our buisness without wch. nothing is to be done in ys. poor country there being none to be borrowed nor any merchants able to advance any on such an accasn. its now well settled and quiet and will provide yor. honr. &ca. goods to wt. amount you shall supply us wth.

Our last was dated ye. 7th. Instant and on ye. 10th. Rustandall Cawn arrived here and three days after ye. Phousdar by his order sent for ors. and ye. rest of ye. Factorys Dubash to acquaint him yt. ye. Nabob expected yt. wee should bring him our present to wch. wee sent him word yt. our honoble. masters had no trade-ing here at present & yt. wee could not give him a present without orders from Fort St. George neither had wee anything in or. Factory proper for presents upon wch. he clapt Peons upon our DuBash and ordered him immediately to bring or. answr. whether wee would give him his prest. by faire means or not upon wch. wee offered a small prest. suitable to our last Investment his reply was yt. wee gave his servant sheveldash 1000 Rups. and he expected a greater present from us at ye. same time threatn'd to set Peons at our Factory gates and stop all provisns. from going in and at yt. time did stop all ye. Dutch goods at Banksall and seized their merchants till they complyed, ye. new Compa. and french promised to give him as much as they did shevildash before wee promised as much wee had no hopes of beig. excused and if wee had stood out wth. him who had so great a power and so ill Tempered he would probably not only have increased his demands upon us but have affronted and abused or. Merchts. wee therefore thought it most adviseable to make him an offer of ye. same wee gave his servt. sheveldash last year wch. was 1000 Rups. wch. for severll. days he seemed not to be satisfied with but would have us to raise some-thing more and findg. yt. wee would not acquiesce ye. Dutch present was agreed to be 1700 Rups. in goods but at his going away he return'd all their spice to ye. Phousdar and ordered him to receive wt. they valued it in money of ym. ye. French prest. was 800 Rups. part in mony and part in goods of wch. he returned nothing back.

Upon ye. Nabobs arrivall here yr. new Compas. Merchants all left ye. place and he was very angry wth. ye. Phousdar for permitting Mr. Pitt &ca. to goe away when he knew of his comeing to wch. ye. Phousdar made ye. best excuse he could and told the Nabob he would be answerable for their present and has given a note undr. his hand that he would make good ye. same present they gave last year to shevildash which is five Thousd. Rupees with wch. he is satisfyed and has not given ym. any trouble nor taking any manner of notice on thr. affairs which is a Sufficient proof yt. they have good Interest in ye. Phousdar who has shown himselfe wholly devoted to their service in mannaging thr. buiseness with ye. Nabob.

Wee are very sensible how hard it is upon or. honoble. masters to give such a large present at ys. time wch. puts us upon considering of all manner of means how to avoid giving any present or as little as possible but as wee remain on ye. place could find no remeddy against his Demands but paying ye. summe mentioned wch. wee hope wll. not be displeasing to your honr. &ca. ye. Nabob set out from hence towards Ellore yesterday.

The Dustore which is due to ye. Rt. honble. Compa. from ye. Maddapollam Merchants in Mr. Woolstons time they have obliged themselves to pay in fine Long cloth which they have in their godowne at ye. old prizes (haveing divided their Joynt stock money) which wee hope yor. honr. &ca. will accept of, if not do not know how wee shall be able to make them pay it in mony they being very poor and we havg. no settlemt. there.

Wee have advice by private Letters y^{t}. yo^{r}. hon^{r}. &c^{a}. dispatched y^{e}. Charles and Betty for y^{s}. place y^{e}. beginning of y^{s}. month of which wee cannott hear any news of therefore conclude she has overshott her Port and is gone to Bengall. We are

TO THE HON^{BLE}. THOM^{S}. PITT ESQ^{R}.
PRESID^{T}. FOR AFFAIRS OF Y^{E}. R^{T}. HON^{BLE}.
EAST INDIA COMPANY & GOV^{R}. OF FORT S^{T}.
GEORGE &C^{A}. COUNC^{LL}.

SIRS,

Yours of y^{e}. 6[?] of January wee reced y^{e}. 23^{d}. ultimo but by y^{e}. contents of your Letter beleive y^{e}. secretary ought to have dated it y^{e}. 26th. of February.

Wee observe the resentment you make of meddl^{g}. with y^{e}. John and Marys cargoe y^{e}. reason we Laded her for England was y^{e}. complaint you made of y^{e}. great Tonnage on your hands and wee thought it y^{e}. same thing for our masters whether wee Laded five or 6 hundred bales on a ship directly for England or on Two ships bound for Fort S^{t}. George thither for by your writing you expected such a number and y^{e}. Comp^{s}. debt would not have been less had y^{e}. pepper been sent on y^{e}. John and Mary for Madrass to have been shott between y^{e}. bales Laden on y^{e}. Phœnix and other shipping by your presidency.

You say how did wee ease you in takeing a full Laden ship from your hands y^{s}. ship being laden with pepper a commodity that hath been alwayes shott between bales from the coast and Bay is of no help to our Tonnage without was to be laden in bulk to pay a full freight which ought not to be done when other means can be found to prevent it wee concluded since y^{s}. pepper was arrived Bengall wee must creditt your presidency y^{e}. price currant as Invoiced to England nine Rupees Eight annas ℔ maund and y^{e}. Comp^{a}. having forbid our sending pepper for England shott unless wee can procure it about y^{t}. price wee thought it unreasonable to send it for Madrass to be Laden for England on full freight but to keep their shipping on a country freight to pay Demorage untill better provision can be made for them.

Had wee not sent y^{e}. John and Mary to England twould have been adviseable for us to have sent her to your Port with stores provisions and what freight offered for had wee sent her to Fort S^{t}. George with y^{e}. pepper y^{t}. ought to have been charged with freight to Madrass which y^{s}. ship might have made had she not been laden there with for tis y^{e}. same thing to y^{e}. Company whith^{r}. y^{e}. pepper be sent to England on their shipp^{g}. dispatcht hence or from Madrass but not if y^{e}. pepper be sent on a ship y^{t}. otherwise could supply their garrison with stores provisions &c^{a}.

As to what you say of her coming to Madrass with pepper to help out her Tonnage wee thought you would have been of our opinion not to have sent more pepper y^n^. could have been shott with y^e^. bales but y^e^. John and Mary could not have arrived Madras under our orders so early as you expected her for twas y^e^. nineth of Sept^r^. Cap^t^. Kent arrived with us here having reced no advices from us but took in M^r^. Adams Pylot and came away before wee had time to give further directions y^e^. next consultat^n^. Day after his arrivall wee examined him and besides y^e^. bad weather he withall mett with he wanted a capston provisions and water y^e^. owners having vicutalled his ship but for Eighteen months and by what provisions he brought here it appear'd to be so before he could have provided himselfe these things to have sailed under our orders for Madrass twould have been y^e^. latter end of Sep^r^. or beginning of Octob^r^. before he could have got clear of y^e^. sands a very dangerous time considering he might have mett y^e^. Breaking up of y^e^. monsoon both in y^e^. Bay and on y^e^. coast.

At first wee told him he should sail for Madrass as soon as y^e^. season of y^e^. year permitted but wee chand [*sic*] our resolutions before y^e^. begin^g^. of November haveing no Precedent for send^g^. a ship Laden with pepper out of y^e^. Bay.

You advise your intentions were to send y^e^. John and Mary again for y^e^. West Coast w^ch^. wee had no thoughts of finding her charterparty would be out within few months aft^r^. she could return to you by y^e^. Northerly Monsoon and wee were satisfied by your former advices y^t^. either y^e^. Loyall Cooke or Hampshire would proceed for York Fort with provisions, stores &c^a^. and wee were sending y^e^. ship Sarum to second her, and by what wee could learn from thence wee wish there be pepper found enough to give y^e^. Sarum and Hampshire so early Dispatches as you expect

Wee are y^e^. younger Presidency and would by no means do anything that shall want due respect and shall observe your directions now as much as when Bengall was an Agency but at that time we always lookt upon it our Duty when we could not consult with you to do what wee thought was for our masters interest and what wee have lately acted wee should have done if still an Agency for it is no unparelled action of ours. Wittness y^e^. Success Capt^n^. Walthrope Commander belonging to yo^r^. Presidency was forced to Bengall by bad weather Agent Charnock and councill disposed of that pepper and took y^e^. ship into y^e^. service of y^e^. Beng^ll^. Agency and sent none of it to Madrass on the Williamson nor any of y^e^. pepper which that ship or y^e^. Berkley castle brought from thence and there are more instances of y^e^. like nature.

Now S^rs^. if you can give us an instance of a pepper ship sent from hence to Fort S^t^. George which y^e^. Agent and Councill here were not to concern themselves to dispose of y^e^. Comp^s^. affairs being particularly under y^e^. care and management of your presidency weell own ourselves unparrelld in our actions but on y^e^. contrary if o^r^. predecessors (by their Consultations and Dyarys) disposed of y^e^. pepper laden on shipping that accidentally came hither altho consigned to Fort S^t^. George as they found suited most with y^e^. Companys Interest when wee hope y^s^. action may be approved of by our masters but wee will not intermeddle in y^t^. case as our predecesso^rs^. formerly and ourselves have lately done since it meet not yo^r^. approbations and leave our Masters to be the Judges, indeed if a ship should come hither from the west coast wee shall not be under circumstances to send her for England but twill be more for the Companys Interest to send her for y^e^. Coast with a Beng^ll^. Lading than with pepper for y^e^. reason befores^d^.

Wee had sent y^e^. Colchester for Madrass but you complained of y^e^. great Tonnage as ℔ List sent and urgently desired us to get a Freight for one of the ships in y^e^. Bay for y^t^. you expected y^e^. Chambers Friggott from China to be Laden home and notwithstanding y^e^. Colchester was not sent you to be provided for y^e^. last season yet you have thought of sending y^e^. Chambers Friggott for y^e^. Bay when you have one Thousand six hundred Baggs of Salt Petre in y^e^.

godownes wee were in hopes she would have been Loading for England by y^{t}. time y^{e}. two vessells wee sent arrived with Two hundred and Two bales and chests for your assistance.

Twas much easier for us to have gone on wth. our investments y^{n}. to have troubled ourselves for a freight and Loading for y^{e}. ships consigned to yo^{r}. Presidency especially y^{e}. former there being [...] trouble and vexation between y^{e}. Commander on one side and y^{e}. freighters on the other and since there was no selfe interest but intentions to serve our masters wee doubt not of their approbation.

Wee had not been so long upon y^{s}. subject but that after our endeavours for y^{e}. best there appears a charge against us for ill consequences that may attend our proceedings and wee thought ourselves obliged to give these reasons for our Justifications.

Wee advised what agreement wee made with y^{e}. silk winders that went last to Madrass on ship Phœnix they were not willing to have us put y^{e}. allowance of Gew Rice gram &c^{a}. in money not knowing w^{t}. price they might give for provisions att Madrass but now you know y^{e}. quantity you may allow it y^{m}. in mony or daily give y^{m}. y^{e}. provisions y^{e}. First y^{t}. went agreed with us only for wages wee could have sent you some more w^{ch}. M^{r}. Pattle sent fro Pattana but he having agreed with them for two Rupees ℔ month more then those wee sent on y^{e}. Phœnix they were returned to Cassimbazar being apprehensive that y^{e}. other would insist upon y^{e}. same allowance after th^{r}. arriv^{ll}. at Fort S^{t}. George as wee perceive now y^{e}. first have done.

Herewth. comes of our Letter to y^{e}. Agent and Counc^{ll}. on y^{e}. west coast and an account of y^{e}. freight she made hither and w^{t}. Laden for y^{e}. west Coast.

Whatsoever ℔ticular people might write wee cannott tell but wee came to a conclusion w^{t}. to do wth. y^{e}. Colchester but just before y^{e}. dispatch of y^{e}. Phœnix as advised.

The steward assures us y^{e}. Goats were sent on board in good condition and a large quantity of grain to feed upon wee wish there was no abuse and their [meat] applied to other uses for by y^{e}. stewards account of feeding them after they came from y^{e}. country with dry meat youll think as well as wee that they ought to have arrived in a fleshy condition wee shall take all care y^{t}. y^{e}. stores sent are good in their kinds.

Wee gave y^{e}. John and Mary and y^{e}. Wentworth orders to touch at y^{e}. Cape before they sail'd for S^{t}. Hellena.

Wee have given you creditt for y^{e}. goods rec̃ed by ship Phœnix y^{e}. coppar was disposed off at Thirty one Rup^{s}. Eight annas ℔ maund but y^{e}. Quicksilver bearing so low a price as Two Rupees Eight annas ℔ seer wee resolve to make y^{e}. Merchants take it when we pay off their Bills of Debt at somewhat more y^{n}. y^{e}. mart price pray send us no more of y^{t}. commoditie especially since you cannott supply us with ready mony.

M^{r}. Redshaw &c^{a}. advise us from Pattana y^{t}. they are weighing off y^{e}. Companys Salt Petre thre [*sic*] wee have ordered them to buy Eight Thousand maunds more in all Twenty Thousand Maunds and sent y^{m}. a Bill of exchange for Eleven Thousand one hundred Rupees currant of Hughly to forward their Investment being in part y^{e}. proceed of some of y^{e}. pepper you expected on y^{e}. Phœnix wee have given them a charge to send y^{e}. Petre boats away very early that they may come down with y^{e}. freshes which if they do as wee doubt not but they will and y^{e}. boats meet with no extroardinary stoppage in y^{e}. way wee shall have them here by y^{e}. middle of September or latter end at farthest If you should have an extroardinary occasion for Salt Petre so that you send y^{e}. Chambers Friggott hither wee think it very likely to meet with a quantity for her Kentilage by y^{e}. latter end of Augst. from some of y^{e}. forerunners but at present there's not any to be had at Hughly.

Wee have allwayes advised y^e^. *needfull of* w^t^. *past between us and* y^e^. *Government Wittness* y^e^. *Nineth Paragraph of* y^e^. *Letter sent by* y^e^. *Phœnix after her dispatch when goods were comeing for* y^e^. *John and Mary and* y^e^. *wentworth to prevent stoppages from* y^e^. *Phousdar &c^a^. in Hughly wee were at* y^e^. *expence of Four Thousand Rupees more than* y^e^. *usuall piscash to clear* y^e^. *buiseness which wee could not prevent haveing stood it out with* y^e^. *Governm^t^. some months after* y^e^. *other nations complyed indeed its a great summe of mony to be extorted from us and twas parted* w^th^. *all very unwilling.*

The Prince hath sent horsemen with copie of y^e^. Mogulls husbollhocum to y^e^. Phousdars of Hughly Ballasore, Muxadavad, and Rajamaull as y^e^. vacqueel advises us from Dhacca to clear y^e^. hattmen and their Effects but y^e^. Duan will not give his sunnud for free trade without wee comply with y^e^. unjust demands of Fifteen Thousand Rupees y^e^. New English have complyed and given Ten Thous^d^. Rupees Value in broad cloth &c^a^. and Five Thous^d^. Rupees in ready mony but y^e^. vacqueel writtes they will not have custom free mentioned in y^e^. sunnud y^e^. Duan gives them wee insist still upon our former promises of presenting y^e^. Prince when our Masters ships arrives with a reason^ble^. present of rarities and hope to bustle through untill y^t^. time when twill fall upon y^e^. united stock who ought to bear it since they only have y^e^. benefitt of y^e^. future trade our masters being Indebted to y^e^. country.

Rosaro dyed here y^e^. 29^th^. of october and being lookt upon as a poor black fellow no inquiry was made after his Effects but y^e^. middle of December sometime before y^e^. Dolphin sailed for Acheen M^r^. Henry Griffith delivered M^r^. Russell y^e^. charges generall keep^r^. keys which he said were y^e^. keys of Rosaro his chests and scrutores and desired him to look over y^e^. papers carefully because he did beleive there was a Bill of Debt for one Thousand Rup^s^. amongst them for mony he had given out for goods M^r^. Russell sent for Henry Moore at whose house he dyed and took posession of his necessarys with wittness accustomary and made sale of his goods to y^e^. amount of one hundred Thirty and four Rupees and when his debts for Lodging diet &c^a^. are paid little will remain all y^e^. pap^rs^. are in y^e^. scrutore to be sent by any conveyance after orders received wee shall make farther inquiry about y^s^. bill of debt examining Henry Moore wee find y^t^. M^r^. Griffith lock't up y^e^. chests and scrutores upon Rosaroes decease and kept the keys in his charge untill some time before he left y^e^. place.

Haveing received no answer in your severall Letters to what wrote about M^r^. Peachie whether he had made a will or no before his decease or who administrated to his estate wee have disposed of his Lumber and Effects and brought y^e^. proceed into y^e^. Comp^as^. cash as customary when people die Intestate.

Wee sent by y^e^. Charles and Betty sloop and Mary Smack Two hundred and seaven baggs of salt Petre so that youll have at Madrass enough (with y^e^. sixteen hundred and seavenety baggs in your godowns) to give charterparty Kentilage to y^e^. Colchester and chambers Friggott and if commanders want stiffning for their ships wee hope you may procure cowrys coffee, Sugars or some other Kintilage Commodities to make them sayleable in good condition for England but our endeavours shall not be wanting to send a large supply of Salt Petre.

Herewith comes copy of y^e^. Princes hosbulhoocum to clear y^e^. Hattmen. Wee are.

GOV^{R}. OF FORT S^{T}. GEORGE & PRESIDENT OF

Y^{E}. GOV^{R}. & COMP^{A}. OF MERCH^{TS}. OF LONDON
TRADING TO Y^{E}. EAST INDIES &C^{A}. COUNCILL.

HONOURABLE &C^{A}.

Reced 22^{d}: May 1703 ℔ ship London.

By returne of ship London wee trouble yo^{r}. hon^{r}. &c^{a}. with these few lines in answ^{r}. to yo^{r}. hon^{r}. &c^{a}. Letter to y^{e}. Agent &c^{a}. under date of [...] of Novem^{r}. past w^{ch}. we reced here by y^{e}. ship y^{e}. 10th. past & its duplicate ℔ ship monsoon y^{e}. 20th.

Here was no apparent fault in either of y^{e}. Two horses we sent hence They belonged to y^{e}. Persian Merch^{t}. who went on y^{e}. Ship who would fain have carried them and pay'd us 350 for freight for his own account but y^{t}. wee perfectly forced him to sell them by absolutely refuseing to carry them on freight for him

wee are very sorry they did not prove according to our hopes and indeed to gett and [*sic*] extroardinary fine horse here is very near as difficult to gett such a one in India and without a years warning and 2 or 3 men being sent up y^e^. country to search all parts there is nothing extroardinary of y^t^. kind to be had.

Wee reced y^e^. account y^r^. hon^r^. &c^a^. sent us drawn out by M^r^. Marshall between Cap^t^. Lambart & J. Bruce to w^ch^. y^e^. latter in his own behalfe beggs leave to reply.

Hee do's not deny but y^e^. acco^t^. for y^e^. most part is right only sundry Payments and disbursements made by h[im] on Cap^t^. Lambarts account omitted of w^ch^. its easy to make satisfactory demonstration whereby his debt to Cap^t^. Lambart is not so great as y^t^. account makes it but be w^t^. it will yo^r^. hon^r^. &c^a^. may be Assured there shall not be one days delay in James Bruce giving in fair accounts and y^e^. full Ballance of w^t^. due from him to Cap^t^. Lambart to whomsoev^r^. y^e^. deceaseds executor and executrix shall appoint to take y^e^. said account and effects of him he knows its customary wherever y^e^. R^t^. Hon^ble^. Comp^s^. serv^ts^. dye in their Factorys intestate to bring w^t^. they leave behind them to y^e^. R^t^. Hono^ble^. Comp^s^. acc^tt^. but Cap^t^. Lambart neither [was y^e^. R^t^.] Hono^ble^. Comp^s^. serv^t^. nor dyed intestate for Jam[es Bruce upon] his death saw his will and desired a copy of it which he reced under Cap^t^. Lambarts serv^ts^. hand and desired Cap^t^. Carswell at y^e^. same time to write to England to advise his executor and executrix of all circumstances when wrote himselfe y^t^. if they would appoint any attorney to make up acc^ts^. with him they should have fair accounts and y^e^. full of w^t^. due to them.

Now wee presume only to lay y^e^. case before y^r^. hon^r^. &c^a^. whether or no James Bruce could be secure in letting Cap^t^. Lambarts Ballance go out of his hands when Cap^t^. Lambart has amongst his papers exact accounts under James Brucees own hand writing of everything bought of him or reced for him all which are gone to England in [the] Phœnix and no question his Relations will be able to make out y^e^. account in England as y^r^. hon^r^. &c^a^. have already done and as James Bruce has given it under his own hand to his Executor and Executrix in England to pay what remains in his hand punctually upon demand to whomsoever they appoint and order to receive it can he be secure in paying it otherwise or may he not be forced by y^e^. English Law to make Double payment, if James Bruce is found or ever was found to use any undue pretence of keeping anyones mony in his hands it would be indeed a great blemish in his reputation but wee hope y^r^. hon^r^. &c^a^. will consider y^t^. w^t^. he argues is reason according to y^e^. best of his judgement and only for his own safety many honest men having been ruin'd only for such oversights and y^r^. hon^r^. &c^a^. do not desire any man sh^d^. be guilty of w^t^. may prove to his Detriment.

If y^r^. hon^r^. &c^a^. please to give James Bruce Assurances th[at he] shall not be called to account and his Letter [and papers sh]all not be produced against him in England y^e^. full amount of what due to Cap^t^. Lambart sh^d^. be immediately remitted or disposed off in w^t^. manner soev^r^. y^r^. hon^r^. &c^a^. shall please to order.

Wee daily expect y^e^. R^t^. Hon^ble^. Comp^s^. ship y^e^. Colchester by whom shall send those provisions of wine rosewaters &c^a^. w^ch^. y^r^. hon^r^. &c^a^. have enordered for the R^t^. Hono^ble^. Comp^as^. account w^ch^. shall be ready of y^e^. best sorts that can be had against said ships arrivall only wee beleive twill be very difficult getting such horses as y^r^. hon^r^. &c^a^. orders tho' James Bruce has a man at Shiraz sent purposely to procure them and w^t^. he brings if good shall be sent, for garden seeds &c^a^. wee have wrote to Spahaune and Shiraz; The carpetts y^r^. hon^r^. &c^a^. order are not procurable at pres^t^. in Towne as soon as can get such a parcell shall send them.

If y^r^. hon^r^. &c^a^. draw any Bill on us as expected for payment of 8 or 10000 Rupees to y^e^. order of y^e^. Kings Buxee here wee shall comply therewith and observe y^r^. hon^r^. &c^a^. orders as farr as possible in drawing y^e^. like summe upon y^r^. hon^r^. &c^a^. back againe.

Mr. Bower is gone hence to Suratt to wch. place wee shall ℔ first of his obligation to Capt. Lambart for paying ye. freight of his goods.

By next conveyance yr. honr. &ca. will have an answr. from Spawhaune concerning ye. mony attackt [*sic*] in Presidt. Beards hands belonging to Mr. Harbin wee not knowing anything of it wee have sent by Capt. Matthews wt. newspapers wee had here wee have also requested Capt. Matthews to take on board one Charles Atkins late chirurgeon of ye. Factory who upon due consideration wee have thought fitt to send hence to prevent any farther scandall and Detrimt. to ye. Rt. Honble. Comps. affairs here our reasons for soe doing were;

1st. and cheifly yt. he is become so familiar and Intimate with ye. Shaubunders secretary one Anga Camall that he has been nothing but his instrument in ys. house to bring him news of every thing yt. passes wch. has cost us no small Troube since ye. London and Monsoon came in insomuch yt. wee have been near comeing to blows with ye. government while ys. fellow has been along their observator and endeavouring to manage their buiseness underhand in ys. house and tis intollerable yt. ye. affairs of a nation should be ruined especially in a place where wee have so great a priviledges by anything soe inconsiderable.

2dly. He is become so notoriously scandalous by his unaccountable Lewd and villanous practice in ys. place yt. he is become ye. Talk of ye. whole Towne and occasions us no small disgrace thereby.

3dly. He has always made his chamber in ye. Factory ye. randevous of all ye. scandalous fellows yt. it has been possible to pick up and makes it his chief endeavor. by all manner of means to debauch every one that comes sober into ye. house to perswade people belongg. to ships to run away and promote all manner of mischief and debaucherry.

4thly. He is so intimate with ye. moors keeping whores in their houses and so constantly amongst ym. yt. it wd. seem as if he had nothing to do with ye. house and wee can't immagine but yt. ye. effects of such a familiarity would in a small Tract of time prove very detrimall. to ye. Rt. Honble. Comps. affairs in ys. place to be shott [*sic*] wee have found him to be one of ye. most universally ill qualified yt. ever wee mett with in our lives.

For all which reasons and to prevent his doing more mischeif then he has already wee have Takeing ye. opportunity of ridding ourselves of him and so wee hope of all farther scandells arising by him yr. honr. &ca. can easily prevent his making mischeife in those parts or send him home to England and so ridd ye. country of so dangerous a person.

Since wrote ye. foregoing wee have bought and sent by Capt. Matthews 1 small Bale containing a large pair of carpetts they are not ye. full length enordered
thos.
but are ye. nearest wee can gett to it their cost is 1000.

Wee have not else at present worth yr. honr. &ca. notice so take leave most respectfully to signe.

Dead stock of ys. place and an account of what state and condition every thing is in and transmitt it to yr. honr. &ca. in very few dayes. Reced 24 May 1703 p Pattamarr.

All ye. expences which relates to ye. generall Table is monthly charged in our account of cash and wee have no other expence but Factors provisions which for ye. future shall be added thereto and an account thereof sent apart by which twill appear that ye. Generall Table is now kept considerably cheapr. yn. formerly.

Wee have as yet made little progress in ye. buisen'ss of ye. silkwormes for want of winders and a sufficient quantity of food for ye. wormes wee have now planted a large peice of ground with mulberry shrubs and if that Thrives hope shall bring ys. buiseness to perfection of which shall keep your honour &ca. constantly advised.

Wee shall speedily send some Boats to Ramadass at Boomipollam to fetch away ye. wood wee have already paid for that lying there and if he refuses to deliver it wee shall acquaint your honour &ca. thereof.

Narro reddes Buisness has been prosecuted wth. all ye. strictness upon his Debtors immaginable in order to make them comply and do him Justice they are miserably poor unable to make satisfaction for wch. reason they lye still in close prison and that is ye. only means wee can take some have paid their proportion according to ye. award made by ye. head of the casts some others have promised payment in few days but ye. Majority have no effects to make satisfaction about which wee have advisd your honr. &ca. in our former Letters; Somiah who sollicites this buisiness here is unwilling to discharge those who have paid their proportions till he receives ye. whole wee hear inclose A List of ye. severall Partners and thr. shares in ys. buisiness which will give yor. honour &ca. a clearer insight into ys. affaire.

Assoon as Mr. Bawgus arrives wee shall cause him to adjust his accounts with ye. Company and pay what's due into their cash.

Wee are sorry to hear ye. carelessness of ship Presidts. master should occasion a dammage to any of the Companys bales ye. ship was very well repaired and went hence in an extroardinary condition for ye. amt. of ye. dammage ye. owners here readily agree to make satisfaction.

Wee are now laying in a store of paddy wch. wee buy at about seavenety mercall for a Pagoda but it daily becomes more scarcer and dearer so that wee shall be unable to comply with your orders in sending any from hence and at ye. prizes yor. honr. &ca. advise its cheaper wth. you already.

Two dayes since Our spy Braminy came from ye. camp with advices yt. Doud Cawne still remaines on ys. side Colleroone River where he had agreed wth. ye. Egypts from Trigonopoly for six Lack of rupees ye. one halfe is paid him down and the other he has taken security for and that he is likely in few dayes, to make an end wth. ye. Ambassadors from Tanjore after wch. he gives out hele rest himselfe at Chillumbrum and yn. pay a visitt to his friends at Porto Novo & Tevenepatam & yesterday Mollim advised us yt. he had receed a Letter from Abdull Nebby which directed him to acquaint us that Dowed Cawne would be at Porto Novo in few days ye. Dutch have sent him a Present from Negapatam of Liquors Flint Ware Newries and such Toys and wee think propper if with your permission to send Mr. Haynes wth. a compliment and small present to him as soon as he setts out from Porto Novo wch. perhaps may prevent any Trouble through disgust therefore yor. honr. &ca. will speedily please to direct us to what amount said present must be or if wee must send any and wee shall take care punctually to comply with said order; wee are all in a readiness and our garrison in as good a posture of defence as possible wee can put it and doubt not if he comes here in any other yn. a friendly mannr. to give so warme a reception as he shall soon be weary on't; Wee keep our Braminys in ye. Camp continually to observe his motion wch. will give us timely notice of his approach wn. wee wont faile to keep a strict watch for fear of any surprize.

Wee are glad to hear ye. Dutchess is saf [*sic*] arrived in England and hope ye. ill report of ye. Bedfords being lost at ye. Mauritius will prove false.

Your honr. &cas. of ye. 27th. ultimo came to our hands ye. 2d. Instant and if wee are mistaken in ye. intentions of ye. Rt. Honoble. Companys Instructions wee think wee are not in ye. words of their order which expressly says that ye. new Companys President and councill should repaire to you at Madrass and Joine with you in takeing an Inventory of ye. Dead stock in our masters settlements and wee being obliged to render all accounts to your honour &ca. concluded you would Reced [8]th June 1703 ℔ Pattamarr.

think it best to deliver it them at Madrass wee shall in few dayes have all Inventories in a readin'ss which will ease them and ourselves too of a great deal of trouble if they come heither.

When any ship arrives with Timber and plank wee shall for y^e^. future advise your hon^r^. &c^a^. But y^e^. ship out of which wee bought ours being bound to S^t^. Thoma wee thought it unnecessary.

The money that is paid by y^e^. partners of Narro Reddes buiseness shall be remitted to your hon^r^. &c^a^. as you direct with a List of their names and shares but wee think it propper y^t^. Somiah gives y^e^. discharges who is principall concerned y^t^. lent y^e^. mony and now here and Narao Redde only sollicites y^s^. buiseness because Somiah owes him mony.

Nabob Doud Cawne has agreed with the people of Tanjore and Trigonopoly after which he removed his camp about Two Gentue Leauges from whence (some are of opinion) he will go up to Arcott with y^e^. Duan who is going thither to perform y^e^. ceremony to his Wife lately dead But we have reason to conclude he is coming this way because yesterday y^e^. Deputy Governour received an assurance thereof from Abdull Labbey and the Avaldar of Porto Novo Both which are making great preparations for his reception, When he is at Porto Novo wele' send him a present in such things as wee have to the amount your hon^r^. &c^a^. have ordered w^ch^. wee wish may prove satisfactory But he gives it out publickly in his camp he will come ag^st^. Cuddalore and Tevenepatam therefore desire you will please speedily to send us heither all the assistance you can.

The Mulla Kiddar Jean discharg'd himselfe from y^e^. Companys service and had the impudence to tell the Deputty Governour before most of y^e^. black servants that he did not value it and if wee did not like him wee might let him alone his report to your honour &c^a^. for receiving all paddy for his wages is false for all the servants were paid halfe mony and halfe paddy, Its true he is one of our principall serv^ts^. and his buiseness such as requires our confidence in him but let us dictate our Letters as wee think propper he will write them as he pleases which may prove very prejudiciall to the Companys affaires It would be too Teadious to yo^r^. hon^r^. &c^a^. and look too much like prejudice to the fellow to ennumerate here y^e^. many Rougeries he has committed and the severall complaints wee have receed from Hussen Cawn and others all which would have been excus'd as well as his late Saucy Language had he acknowledged his error and therefore wee hope y^r^. hon^r^. &c^a^. wont please to order his reinstatement again till he do's it or otherwise wee cannott expect y^t^. service and respect from our servants wee ought to have to keep them in due decorum.

Our Foul Consultation book shall be sent M^r^. Fraser to compare with y^e^. fair one and request as soon as they are signed you will send them us again for wee have no other Register here.

Jacob de Bane shall be permitted to go to his Family by y^e^. first opportunity after y^e^. prospect of our Troubles is over But request y^r^. hon^r^. &c^a^. will send us another man in his roome for wee have none to spare wee remain

TO THE HONBLE THOMS. PITT ESQR.
PRESIDENT AND GOVERNOR. OF
FORT ST. GEORGE AND CITTY OF
MADRASS &cA. COUNCILL.

HONOBLE. SIR &cA.

Receed 11th. June 1703 ℔ ship Union.

The last wee receed from your honour &ca. was by Ship Bencoolen; upon which now send ys. not having since then had ye. opportunity to acquaint your honour &ca. of ye. affairs of these parts she attained ys. road ye. 24 September and in few days proceeded for Bencoolen where has been ever since till came here again ye. 12th. Inst. with orders to us from ye. Worshipful Deputty Governour and Councill at York Fort to supply them with pepper to fill them up which upon arrivall at your Port your honour &ca. is to have ye. refusall of on our Rt. Honble. masters account accordingly have furnisht them wth. Baharrs 78. 133 to £ and she is just upon the point of parting.

Since our last (which was by Ketch Josiah) this country has not been so peaceble as wee hoped for in June Panlema Teca came into these parts, in hopes to raise some Disturbance whereby he might impart [*sic*] renew his desperate Fortune, but Thank God our dilligence (assisted with ye. help of ye. Rajahs and all ye. Mallays in generall who are Jealous of his cruelty and intention) caused him to return without doing any more harm then giving us a months Trouble.

But our Tranquility lasted not long for ye. old Emperours son Rajah Massa and ye. young King of Indrapore Rajah Passiseere Serjedo [...] a Town a little above Manduta upon [...] whence it was upwards of six months ere' could expell them notwithstanding wee had ye. assistance of severall parties of Bugasses from Bencoolen besides a great number of Mallays entertained here wch. has put our Rt. Honble. Masters to a very great charge in paying $ 5 ℔ mensem wch. has halfe a Doller more yn. to our Europe soldiers nor are they so obedient, as serviceable as our own fighting just when and as they please but our misfortune is and has been for a long time yt. have not wherewith to employ on such occasions as by ye. enclosed List yr. honr. &ca. may perceive yet now all is

quiet they being forced to returne towards Indrapore and the Towne by us destroyed with all y^e^. coconutt and fruit trees to prevent y^e^. Inhabiting or returne of such persons as may give y^e^. like trouble for y^e^. future.

During our besetting y^e^. aforesaid Towne had our gunner there with a feild peice but to little Effect; for wee have often experienced in such cases y^e^. Mallay cast up brest works and entrench y^m^. selves wholly abandoning their houses which are generally made but of Bark and straw so y^t^. Gunshott are spent to no purpose w^ch^. makes us propose to y^r^. hon^r^. &c^a^. sending some small mortarrs with their shells which if such as to be handsomely transported would certainly be a very propper means to drive y^m^. out of their holes on such occasions if any should happen for y^e^. future.

Pepper wee have sent this year past severall quantities by y^e^. small vessells to York Fort as also upon Ship Sarum in her way from Bengall so that with filling up y^s^. ship Bencoolen have no more left in godown than about 50 Baharrs at Mandutta and about 30 at Iredickett but more is daily coming in and expect more upon new crop which will compleated [*sic*] next month wee do all wee can to forward y^e^. pepper plantations one means of which is disencouraging y^e^. cotton trade cultivating which takes them of y^e^. other but wee have almost confounded it.

Wee humbly intreat y^t^. y^e^. first ship y^t^. comes for y^s^. Coast may in case ordered to touch here bring us a chest of Physick for tho' wee have a Surgeon (M^r^. Thomas Crump) lately from Bencoolen yet have not halfe a crownes worth of medicines y^e^. want of which causes our sick to be long upon recovery if ever they attaine it.

The want of civill and Military persons wee submitt to your honour &c^a^. considerations upon the Perusall of y^e^. enclosed List wee had lately from Bencoolen one M^r^. Wee are sorry to hear your honr. &ca. upon perusg. our goods ℔ ship Phœnix should find ym. come very indifferent they were ye. best wee could gett and as to our sorting them ye. Merchts. were soe stubborn yt. Mr. Richard Harrison haveing onely sorted Two Bales of saddarunchers to No. 3 they would not agree to it and for Two days would not let us sort a peice so yt. wee were forced to comply or must have taken their goods out of their godowne by force ye. ship being then in ye. road.

As to our making up accounts wth. our merchants and pay them their Ballance upon ye. concludeing of our investment is what has been always practised in ye. Factory for wee could not prevaile with them to signe any contract to bring in

y^e^. 2500 Pag^s^. of Chay goods for y^e^. January ship but promis'd they would use their best endeavours and if y^e^. ship had not arrived here so very early (4^th^. Jan^ry^.) wee have good reason to beleive they would have been as good their word for before y^e^. ship sailed out of y^s^. road they had brought in above halfe y^e^. quantity but however upon making up accounts charged them with 2500 Pag^s^. and afterwards payed them noe more then y^e^. amount of y^e^. chay goods they had brought in w^ch^. wee did thinke would be more for y^e^. advantage of our hono^ble^. masters then for their money to lye in their cash chest [and] the goods carried to y^e^. Wee observe w^{t}. you write about our sending Two vessells Loaden wth. bales to assist y^{e}. coast Tonnage if you Think our intentions therein was to invest y^{e}. coast stock in Bengall you are und^{r}. a mistake (what wee have done was purely on y^{r}. motions) for some Trouble but no advantage to us Thereby wee are glad you are in such circumstances not To only to provide for y^{e}. coast Tonnage but have thoughts of sending Bales to Bengall in requitall if so wee are pretty well assur'd wee shall not have y^{e}. vexation y^{e}. next season of provideing freights for your shipping to Persia &c^{a}. places but beleive youle' alter your measures when you have considered that of those bales sent by y^{e}. Two vessells above Fifty thereof are Gurras w^{ch}. are yearly wrott for and having such a large Quantity there will be a supply for some time and if you are willing to assist y^{e}. Bengall Tonnage wee think twould be best to send Two or Three hundred bales of coast goods acquiescing unto y^{e}. orders of your Presidency to y^{s}. Agency y^{t}. in warr times twould be better to have y^{e}. Bay and coast goods sent home on each ship [...] either miscarry o^{r}. masters may have [...] of goods to supply y^{e}. Europe Marts.

As for y^{e}. Debt contracted in Bengall w^{ch}. we had little occasion to have made for y^{e}. ship consigned to y^{s}. place tis an errour on y^{e}. right hand at worst now our masters can say they have experienced various managements they have had ships on demorage and dispatcht for England when great stocks were left in y^{e}. country which upon dislike they have Loaden shipping empty godown and cash chests they gave orders y^{t}. an Interest should be made with Muttradass to supply y^{m}. with Thirty Thousand pounds worth of goods at Interest w^{ch}. he not being able to do they have three time y^{e}. Quantity from oth^{rs}. If they like not to be indebted tis y^{e}. easiest thing y^{t}. can be to prevent it whatsoever becomes of their shipping as tis Gentlemen in all affairs to find fault if you please to forgive what past wee assure you shall never y^{e}. second time Trouble you with Bengall goods but in all our proceedings must wait for o^{r}. Masters Determination and are in hopes of th^{r}. approbation.

The Prince hath at least sent his husbolom^{r}. to all places to clear y^{e}. Europeans and th^{r}. Effects he insists upon y^{e}. Fiveteen Thous^{d}. Rup^{s}. formerly demanded before y^{e}. Duan gives his sunnud for free trade wee put y^{m}. off wth. fair words & wee hope to do so untill our masters shipping arrives at which time wee must comply to give the Prince a present of Broadcloth Rarities &c^{a}. w^{ch}. wee beleive will be y^{e}. larger since y^{e}. Prince is made subah of Pattana but we shall thereby get his Nishuan to carry a Trade in y^{t}. province and o^{r}. Investments will be made y^{e}. easier in Bengall.

When the Chambers Friggott arrives with mony, or any of o^{r}. masters shipping from England wele' buy y^{e}. first salt Petre y^{t}. comes fro Pattana, designing to order people on y^{e}. way to bargain for y^{e}. same before it comes near hughly but at pres^{t}. there's no Petre to be bo^{t}. in hughly and wee are out of cash, disposeing of y^{e}. round pepper for mony to defray y^{e}. expence of y^{e}. garrison should no Petre arrive early enough to dispatch y^{e}. Chambers by y^{e}. p^{mo}. of Sep^{r}. from Buffelo Point she must Tarry untill y^{e}. monsoon time is over before she be sent on y^{e}. coast w^{ch}. wee Judge must be y^{e}. beginning of November to sail from hence without she returns for Madrass in August with what necessarys and stores wrote for to take in y^{e}. Salt Petre and bales already lodged there to which pleas to let us have yo^{r}. opinion that wee may act nothing relating to y^{e}. shipping consigned to you which may be Taken in ill part.

Thomas Harris arrived here y^{e}. 13th. in y^{e}. morning in y^{e}. Charles and Betty sloop and Delivered us a Pacquett which was directed to M^{r}. Frewen &c^{a}. in Metchlepatam and acquainted us y^{t}. he had goods on board for that place wee examined him wherefore he did not put them on shoare there to which he and his Boatswaine both affirm y^{t}. they mett with gusts and bad weather and a current w^{ch}. drove them by y^{e}. Port but wee being not altogether satisfied with y^{s}. account beleiving y^{t}. M^{r}. Harris might be[...]full and unacquainted wth. going into y^{e}. Bay[...]take any excuse to prevent Trouble ha[...] severely repremanded him

and he is now on his good behaviour whether he shall be continued in y^e^. Comp^s^. service or not wee opened y^e^. Pacquett for Thom^s^. Harris his Bill of Ladeing and to know what goods were on board which are Landed and shall be sent to Metchlepatam by y^e^. Comp^s^. shipping y^t^. may be ordered to touch there without you give farther directions about them reading yo^r^. Lre to M^r^. Frewen &c^a^. wee understood y^t^. Woolston was run away fro Metchlep^m^. indebted to y^e^. R^t^. Hon^ble^. Comp^a^. wherefore y^e^. morning before y^e^. receipt of yours wee wrote a Letter to S^r^. Edward Littleton &c^a^. copie of w^ch^. comes Inclosed (tho have receed no answer) and desired y^m^. to give him no protection wee are sending vessells down to Ballasore and design to give orders for seizing Sam Woolston to w^ch^. end a Letter will be sent to y^e^. Phousdar not to protect him and an ord^r^. to y^e^. Vacq^ll^. to be at some expence w^th^. y^e^. Gov^t^. to prevent and wee suppose his circumstances [are such y^t^. he cannot outbribe us.]

The Charles and Betty sloop is not a Vessell w^ch^. deserves so ill a character as you have heard but let her be what she will tis y^e^. Vessell whose Frame was

Invoiced to us sterling and y^e^. Europe Carpenter belonging to y^e^. Anna built upon her accord^s^. to y^e^. Comp^s^. orders and had a Gratuity appointed we have followed o^r^. masters orders in sending her to Madrass and you have followed yo^r^. Inclinations in returning her to Bengall so there's no farther harm done y^n^. surprizing you with a few bales.

M^r^. Adams arrived y^e^. 13^th^. Inst^t^. late we Demandd his Bill of Ladeing to be satisfied y^t^. he had Deliverd y^e^. Companys goods on shore having receed no advices from M^r^. Holcombe he assures us y^t^. all was Delivered and he waited Three or Four hours after y^e^. Boat put on shoare for his Bill of Lading and letters w^ch^. not comeing off and y^e^. weather in y^e^. evening proving bad and by appearence worse Threatned, y^e^. road being bad y^s^. season of y^e^. year he came away without Letter or Takeing up his Bill of Ladeing.

As I was particularly enjoyned by ye. Govr. and Councill of York Fort not only to give them but your honr. &ca. an Impartiall accott. of the differences and Annimossities between Mr. Natthl. Eyton late Cheif and his yn. Councill Messrs. Thoms. I send ym. enclosed, and Desire your honr. &ca. wd. be referred too, and yt. I might not be Thot. partill. more of one Party yn. ye. other I gave each the free Perusall of all Alligations past, and ye. same liberty to reply in Their Defence as they might seem fitting wch. as it has been done I can only add to ye. Best of my Judgement my opinion in ye. matter in some Perticulars being as follows Vizt.

That I cannot beleive Mr. Eyton would have been so backward in his accts. as Messrs. Kingsley and Scott in their papers affirms him to be (but of yt. wn. leasure p mitt I shall soon inspect into & rectifie) if he had not been Afflictd wth. a long Indisposition of body and they in a civill manner offerd him their assistance but its so much to ye. contrary yt. Capt. Collier and Mr. Standlys takes notice of ye. formers Dylatoryness when ye. Sarum Touched here from Bengall and Mr. Eyton then lay sick upon his Bed and yt. Mr. Eyton ever abused ym. not one in their Alligations taxes him with but quite ye. contrary rather to a fondness and yt. his wife was ye. same to them altho' they both had so often times Threatned and abused her and yt. she should at any time intermeddle herself with ye. Comps. affaires or her husbands directly or indirectly none in ye. Papers affirm nor did ever perceive she was enclined yt. way or heard it spoken from any one to themselves.

I have nothing to say in Vindication of Messrs. Kingsley and Scott as to their late abrupt proceedings since ye. severall in [their] Alligations lays them sufficiently open [.....] Letters delivered in ys. day and now goes enclosed doe plainly show they have a true sence of wt. is past and for which they are very penitent and promises amendment for ye. future will I hope in a great measure mitigate their former miscarriage to their late cheif of wch. their whole relyance is on your honour &ca. Clemency I have nothing more to intimate to yr. honr. &ca. in ys. affaire I Therefore wth. Submission subscribe.

Honourable &ca.

Reced ye. 24. July 1703 p Ship Monsoon.

Your Favours of ye. 29th. November last with a copy of a Paragraph of your Generall Letter to Bengll. p ship Phœnix we receed ye. 13th. Instt. to wch. can give but very little answr. at Prest. till have better advices from Gombroon indeed ye. greatest part if not all ye. Lre they are to reply to as wee do hereby direct ym. to do.

Wee do not a little wonder at Mr. Bruce detaining so much of Capt. Lambarts money of any accott. betwixt ym. wee were wholly ignorant till ys. Letter and accovt. appeared, wee enclose to you copy of a clause in ye. Gombroon Genll. yt. accompanied these papers whereby youle' observe yt. Mr. Bruce does partly owne ye. Debt but seems resolved not to give any account till had ordrs. from England and ye. slender reasons, if so wt. he writes may be calld for such a Resolution and keeping ye. money itt has been always ye. custome to send a Deceased Captns. mony by ye. same ship as has been Practised by us on ye. like occasion neither could wee ever assume to our selves ye. power of doing otherwise nor will they yt. mean honsetly do so besides if Mr. Bruce had really such a scruple as he pretends why did he remitt about Thirty Five Thousand Shahees if part might be sent ye. same reason holds for ye. whole besides why did he conceal ys. mony never acquainting you or us thereof in his Defence there are some things yt. run counter to wt. wrote by yr. honr. &ca. which are obvious at first view wee do write him here abouts and shall endeavour [to] cause him to obey yr. directions for wee think he [has] already run himselfe into many inconveniencies and by refuseing will into more.

The stores &ca. ordered wee suppose are sent being all procurable to Gombroon except ye. Apricock Plumbs cherries &ca. which welé Try what may be done here but ye. season is now comeing on wch. will occasion ym. to lye long with us under ground and shall be down against ye. next years shipping and if you want horses wee ought to have Timely notice by way of Suratt or elce upon a ships arrivll. at Port its next to impossible to procure them wn. hear from thence what is sent wele' Take care to supply what short against ye. next year to be ready for ye. shipping.

Your Bill if appears shall be paid and redrawne as Directed:

Mr. Bowyear is gone to Suratt when [.....] must write to receive ye. money but [.....] now come to hand there's no summ [.....] coppy of Receipt inclosed.

About Mr. Harbins buiseness wee can[never] send you ye. True account but have order[ed. ye.] Gentlemen att Gombroon to search thr. Regis[ter] and send whole account to you and Coppy thereof to us, when shall further advise but if wee mistake not ye. Generall and Councill did write neither to you or Bengall Presidency about ye. matter.

On ye. 14th. Currant wee recēd Letters from Aleppo bringing ye. most wellcome news of ye. Taking and destroying ye. whole Spanish Flota with Eighteen French men of warr at Vigo in Gallicia ye. particulars youle' read in ye. enclosed paper and ye. most materiall passages of ye. last Campagne by coppy of a Letter from Aleppo to ye. Agent yt. accompanies ys. Godsend a continuation of ye. like success yt. France may be reduced to it's Just owner wee have not for this long time had a word from ye. Rt. Honoble. Company Wee are

Inclosed comes coppy of our last of the 17th. Ultimo since which have recd. advices from Ballasoar that Woolston keeps close in the new Companys Factory

Recēd 10th July 1703 @ Pattamarr.

there and stirring not abroad shall find it difficult to seize him wee are working with the Phousdar of that place but fear in vain the said Woolston designing to Fort England (as Sr. Edward terms his house in Hughly) on one of the new Companys vessells where he hopes to have a larger liberty under the Consulls protection however he may escape at present when ye. united Comps. shipping come out doubt not but there will be orders for all deserters to repair to their masters Representatives to accott. with them as the Rt. Honoble. Company advise that the second article of their agreement intimates as much.

You will find by Sr. Edward Littletons &ca. long letter full of stuff and reflections on ye. St. Georgians what a Government their masters are like to have in India if they will submitt to their President and Councills rules and opinions therein for from what they argue it may be as Lawfull for the residents of the new Companys subordinations in Cassimbuzr. and Rajamaull to go for Agra and Dilleh and offer to clear accounts with their masters there as for Mr. Woolston to sayle from Metchlepatam to Bengall and offer to clear accounts with our masters here and wee beleive the new Companys Directors will give them little thanks for their Long[.....] if they do not expect therefrom that [.....] endeavour to escape accounting wi[th ye. United] Compas. as some of ym. have already done fr[om] the old.

The Europe Inhabitants of this place who pay ground Rent to the Rt. Honoble. Compa. desire Leases for their Compounds and we having ordrs. from our masters in these cases to advise wth. you desire you will please to send us coppy of the Lease given by the Rt. Honoble. Compa. to the Inhabitants of Fort St. George and to advise how often they are renewed and if all alike.

Wee have ordered a Companys servant for Hughly to weigh off the five Hundred maunds of Salt Petre bought there and are advised yt. there is a thousand Maunds more on ye. way of last years wch. will be in Hughly wn. the waters rise high enough to bring the boats over the sands near Calcapoor and wee have ordered the Broaker to buy it in case ye. Mercht. is willing to take Lead and Broadcloth ord'nary in payment for wee have nothing elce to purchase ye. same the shroffs in Hughly being out of Cash or unwilling to Lend us more then they have already done if it be objected as last year that ye. Comps. wealthy servants may assist them wee reply now as wee might have done then yt. had those which are termed so money by them at this season of the year our masters would not want it upon urgent occasions as the President supplied ym. last year with Fifteen Thousand Rupees, and at the same time paid Interest for near yt. summ to others but the Rt. Honoble. Compa. do not approve of borrowing money from their servants (always rejecting it) insomuch that those who have made a practice thereof altho' a peice of service to the Company last Warr times yet thought convenient to prevt. their names being mentioned in the Bills of Debt for the Company are for Lowering their Interest which their wealthy servants wd. not heartly Effect when they live by the same but as wee are advised have at Dhacca and other subordinations formerly risen it to one Rupee four annas in ye. hundred Rups. whereas wee brought it to 12 ans. in ye. hundred rups. before the arrivall of ye. new Companys people and might have kept. it so had not the Company wanted such great quantity of goods and mett wth. competitors if either our masters shipping from England or our own effects from abroad arrives in time and Salt Petre then procurable you shall not want what can be bought for the Chambers Friggott being very desirous to give you satisfaction in everything required from us.

Our Omitting to give your honour &ca. the dimensions of the chappell is some hindrance to or. proceeding in the building since the seven hundred and eight black stones receed are not sufficient which makes us intreat a farther supply as soon as possible Twelve hundred to be exact Ten Inches square to size with those you have been pleased to send already will compleat the chappel and two hundred

for the great star[es] to be fourteen Inches for the tread (the [stones] to be smoothed on one side these peo[ple being] but bad stone cutters) wee are

HONOBLE. SIR &CA.

Our last to you was the 20th. February copy of wch. is enclosed since wee have receed none from you but a short addition added to a copy of yours of the 9th. 9ber. with a postrcript [*sic*] from the Secry. the former giving an account of the arrivall of the Wentworth and Jno. and Mary in Ballasoare road the latter mentiong. the encloseing of the copy of the Governour of Negapatams letter to the Honoble. President wch. wee have recd. and for wch. we give you Thanks. Reced 11th. July 1703 @ Pattamarr.

Wee have not mett with any new Trouble from this Government this year for that no advice of any fresh Piracies is arrived.

The Loyall Bliss and Natthaniel not meetg. with Pepper enough at carwarr were obliged to Touch at Tellicherry to fill up from whence they sailed not till the first March their Cargoes amount to about five lack and twenty Thousand Rupees.

The new Comps. Ship Arabian Merchant not being sail fast put into Bombay and tooke in stones from whence she sailed the 24 Febry. her Cargoe amounted to about eighty Thousand Rupees.

The Albermarle sailed from this Rivers mouth the 7th. instant her Cargoe amounts to Rupees one hundred and sixty five Thousand.

The Susanna arrived here from Persia 15 dayes since Sr. Nicholas is now going to lade her she will certainly have a very mean cargoe all the fresh Europe news wee receed by her is enclosed which wee shall be glad to hear confirmed.

Captain Matthews in the London arrived Gombroon the 10th. of March they write that the Monsoon yt. came from Bengall before her [is not yet] arrived.

Neither old nor new Companys ships from England are yet arrived this coast nor ye. Aurenzeb and Canterbury from China that wee hear of but two private ships from thence Vizt. the St. Jno. Baptist and Blessing arrived the former on the first and latter on the 16th. Instant.

Capt. Leekey is going with his ship to China he narrowly escaped being run away with by the Pirates at Madagascar.

Capt. Say having spent his Monsoon at ye. Rivers mouth and in Swalley hole is again come into the river to give his ship a second Repair where he must lye all the Rains if she had lain out much longer she would have sunk.

An account of Mr. Daniell Du Bois's Effects disposed of on Bombay is enclosed.

Wee have endeavoured what possible to get leave of this Government to send you some wheat on the ship by which this goeth but cannot except wele' pay the Governour a Rupee a bagg as the new Companys people have done for some they have laden on her which is an imposition we never mett with before and if wee once submitt to it wee must alwayes do it for the future for this reason and for that the wheat is much worse than it useth to be tho' almost treble y^e^. usuall price wee have not sent you any. Invoice and Bill of Lading for one Bale of salloes and two cases of Bottles of garden seeds is enclosed wee would have dryed the latter in the sun but that the gardners say twill Spoil its growth.

Wee are in hopes that some ship from Persia will yet fall in with us before the Rains and bring us fresh news from Europe if so and that it is materiall wee will send you copyes thereof by a pair of Cossetts & desire that when any of our Masters ships arrives you from England youle' do the like to us.

The King of Persia hath made a great and long flourish about drawing down a great number of souldiers to Congo to go against the Muscat Arabs in conjunction with the Portuguese but wee fear all will come to nothing at least.

The Sava[gees] have not been so good as their word [to make a sec]ond assault against this Citty but tis probable that their uninterrupted march forward and backward with the sweet of their plunder they have got from many Towns round about us, this year will invite y^m^. hither again after the Rains.

The foregoing is what wee thought to have sent you by the forementioned Armenian Ship but the Noquedah having exhausted his stock by lengthening of her and not meeting with Freight as wee presume he expected he was obliged to bring her into the River again where she will lye this Rains for which reason wee cannot send you the designed salloes and garden seeds but having sent the same quantity of the former to Calcutta that wee sent you last year we beleive the President and Councill there may spare you one half at least for that they wearing but one Flagg wee suppose they cannot spend the other halfe in a year.

The Susanna instead of Lading for England is come into the River.

The 9^th^. instant Cap^t^. Leckie died whether his ship w^ll^. proceed of her designed voyage is yet uncertain.

Since closing our Pacquett yt. accompanies this wee reced advice of a ship belonging to this town arrived at the Rivers mouth from Gomroon which caused us to desire ye. Armenians that sends the Cossetts to stop them a day or two supposeing that wee had Letters by [that s]hip and this day wee Reced from her Noquedah [two] pacqts. one from Spahaune the other from Gomroone copyes of wt. Europe news wee Reced from each Factory in these Generall Letters is enclos'd news papers wee reced none, nor any Letters from our Mrs. nor private letters from England. Reced 11th. July 1703 p Pattamarr.

The news from Italy contradicts each other that from Spahaune seems to be of an old date which wee Reced by former Letters that from Gomroon seems to be new wch. probably Mr. Bruce extracted from the Italian Gazetts mention'd to be sent him wch. were not forwarded to us.

The Monsoon imported Gomroone the 21st. March and ye. Colchester the 14th. of the past mo. Mr. Bruce &ca. write that they suppose yt. the latter may be [dispatched from thence according] to con[tract they also write that they have full] answered your letter sent them concerning Capt. Lamberts effects in Mr. Bruces hands and have sent us a copy of his will and wee presume they sent you a copy of the same they also add that they will send you by ship Colchester what they can procure of what you wrote for but that good horses are not procurable.

Understanding that the Armenians have not dispatched the Pattamars to whose charge our late letters are comitted wee have ye. opportunity to advise you that on the 19th. inst. the Regard arrived Bombay which ship was at [that time] in Company with the Howland and [two ships of the] new Companys, bound to this [Port the former mett with] Two French ships yt. gave her chase on this side the Cape which wee presume were the two that were at Bengall this year she escaped by her sayling.

Coppy of the Mannagers of both Companys letter to us and the new Companys President & Council which was sent the Capt. after the Generall pacquett was closed (wch. wee have not yet received) is enclosed and a copy of what news we receed from the Comander copyes of both we desire youle' forward to Fort St. Davids and to ye. old & new Comps. Factorys at Metchlepm. and Bengall.

By letters from the Martha at ye. Mauritius wee are advised to our great concern that ye. Bedford was lost at or near yt. place severll. peices of a ship being driven on shoar there which all think must be part of [her] broaken body as likewise severall peices of [car]ved work on one of which was Capt. Yours of the 16th. past wee Receed the 23^{d}. ℔ Ship Humphrey and Charles with that yo^{r}. honour &c^{a}. sent us by said ship for pres^{ts}. &c^{a}. Receed 14th July 1703.

Wee should not have paid o^{r}. Merch^{ts}. the Ballance of their acco^{tt}. if they had not brought in the full quantity of chay goods due on the former Contract and your Hon^{r}. &c^{a}. is very sensible wee could not make our Merchants comply with the List upon which your hon^{r}. &c^{a}. ordered us to pack up such sortes as wee had in our warehouse according to said List w^{ch}. wee complyed with and have now in our godowns the full amount of the 1500 Pag^{s}. in chay goods w^{ch}. was the best termes wee could bring them too so that wee know of no proportion of chay goods due from our Merchants unless your Hon^{r}. &c^{a}. expects they should bring in the quantity mentioned in the List w^{ch}. they never agreed to or sign'd any contract for.

The Cheif is paid for the Eight boats of firewood and will Take care to send away y^{e}. Three Boates y^{t}. are here as soon as y^{e}. winds w^{ll}. permitt and also what quantity more can be procured.

Wee shall be as thrifty as possible of what your Honour &c^{a}. has sent us for Presents.

Wee having not money in cash to defray the charges of the Factory have drawne a Bill on y^{r}. Hon^{r}. &c^{a}. for 190 Pag^{s}. pay^{ble}. to the Presid^{t}. &c^{a}. freighters of ship Humphrey and Charles w^{ch}. hope will meet with yo^{r}. Hon^{r}. &c^{a}. acceptance.

When your Hon^{r}. &c^{a}. shall give us orders ab^{t}. an Investment wee shall observe your directions as to the sorts and abatements but at pres^{t}. our Merchants do not seem to be in the Least inclinable to make an Investment on those termes.

Wee have not sent y^{e}. Gov^{rs}. Letter to y^{e}. Phouzd^{r}. least he should make an advantage of it and give y^{e}. new Comp^{as}. people trouble [w^{ch}.] would not looke well in us as affairs are now order'd.

Wee have acquaint'd y^{e}. Portuguze what your hon^{r}. &c^{a}. has wrote who is more inclinable to Reposit his mony into the Comp^{s}. Yours of the 12th. Ultimo came to hand the 16th. and returne You our thanks for y^{r}. compliance to our Bills for Ten Thousand Pagodas.

Inclosed your honour &c^{a}. will receive an account of what money we have Reced from the Creditors of Somiah which if you please to approve wee shall receive into the R^{t}. Hono^{ble}. Companys Cash and Creditt yo^{r}. place for y^{e}. same those partners who have p^{d}. their mony in y^{e}. buiseness request y^{t}. Ismael Chittee and Latchmael Chittee may deliver them up their Bills they gave out for their proportions which they refuse to do till Somiah gives up their Fathers Bills which he now has in his possession and refuses to doe Therefore request your Hon^{r}. &c^{a}. will be pleased to make Somiah surrender those Bills that the severall partners may receive theirs for they have nothing to show for the payment of their mony.

Our last gave your Honour &c^{a}. a particula^{r}. account of our Transactions wth. Do[wd Ca]wn so that that clause in your letter requires no further answer than to Assure you wee were not wanting in keeping a continuall watch upon his motions and a good Number of Tappies upon the Road to bring us advices of all that past and long before his comeing into y^{e}. Bounds the Dep^{tty}. Govern^{r}. had intelligence thereof and all things were in as good a readiness for his reception as possible.

Serjeant Bang shall be permitted to returne to Madrass as soon as Serjeant Latteril arrives.

Pursuant to your honour &c^{as}. directions wee shall secure M^{r}. Bawgus till he has p^{d}. the Comp^{s}. debt but request to know if he be in y^{e}. Comp^{s}. service and whether wee must provide for him as usuall.

Inclosed wee received M^{r}. Fenwickes relation of the Pirates for which returne our Thanks.

Inclosed comes an account of what goods is in our Bounds belonging to your Merchants.

Wee had sooner made an answer to this Gener^{ll}. but waited to give your honour &c^{a}. an account in what manner with your approbation wee have disposed of the R^{t}. Hono^{ble}. Companys Bounds for the year ensuing which the want of rain and cheapness of paddy have rendred very difficult wee at first put them up to outcry but none offered more than four Thousand one hundred and fifty Checkrums which wee did not think convenient to accept and therefore twas referred to the Deputty Governour to discourse wth. the renters or any other to endeavour to procure more for them. He sent for the renters who formerly rented them last year and pressed their taking of them again at the same rates but they alledged that they had lost Eight hundred Checkrums by them and could not take them againe without that abatement upon which he sent for some of y^{e}. Principall Renters of Tevenepatam and after many tedious and troublesome meetings he perswaded them to rent the Bounds for this year upon the same termes they were lett for last But with one proviseat to Trimalraw that in case any loss should happen on his tenth part wee are obliged to deduct it out of his last quarterly payment in consideration of his poverty and being very Instrumentall in concludeing this Troublesome buiseness all w^{ch}. wee hope will meet y^{r}. Honour &c^{as}. approveall.

When the Hono^{ble}. y^{e}. President was here he was pleased with the rest of the Councill to direct that Farming the Bettle Tobacco and Ganjee should be taken off and a custome of it's full value taken for the same for one year and ordered in your Generall to be Continued for one yeare longer monthly accounts of which has been sent your honour &c^{a}. by which it will appeare what the said duty amounted to The times now neare expireing wee request your honour &c^{a}. will please to give us [directions] in what manner it shall be continued [for] y^{e}. future wee with submission are of opinion that if wee could frame out of y^{e}. same Custome as is now received by y^{e}. Company for more than the Company now make of itt. It would be their advantage because nottwithstanding all our Vigilance and the extraordinary charge of Peons the Companys is at to keep watch at y^{e}. severall Mettos for y^{e}. receipt of this duty some is stole into the Bounds and y^{e}. Company loose their custome This method would make it as easy to the Inhabitants as the Hono^{ble}. Fresid^{t}. &c^{a}. were pleas'd formerly to direct, and advance the Companys Revenues here about which wee request you will please to give us your Direction.

Mollim one of our Cheif Merchants is repairing a large house he has at Porto Novo and its reported he sometimes intends to inhabit there and sometimes here he now stands a Considerable debtor to the Company for customes therefore desire youle' please to advise us whether wee may permitt him to go out of the Bounds before he has made satisfaction or what method wee may take to compell him thereto.

Wee have recēd the Packing stuff according to Invoice Wee are

Recēd 24th. July 1703 p Boat.

Our last to your Honour &ca. bore date the 8th. Instt. since which wee have received yours of the 9th. Ditto.

Abdull Lebbey has upon all occasions appear'd our very good friend and wee cannott yet discovr. he has had any Sinnester designs an[d] [...] his Intentions which wee think has been [sent] by his good service in the Wrack and his mediation to the Nabob for which he has not yet accepted the present your Honour &ca. permitted us to offer and the mistery thereof is (wee beleive) he thinks it not sufficient or else is fearfull of being again taxed with bribery wee shall be sure to give him no opportunity to do us any prejudice which he would be cautious of putting in Execution for when he recēd orders to invest this place your Honr. &ca. are very sensible in what manner he did it.

Inclosed Your Honr. &ca. will receive a List of the Presents sents [*sic*] the Nabob Dawed Cawne Duan Abdull Lebbey and their officers wherein wee acted with all the prudence and good husbandry imaginable and are glad it has mett with so good success since our Neighbours the French and Dutch were forced to a much greater expence wch. we hope wll. meet wth. your honour &cas. approbation.

Wee have made no difference between Your merchants and ours in the charges of their packing stuff and shall comply with you honour &cas. directions in haveing all the goods they bring in here washed sorted and packd as wee do for our owne.

As soon as the President arrives wee shall receive the packing stuff &ca. yesterday wee saw a ship to ye. Northwd. wch. we conclude is her.

Wee shall be cautious of keeping any ships in our Road and if any arrives dispatch them from hence with all speed.

We have recēd the charter of union between ye. two Comps. & conveyance of the dead stock.

Inclosed your honour &c^{a}. will receive Copy of any enquiry made by M^{r}. Games into y^{e}. demands of M^{r}. Cracow Resident here on behalfe of Dutch Merchant in Negapata^{m}. to a peice of Ground in y^{e}. Chittee street at Cuddalore at present y^{e}. Comp^{s}. Beetle godown his pretensions to this ground was before y^{e}. Morattas took this country and afterwards upon settleing their Government here One Mallar Puntulo lived upon it seaven or eight yeares and enlarged it very considerably for more particulars wee crave yo^{r}. hon^{r}. &c^{a}. will please to be referred to the inclosed paper and send us your directions in what manner wee shall act therein, Our opinion is he has no right to this ground because his demands is before the Morattas conquerd this place from whom wee purchased it and if y^{e}. Dutch once get footing here it will be difficult to rout y^{m}. again besides it will be a very ill president, by the same Rule the Factory at Cuddalore and many other places there may be demandd Which being the needfull wee crave leave to subscribe.

Honoble. Sr. &ca.

By ship London under date of the 10th. of Apll. wee gave answer to your Honr. &ca. orders of ye. 9th. of November last and at present give your honr &ca. this further Trouble by ship Colchester to inclose ye. Invoice and Bill of Lading for what put on board the ship on the Rt. Honoble. Comps. account for madrass and Bengall.

The Agent &ca. from Spahaune have ordered us to look into the Registers here and examine the circumstances of the buiseness of attacking Mr. Harbins money

in President Beards hands & advise your honour &c^{a}. thereof accordingly wee have examined what wee can find about it and only find y^{t}. M^{r}. Harbin being then very deep in the R^{t}. Hon^{ble}. Comp^{s}. debt and the Agent &c^{a}. knowing he had 5000 Shahees in President Beards hands desired it might be attackt there till such times as they saw whether he could clear his accounts or no M^{r}. Harbin now we suppose is at Madrass or Bengall if he [holds] a clearance from his superiours at Bombay and a discharge of his accounts with y^{e}. Comp^{a}. wee suppose there is nothing more to be said to him on that account.

Wee have sent your honour &c^{a}. all y^{e}. news papers we had by us with an abstract of what wee have receed most materiall in our Letters from Aleppo.

Wee have been much disapointed this yeare (in every [*sic*] wee expected to have sent by y^{s}. ship) by y^{e}. non arrivall of 700 chests wine 200 chests Rosewater and 10 horses and a large quantity of fruite most of which are on y^{e}. road from Shiraz but being afraid to detain y^{e}. ship to Long the season of y^{e}. year being late already wee now dispatch her without them as for Vinegar there has been none good to be had in Towne this Long time so have gott none.

Wee have sent your honour &c^{a}. some musk mellon and water mellon seeds and such others wee could gett here put up in bottles in a small box wee suppose the Agent &c^{a}. have sent some also from Spahaune.

Wee have had last May a great mortality here especially on board the Colchester out of w^{ch}. ship dyed Cap^{t}. Rouse M^{r}. Dendy his Purser & 11 or 12 more of y^{e}. stoutest men in the ship.

As for Cap^{t}. Morrice and any other Englishmen that may be yet living at Rustock wee can see no hopes of ever clearing them tho have used all y^{e}. meanes wee could think of for y^{t}. purpose wee wish any body in England would out of love to their country importune y^{e}. Parliament to take into consideration all this Barbarity and the gross ignomy wee lye under in all these parts by suffering ourselves to be thus used by so inconsiderable a parcell of Pirates this Ring [*sic*] has been pretending to make warr upon them these 7 or 8 yeares joyntly wth. the Portugueze but wee scarce beleive either of those two will ever attempt any thing considerable against them Cap^{t}. Matthews in the London was at Muskatt and will unoudbtedly [*sic*] ere now give your honour &c^{a}. his opinion in these matters.

Wee have Lent Cap^{t}. Reid here for y^{e}. ships charges being out of stock y^{e}. sume of 6000 Sah^{s}. and have inclosed his Bond for y^{e}. same referr^{g}. it to your honour &c^{a}. to account wth. him for y^{e}. same as shall be thought reasonable wee have not agreed on any particular for want of an example or Presid^{t}. which being what occurrs at present worth y^{r}. hon^{rs}. &c^{a}. notice wee most respectfully subscribe.

P.S. Since closed the foregoing wee have receed [some horses] from Shizaz for the R^{t}. Hono^{ble}. Company [being] six in number they are to our thinking as good a parcell of horses as could be had and all young and cheap too tho wee should not have stood for price if anything very Extroardinary could have been had for more money and if should light on any such thing shall have ready for next years shipping.

Mr. Bawgus arrived here on the President since which has been often sollicited to adjust his accounts which he promises to doe in few dayes after which pray advise if he must be returned to your place again or permitted to go where he pleases.

It will be no great difficulty to know whether Trimalraw looses upon his tenth part of renting the Companys Bounds because they let it out to others in small proportions and as soon as they have concluded for the whole wee shall get the best information wee can He was very serviceable in this buiseness which was the reason wee granted him this favour. The Renters are no tradeing people and consequently no wayes advance the Companys Revenues but enjoy ye. same protection as others who considerably encrease ye. Company Customes wch. were Arguments used to induce ym. to give so much for the Bounds by wch. wee beleive they will be loosers.

The first of this month concluded the yeare for the Tobacco Beetle and Ganjee the whole amount thereof (servants and Conicoplys wages deducted) Amounts to Pags. [*lacuna*] ye. monthly accts. of which to ye. end of July comes enclos'd Wee shall use our utmost endeavours to find out propper persons to farm ys. Revenue and if can procure more for it yn. ye. Yearly income shall accept thereof Which wee are in hopes of effecting because wee are very well assured that notwithstanding all our care a great deal is Clandestinely brought into the Bounds and the Company defrauded of the custome thereof wee shall take care if wee farm out this Revenue to make such necessary Orders as to prevent ye. farmers oppressg. the Inhabitants or collecting any more than what is now received for the Company.

The Arrack Farmers Licence expireing the first Instant wee have again disposed thereof to Manoel Gonsolvis and Rowland Willson for one Thousand four hundred Chuckrums ℔ Annum near six hundred Chuckrams more yn. let for last yeare which wee hope will meet your Honour &cas. approbation.

Wee shall embrace the first good opportunity to demand the Companys debt from Mollim and observe your honour &cas. direction to do it with that tenderness as is due to him which wee wish may prove effectuall but have great reason to doubt it.

The Merchants make great complaints for their money and are daily pressing us to give our Bills on your Honour &ca. for the Ballance of their account which wee hope your next will permitt us to doe and also for defraying the necessary Charges of the Garrison for we have not suffict. in Cash to pay ys. months Expence.

Mr. Cracon has reced the answer yr. honr. &c. were pleased to direct which wee beleive will silence his future pretentions to the House in Cuddalore.

Wee received Copy of a Paragraph of Your Honour &cas. Consultations of ye. 15th. July wch. is delivered to Mr. Haynes with orders to observe the same in stateing the Generall Bookes of this Garrison. Inclosed your Honr. &ca. will receive some Querys drawn out by Mr. Haynes, Your answer and directions thereto wee must awaite before he can proceed therein.

The foul Consultations in Mr. Frasers time accompanys this for his perusall to compare wth. the fair one which wee request you will please to deliver him and get the fair one's signed and returne them both to us again Wee remain.

Recd. ye. 13th. Septr. 1703 by Boat.

Our last to Your Honr. &ca. bore date the 2d. Instant; On the 14th. came to hand Yours of the 30th. past month, and enclosed an answer to [Mr.] Haynes's Query's, Which is delivered him.

Pursuant to Your Honr. &cas. Direction we have Summoned the Rt. Honble. Company's Merchants and discoursed them about a New Investment [They] in debate requested to know for what Amount [the] Contract must be made, In what time compleated, and how much money we would pay them beforehand; they [also] desired to have their last Years Account adjusted and the Ballance due to them paid, which would enable them the better to carry on this new one, for ye. stock they are obliged by Contract to raise now lyes in the Company's hands, But after pressing them often to think of an abatement, they at last agreed to abate Ten ℔ Cent provided the foregoing Articles was Settled to their Content; These are the uttmost Termes we are able to bring our Merchants to, at Present, But those that advised Your Honor. &ca. that good Long Cloth was to be bought here att 24 pags. a Corge, wod. doe the Rt. Honble. Company a very good peice of Service to come down here and provide itt, for it is past the skill of our Merchants to procure Such Cloth as we sent the Company last Yeare at yt. Price.

The Monthly Accounts of this Place shall for the future be constantly past the Succeeding month, and whoever omitts complying therewith the Companys Orders shall be putt in execution according to Your Honor. &ca's. Direction.

Mr. Samuell Atkins arrived here the 4th. to whom we have allowed the Same Sallary as was given Doctor Royer deceased, We hope his Ability will be such as to gaine the same Creditt and Success his Predecessor had, We are in great want of Medicines a List of which comes enclosed, which we request Your Honr. &ca. to Supply us with.

Last Consultation day we Summoned Mollim and his Debt to the Rt. Honble. Company was Demanded of him in the Civillest termes imaginable to wch. he answered that it was true he owed the Company some money for Custome, But in the Yeare 1701 he was sent up to David [*sic*] Cawne by order from the Honble. President. In which Expedition he expended a considerable sume of Money for the Service of ye. Rt. Honoble. Company, and requested to know whether it must be allowed him. He was desired to put his demand in writeing, Which when we receive shall be sent to your Honor. &ca. for your perusall and direction therein.

He has often pressed Us to reduce the Customes of this place, and alledges that unless it be putt in Practice it will be very prejudiciall to the Company Which we have reason to feare because himself wth. most of the Tradeing Chuliars of Cuddalore have this Yeare provided their Goods att Porto Novo because the Custome there is between 2 & 3 ℔ Cent cheaper than what is Collected here by which the Company is deprived of receiveing any Custome att all; But over and above their Custome there is Collected Severall Small Duty's on all weighable and Measurable Goods a List of which comes inclosed, with the Uses and Persons they are applyed to, which we request Your Honor. &cas. perusall of, and direction whether they shall all or any part of them be continued.

This accompanys Our Diary's, Consultations, Account Cash and Dyet expence to the Ulto. past Month, also Mr. Farmers Account of Tobacco Beetle and Ganjee of Tevenapatam for the month of July Omitted to be sent in our last, which being [ye. need]full we remaine.

TO THE HONBLE. THOMAS PITT ESQR.
PRESIDT. FOR AFFAIRS OF YE. RT. HONBLE.
ENGLISH EAST INDIA COMPANY &
GOVERNR. OF FORT ST. GEORGE &CA.
COUNCILL.

SRS.

Recd. ye 26th. Septemr. 1703. [℔] Abednigo Ketch.

We have before us to answer yours of the 8th. of June primo and 12th. of July.

We are sorry that Mr. Peachie dieing in Mr. Duboises house, his Effects will be lost to his relations, 'tis the Company's orders to this Presidency and wee thought it had been so to all others in India for their Cheif and Councill to take care of deceased Persons Effects, when they make no Will nor have not any Relations or lawfull Persons to Administer, and that the Accounts be sent home by the first shiping for the deceased's Relations to receive ye. proceeds in England and accordingly, we have Acted with Mr. Peachie's Effects in this Place.

We accompted that you had Salt Petre enough for to Kintlage two ships but as you say it may be little more then enough for one Ship, if you want Goods for the Tonnage on your hands and that may be the reason you design the Colchester for ye. Bay.

Sloop Expedition arrived here the 8th. Ulto. having very narrowly escaped being lost by bad Weather she mett withall off Point Pallmarres where she Anchored and lost there, and in Ballasore Roade, all excepting a Small Kedgone, and so was forced over the Braces and by great Providence the Master run her ashore in a River to the Eastward of Sago, where having Intelligence we sent her a Pylot, Anchors, & Cables and brought her Safely hither. But so soon as she arrived the Master desireing the Vessell to be fitted we Sent three Carpenters on board to Survey her who gave in Report that she was not worth fitting to Sea, but if we were resolved to Send her they gave in an Accot. what must be done, Copie of the same comes inclosed, and considering how earnestly you write for Salt Petre we were resolved to fitt the Vessell and she will be ready to depart hence within eight or Ten day's but beleiveing she will not carry the quantity you expect we have sent two Hundred & fifty bags on freight for fifteen ℔ Ct. on this Ketch and shall Send the like Quantity by the Greyhound Sloop Mr. Stones Bill of Ladeing and Invoice of the Salt Petre comes herewith but we have no Salt Petre arrived from Patana & beleive 'twill be late before it comes Mr. Redshaw &ca. having mett with a great deale of trouble from ye. Duan there who requires Custome or that we give a writeing to pay the Same upon the Mogulls Order notwithstanding we have Sent him Authentick Copies of the [rights] & Priviledges the Rt. Honble. Company hath to Trade there, and he is one of those that will not receive bribes so that we have had a hard Task to deale wth. him, by our last Advices we understand he hath permitted Mr. Redshaw &ca. to lade the Salt Petre on boats but 'tis feared will not let them come away wth.out a writing, the Dutch haveing given

one to clear their Salt Petre boats notwithstanding they have the Mogulls Phirmaund to pay but four ℔ Cent Custome whereas the Duan demands the Same Custome the Natives pay, There is an Order come from Court for the Armenians to pay the Same Custom's as the Gentues, whereas formerly they pay'd but four ℔ Cent.

Herewith comes the Warehousekeepers Acco^{t}. of the weight of the Copper received by the Endeavour Brigantine which occasioned Some dispute upon paying Cap^{t}. Hart his freight he insisted that he delivered much more than his Bill of Ladeing express'd by computeing the Candy's and we demanded each bag to hold out One Hundred & Thirty one Pound.

We wish you had pleased to have granted our request in Sending down the Thousand Chests of Copper on the Companys two Sloops (having them in the house) for besides the Security of the Passage there being Pilots on board each Vessell, and y^{e}. Savings of freight paid to others (which would have been a good Article in the Companys Books for y^{e}. Credit of their Vessells, the Charge of which they So much complain) 'twould then have arrived to a good Markett, whereas now we can neither sell it for ready money nor Barter it for Salt Petre there being arrived from China, Surrat and the Coast near Ten Thousand Maunds the first that arrived we Sold for Thirty one Rupees four Anna's ℔ maund but now 'twill not near fetch your Invoice Price, we also desired Allemgeer Pagodas, those that bring them have disposed thereof for three Rupees Nine Annas and three Rupees Ten Anna's ℔ Pagodea.

We return thanks for all News Imparted to us, are sorry to hear of the Pyratts being abroad again in these Parts, but there being no more then have been these twelve or fifteen Yeares past, Trade will be much att the Same rate, and the Company under the like troubles without they find Some meanes to root out those Villaines.

We take notice of the Death of M^{r}. Pitt at Metchlepatam and hear that a Young Gentleman Setts up for a New Consull there, who hath Gutted y^{e}. Hallifax of all the Effects she bro^{t}. from China [Vend]able at y^{t}. Port, and Sent her hither, what S^{r}. Edward Littleton and Councill will doe with y^{e}. Ships on their hands we cannot tell, the Hern being arrived here from Borneo with a Corgoe, of Copper Sugar's, and Pepper, and y^{e}. Second of that place was appointed by the Cheif there Super Cargoe of the Ship, not trusting to y^{e}. Dispatch of the President and Councill in Hugley who they esteem very dilatory persons, but S^{r}. Edw^{d}. Littleton &c^{a}. have taken the Ship and Cargoe into their Management so that they have four Ships in y^{e}. River whose Charter party's will be out the primo February about Seventy Chests of Treasure in [y^{e}.] house and as yett no hand putt forward to business.

According to our Masters Orders we have taken an Account of the New Company's dead Stock in Hughly (and they have done y^{e}. like of ours here) and keep Bookes for the United Acco^{t}. from y^{e}. twenty Second of July according to the Managers Orders which arrived at a time we were near ballanceing last Years books, which gives us a great deale of Trouble, having cancelled them and begun all new again, notwithstanding shall be able to Send both pair of Bookes for England by y^{e}. January shiping.

We observe your Opinion that the Company will not like your sending Goods from the Coast to Bengall as those were which came down in the Tavistock from Vizagapatam, but the Risgo of them would be no more to the Company then the returning of Bengall Goods, which occasioned us to make that proposition Yet if the Glocester should Arrive you may have occasion for those Bales Sent by the two Vessells, but by our advices from Bencoolen we understand the Company sent out no more Stock then wo^{d}. provide a Cargoe of pepper, and order'd her directly for England which they are in hopes to Effect.

Every day waiting for the arrival of our Masters Shiping hath occasioned our deferring mention^{g}. any thing to S^{r}. Edward about Woolstone from whom we expect no Sattisfactory answer, but shall do it within a Short time.

Ambross Adams whom you mention came down on Capt. Harts Vessell who wee have reproved for so Ill an Action, and Capt. Harnett deny's his being on board ship, which is in the Dock on the other side of the Water, but we are advised he plays hide and Seek, in some of the Natives houses thereabouts but doubt not but wee shall have an opportunity to Seize him, which we should not have done but upon your writeing having promised to our Selves never to secure any more of the Ships Seamen when the Ships have departed hence, for ye. Commander on their return will never pay ye. Compa. what disburst for their Maintainance, Perticularly the Commanders of the Fleet Friggott and Phœnix, what charge we shall be att if we get this fellow, will place to your Presidency.

By Copie of a Consultation and Order we placed on the Fort Gate you will perceive what care we have taken that none of the Country Shipping shall entertain Seamen out of the Company's Europe Ships to weakening their Ships Compa. thereby to endanger their homeward bound Passages.

We have ordered Mr. Russell to pay to Mr. Curgenven the Ballance of the deceased Jno. Rosario Account when he has gather'd all that he can gett in, Cosma Deis has been enquired after and [as] Yett. cannot be found We are

Yours of the 13th. we recd. the 18th. with inclosed copy of yours of the 2d. ye. Originall of which came to hand the 20th. by a Boat on whom we recd. a Chest of Physick & Factors Provisions as mentioned in the Invoice. Recd. ye. 29th. Septr. 1703.

The Bales we lately made up was what Cloth was in the Washers hands, and if Your Honor. &ca. please to peruse the last Account of ye. Merchants you will find there then remained a considerable quantity of Cloth in ye. Washers hands & Merchants Godown, part of which is ye. Cloth we advised Your Honr. &ca. in our last was then embaleing, We have now gott ready Seaventy Six Bales, besides the Madrass Merchants Cloth, Which they desire may not be Sorted till Conicoply Paupia comes hither, Mr. Haynes has orders to make up the Merchants Account, and as Soon as finished shall be Sent your Honr. &ca. by which will appeare there yet remains considerable Ballance due to ye. Merchants.

Persuant to Yo^{r}. Hon^{r}. &c^{a}. directions we have had Severall meetings with our Merchants and treated with them about a New Investment & notwithstanding all the Arguments & reasons we have alledged, We cannot prevaile with them to make a greater abatement then Ten ℔ Cent which is the reason we have come to no conclusion and not yett hinted to them what Payment they are to have, being perswaded that as soon as they understand the Termes of Payment they cannot be able to comply therewith, Neither can our Merchants be thought men of Such Estates as to provide fifty Thousand Pagodas of Cloth with Twenty Thousand, Tenn of w^{ch}. you are pleased to direct must not be paid them till within twenty days you expect the whole Investment compleated. We shall not faile to use our uttmost Endeav^{rs}. to conclude this Contract upon y^{e}. best Terms we can and send it Your Hon^{r}. &c^{a}. for your Approbation.

Wee shall Build such conveniency's for the silk worms as is absolutely necessary. After which, hope to send Your Hon^{r}. &c^{a}. Such a quantity of Silk as will manifest this undertaking advantagious to our Masters.

Here is no money procureable att Eight ℔ Cent and tho' you were pleased to allow twelve, it would be difficult to procure Ten Thousand Pagoda's for we have but very few money'd men in this place and those eagerly Sought after by the Trading People who willingly allow that Intrest & very often more upon occasion.

We have turned back to our Consultations & find that in May 1701 Mollim was permitted by a Letter from the Hon^{ble}. President to go to David Cawns Camp to accommodate the troubles y^{t}. then happened between the English and him, Which he was in hopes to have accomodated for y^{e}. Summ of Two Hundred Pag^{s}. then permitted to be given depending on the Friendship and Assistance of Abdull Labby who was then there, But finding great hindrance from the Duan, he spared not any requisite charges out of his own pockett which he presented in the name of the R^{t}. Hon^{ble}. Company and procured an Honourable dispatch & Tasheriefs of Horses, and Vests for Madrass, and this Place, His charges in this Negotiation he now Sends to y^{e}. Hon^{ble}. the President, We shall observe such orders as you are pleased to give therein.

It will be difficult for us to procure the Opinion of any of our Antient Inhabitants against their Neighbours, those who are uninterested will be cautious of giveing their advice, and those who receive any benefitt from the Duty's collected on Trade will be Sure to argue against it, So that we can't hope for any sincere advise from them, Wee have allready sent Your Hono^{r}. &c^{a}. a List of the Exaction and taken the Liberty to give our Opinion how Prejudiciall it may prove to the R^{t}. Hon^{ble}. Company's Custom's & discourage Traders come^{g}. to this Port therefore shall waite Your Hon^{r}. &c^{a}. further direction in this Affaire, which shall be carefully observed.

We presume our Consultations Dyary and Account Cash are kept the usuall Methods the latter of which we have carefully looked over and find nothing therein we think belongs to the Paymaster's Accounts, and if You please to mention in what particulars, it shall for the future be discharg'd by him.

M^{r}. Bulteel by your Hon^{r}. &c$^{a's}$. Permission has laid down the Company's Service and has given up his Acco^{t}. of the Storekeepers Employ, which att Present is supply'd by M^{r}. Berlu, till we have some fitting Person here to undertake the Same.

M^{r}. Farmers Account of Tobacco, Beetle and Ganjee, for the month of July (omitted to be Sent in our last) comes inclosed.

In a former Letter Your Hon^{r}. &c^{a}. was pleased to advise You would send hither Serjeant Latrell in the roome of Serjeant Du Bang, some time since is come

hither Serjeant Turnbull but he brot. no letter with him, neither has any mention been made since of his being sent hither Wee Remaine

Recd. ye. 1st. Octobr. 1703. Yours of the 21st. came to hand the 25th. the first and chief Paragraph of which relateing cheifly to the Deptv. Governrs. opening the Dutch Letter with his Name on the Superscription, he craves liberty to make the following Answer,

According to Your Honr. &ca's. Order the Originll. Letter comes inclosed just as he recd. it from Mr. Cracow the Dutch Cheif here, and for as much as he can understand Dutch thinks the Superscription of that Letter directed immediately to himself from the Governr. and Some of ye. Councill of Negapatam Purport of whose Letter as he understands it serv'd only for Covert [*sic*] to ye. Generall and Councills Letter, which by their Order was to be Sent to him.

Upon first view of their Letter he was very much Surprized att the Superscription, but haveing formerly received great Civillity's from the Generall of Batavia, concluded it only a Complementall Letter from him, And knowing the Dutch to be very often guilty of giveing extraordinary Complementall Titles occasioned his opening the Same Upon perusall of the Originall Superscription (wch. by good fortune is Saved) Your Honr. &ca. will Perceive that it does not Title him Governour of Fort St. George But Governour resideing in Fort St. George and not Governour & Councill of Fort St. George as You are pleased to write in your Generall Letter, Which might occasion any Ones comitting the like Error, All which he hopes may plead his Excuse for opening the Letter, Indeed after finding it was an answer to Your Honor. &ca's. Letter, he ownes himself to blame & in an Error, and pray's you will excuse not sending the Originall, and is confident from all his behaviour that the Honble. President nor none elce, can imagine it done with the least intention of disrespect, & therefore hopes it will hinder any further resentment or reflections on this Accident.

It is impossible for us to come to any agreemt. with our Merchants upon the Termes permitt'd in the Generall Letter, and our Merchants continue very stiff to their proposall of Tenn ℔ Cent abatement, We have not yet hinted to them [what] Payment they are like to receive in this New Contract, fearing it will hinder a greater abatement wch. wee are Still in hopes to perswade them to make, after wch. agree the Payments on the best Termes we can and represent the whole to Your Honr. &ca. for your Approbation.

Our Secretary assures Your Honr. &ca. that he is not capable of Translateing the Dutch Letter, thô he is of coppying that or any other Letter yt. lyes before him.

HONBLE. SR.

We received a letter from Your Honrs. Predecessor the late Governr. Thomas Pitt &ca. Councill of Fort St. George Dated 18th. Septembr. 1702 by which they desired the releaseing of the Goods land'd att Mallacca the Year 1691 by Capt. Samuell Blackmore against the Custome of the place, and confiscated by the Fiscall, or the product of the Sale of the Said Goods, We must with sorry make our Answer that, that business by the crossness & ill behaviour of the Said Samuell Blackmore was brought out of our Power, neither did the Said Goods reach what they were vallued by the adjoyning Memory, but Sold on publick Outcry for 3702⅞ Rix Dolls. wch. is a great difference, The said Blackmore came from Mallacca hither, and made his Complaint to us about the confiscation, we did offer him Severall times an appeal to the Honble. Councill of Justice of this place, being the highest Court of this Country notwithstanding he was condemned att Mallacca by his continuing there to the Process, and so according to all European Law, not to enjoy the benefitt of an Appeall; however in regard of the strict Alleyance between the Crown of England & our State, we did allway's show our favour to ye. Servts. of ye. Rt. Honble. Company as farr as it did agree with our Mastrs. Orders, and so we made no Scruple of opening a way to the said Samuell Blackmore for an appeale to ye. sd. higher Court but he by his Cross humour would (under our Jurisdiction) be judge of his own case, & would have all according to his fancy being the reason of the said Confiscation, and we not able to doe any thing more about that, Now whether ye. Goods belong to the Rt. Honble. English Company or not, we doe not know, but it is certain, the Honble. Company might demand ye. Goods from such an unfitt Servant, or from his Heirs, we hope this our answer and advice to ye. matter will be acceptable to Your Honor. Chiefly [as you] will please to consider our late favour in the Year 1698 abot. the Ophium containing 86 Canasters & Chests seized on ye. Instant, and considering you have been, pleased in Severall Letters earnestly to press Us to conclude a Contract with our Merchants for Fifty Thousand Pagoda's Wee this day again Summoned the R^t. Hon^ble. Company's Merchants, & after a long treatment, they possitively refuse comeing to any Agreement or signing any new Contract till we have Sort'd as many Goods as will make the last Amount to One Hundred Thousand Pagodas and pay them their Ballance, which we could not consent too, Because in a former Letter from Your Honor. &c^a. You say You would have the Ballance of their old Account to be a part of that Contract, so that we shall forbear takeing in any more cloth till we have Your Honor. &c^as. Permission so to doe, But if Your Honor. &c^a. thinks convenient to permitt the last Contract to be concluded as aforesaid, Wee hope and beleive can perswade y^e. Merchants to the following Termes.

First to abate twelve ℔ Cent on the prizes of last Contract, and upon the Signing thereof to pay them no more than Tenn Thousand Pagoda's down, Tenn Thousand Pag^s. that day month in November, Ten Thousand Pagoda's more in the month of December, and the remaining Twenty Thousand Pagoda's in February, or sooner if the Chambers Friggott arrives.

Secondly, that the Merchants will oblige to bring in all the cloth so early as to be washed, Sorted & embaled by the last of January, to be Sorted by y^e. Madrass Musters, and y^e. Species of Goods to be in proportion to the last Years Contract, and if any Sort Augmented, it be ordinary Long Cloth, & Sallampores, to all w^ch. we request Your Speedy directions.

The Deanes haveing imported by Sea Severall Parcells of Cloth to be washed in our Bounds belonging to their Company Wee request to know whether we must take of them any greater Custom than 2½ ℔ Cent.

Persuant to Your Permission, M^r. Nelthorpe took his passage for Madrass on a Boat Yesterday, Which being the needfull, Crave leave to Subscribe

Recd. 9th. Octobr. 1703 by Sloop Expedetion.

We are with yors. of the 2d. Instant some Circumstances were not then so well known to us, as since, wch. might occasion an appearance of more difference in Opinion, then really there is.

As to the case of Mr. Woolstone, he will readily acquiess in your Engagements here and Should have been extreamly glad if the gentlemen of Fort St. George had referred the adjusting his Accots. to your Selves, tho when he sent them up, they were allowed with only one objection, wch. after they were Sattisfyed in, but what your engagements may availe him, when at that distance, & in ye. hands of his enemy (who has publickly declared that nothing but his blood shall Sattisfy him), he very much doubts.

As we understand its nothing of his Accounts yt. is the occasion of the furious heat in the Gentlemen at ye. Coast (that can be allay'd by nothing but his being within their gripes) but his not consenting to the perpetrating a framed designed as horrible & wicked as ever was contrived, whereby the same was overthrown to their great greif, and to this day one is pleas'd to say (It was pitty 'twas not executed).

Mr. Woolstone is designed for England where he will Compeer before ye. Company themselves & answer all demands, having given Security for that purpose and is willing to doe anything here, that might give Sattisfaction to the Company and their Servants therefore if any means may be proposed to that purpose he would gladly comply therewith, Only begs pardon for not putting himself into the hands of the Governr. of Fort St. George, having full assurances, from his Menaces & Actions yt. his life would be at Stake without redemption, Twice Assessines have been hired to destroy him, and once near Effected but prevented by a Suddain accident, & truly we are not willing to be concerned in ye. blood of an innocent Person by being the occasion of shedding thereof by delivering up for that purpose where nothg. less can be expected.

We shall be ready to anything that may be moved to clear this matter and show our designs of good correspondence by burying all formers in Oblivion and continuing our readiness to all good Offices and Friendship (as both Company's & the United Managers do Enorder) but are absolutely averse from bringing our Selves under ye. guilt of blood Wee remaine

Yours of the 8th. Instant have received and Shall say no more relateing to Mr. Woolstone then that both Company's will not approve of Mr. Woolston's Voyageing for England before he adjusts his Accots. att Fort St. George, but we can't pass over (without Notice) those raving expressions against Presidt. Pitt in particular and the Councill of Fort St. George in Generall we thought from the long acquaintance & friendship Some of you had with President Pitt would have created better thoughts of him, and certainly the Company could not be so strangely Infatuated to employ Such a bloody temper'd person (as you Suggest him to be) their Governr. of Fort St. George, and such furious heated persons of that Councill, we could never have expected such an answer to a lawfull Demand, tho if not granted, gave no occation to charge that Antient Precidency of designing Murther upon a person for mismanagement in a Merchantile Affair, Were it as you Imagine, there would be a great deale of reason for an avertion to bring your selves under the guilt of blood, what a sort of people do you make of the President & Councill of Fort St. George & what a horrible wicked man must Mr. Pitt be, But if ye. Mannagers on enquiry herein find your reflections to be scurrilous and scandelous

to a Gentleman most of them are well acquainted with, wee know not what Sattisfaction can be made him for Registring such a letter of defamation; Private writings in heat & passion may on Some Accoᵗˢ. be cancell'd when those in publick can't, and Men in such Hoᵇˡᵉ. stations ought for that reason to be cautious what they firm on record; that Just reflections may be made hereafter wᶜʰ. is grounded only perhaps on your beleife, and Idle relation of a very ill Man that hath Shamefully (as we are acquainted) reflected on that very Gentleman who countenanced his Escape from the Gripes (as you term it) of yᵉ. If ye. Generall & Councill of Batavia committ'd an error in directing their Letter, the Deputy Governr. presumes it no fault of his, but ownes it an Error his not sending the Originall.

Yours of the ℔mo. Instant with an additional clause of the 3d. wee recd. ye. 7th. Wth. all the Papers mentioned to be enclosed. Recd. ye. 13th Novr. 1703.

The Honoble. the Presidents Letter to Mollim was Yesterday deliver'd him in Consultation & ye. Severll. Questions asked him as directed in ye. Parragraph of Your Honor. &cas. Consultation of Yesterdays Date and according to Your Direction we have enumerated the services he has formerly done to this Place, He do's not pretend to have any Orders for what he expended when at Daw'd Cawns Camp, but alledges that what he then did, was absolutely necessary to accommodate the Difference and (as he thought) for the Intrest of the Rt. Honoble. Company as appears by his Letter to the Honoble. the President to whom & ye. Councill he referrs himself.

We were not wanting to Peruse all ye. clauses in our Letters relateing to the Goods brought in by our Merchants over and above the former Contract to be a part of the last, before we wrote our Letter of ye. 8th. past month; And what wee therein alledged was, yt. the Order for makeing the Ballance of the former Contract to be a Part of the last Contract, did not arrive till it was signed and sealed. Whenever you are pleased to send us any Orders, we think ourselves obliged to answer, that we will comply therewith & accordingly Act as far as we are able, Wee have only laid before Your Honour &ca. the hardship our Merchants express to have recd. and referr'd their Case to Your Consideration, but since you are now pleased to Direct the restateing of their Account, Mr. Haynes the Accomptant has again drawn it out, and therein given them Credit for no more Cloth than what will make the Ballance of their former Account, Amount to no more then One Hundred Thousand Pags. and when you are pleased to approve thereof we shall give them our Bill upon Your Honr. &ca. for the Ballance due to them according to your Direction at six day's sight.

The Merchants were Yesterday called into Consultation & acquainted with Your Honr. &ca. [approval] of our last Contract, and a strict charge given them to bring in good cloth, wch. we will take care to have evenly sorted, as well washed, as possible our Washers can, & now our Press is fixed, as well packed as any on ye. Coast. The Merchants earnestly request Your Honor. &ca. will be pleased to remitt them some money hither for since their time is so short to provide Goods

their receiving it by Bill takes up Ten or fifteen Days before they can have it in their hands, For if they cannot receive it early enough to send into the Country before the French, who are now Treating for a large Investment, they fear it will [*sic*] difficult for them to comply with their Contract by the time Limitted.

Wee are thankfull for Your Hon^{r}. &c^{a}. compliance to our last Bills of Eleaven Thousand three Hundred Pag^{s}. On the fourteenth of this month [wee] shall be obliged to give our Bill upon Your Hon^{r}. [&c^{a}.] for y^{e}. next Payment to y^{e}. Merchants of Tenn Thousand Pagoda's to w^{ch}. we request your compliance.

The Hono^{ble}. the Presidents advises by M^{r}. Addisons Sloope arrived here the 28th. Octob^{r}. at night And an answer made thereto the 30th. And since there is a correspondency held between Madrass and Ponticherry, It's plain your Advices must be quicker from thence than we can possibly receive it here, & afterwards transmitt it to You, And it's Evident we have no other News than what they transmitt to Madrass from the news paper yo^{r}. Hon^{r}. &c^{a}. sent us, which as well as we can Translate it is word for word y^{e}. same of that was sent to the Hono^{ble}. President the 30th. of last month, Wee have not being wanting to get what Intelligence from Pondicherry we could but, each Messenger brings so contradictory an Account to the former that no Credit is to be given thereto besides we are very well assured y^{e}. French are so very Secret in all their Affairs that it's impossible to gett any true Intelligence, The Moores ship they took belonged to Augmud Mercan, & is againe released, The French Ships Sailed Satturday last some say they are bound to Bengall others towards Acheen, and some beleive they are only orderd out to sea till the Monsoon is over, but the Certainty of either we can no way's be informed of.

Wee have had indifferent Raines here which keeps Paddy much about it's usuall Price, M^{r}. Mountague has received Orders to enquire its lowest rate to secure what he can.

Wee are sorry to understand you are like to have fresh troubles about Your Townes, Wee shall give our Peons caution of falling into the Enemy's hand and not be wanting here to keep a very good look out for feare of a surprize But our Garrisons of this Place and Cuddalore are very weakly manned therefore earnestly request Your Honour &c^{a}. will please to send us a Supply.

M^{r}. Berlu having Occasion to remitt one Hundred and Twenty Pagodas to Madrass, We have given him our Bill upon Your Honour &c^{a}. for Said Summe Payable to M^{r}. All imaginable means has been used to procure ye. quantity of Paddy Your Honr. &cta. wrote for, Mr. Mountague to whom it was referred has not been able to engage more then about fifty Garse Which Costs us Eleaven and a half Pagodas

Wee have sent five hundred baggs of Salt Petre on board the Colchester, but the Ship wants so much repairs and fitting the Cap^tn. advises us he cannot receive on board more goods untill the latter end of the month, The Companyes Petre from Patana not arriveing for the reasons mentioned in our former letter, Wee shall endeavour to procure two Thousand Maund in Hugly in Barter for Coppar in case the New Companyes People doth not supply us with that quantity as promised upon our request to them being very unwilling to part with our Coppar at so low a rate as the Mart goes now in Hugly. Wee hope to dispatch the Ship by the first of next month and shall order Her to touch at Vizagapatam and Metchlepatam.

Yours of the 10th. Instant in reply to ours of the 8th. came to our reception. Recd. 5th Decbr. 1703 ℔ Ship Restoration.

As to Mr. Woolston since you will say no more relateing to him wee Shall also be Silent there.

Wee take notice of your passionate temper which runs like a thread through your whole Letter chargeing us with raveing expressions against Presidt. Pit &ctca. Councill at Fort St. George.

As to our raveing Expressions wee think wee were farr from any such either in Generall or particular Though if every word be wire drawn to the designe of the Reader & not the Intention of the writer heeded black may be lay'd where not deserved.

Wee were to give you some reasons why Mr. Woolston declined putting himself into their hands and what wee gave were the Substance of what wee had from him so that the Charge ought to be against him not us, And 'tis some Comfort to us that wee are only charged with raveing expressions & not designs and Actions, like those mentioned in our Letter & yourselves are pleased to justifie by saying (If it was as wee immagine there would be a great deal of reason for our aversion to bring our Selves under the guilt of blood) And that it is as wee imagine wee have the greatest moral assurances Possible (Vizt.) The relation from a Credible Person who was to be active in some and was the object of the other designs, Besides all advices and relations from others, So do think our beleif of the matter is So well grounded that whatever was said in ours was no reflection but a true relation of real matter of Fact, and recording thereof can be no defamation but a true discription to Posterity.

What the United Mannagers may doe in this Case wee are not so well assured off as your selves seem to be possibly they may take no notice thereof at all as perhaps concerning the two Companys apart of [*sic*] if they doe (thô most of them are well acquainted with the Gentleman you mention and are so with others alsoe [...]understand oth[ers that] you seem to doe & finding the relations (which you call reflections) true, cause Satisfaction to be made to the really Injured Person.

Wee think also chargeing us with raveing expressions against your People might well have been spared in regard themselves fall under a farr greater guilt of the Same Nature in their Expressions towards ye. Kings Embassador & Consul & our Compas. Presidt. which wee forbear to Mention particularly that wee may comply with our Masters orders in burrying oblivion all Animosityes, But they were otherwise expressions then ours and raveing wth. a Wittness, It was far from our thoughts to charge that Presidency with designs of Murther, but the Person demanded of us declareing his Life in hazard & Danger if he goes thither and giving his reasons therefore which seemed pretty [substan]tiall to us as wee transmitted them to you so [they] do cause in us an avertion of haveing any hand in his going thither for fear of the worst, For however you would excuse that Antient Presidency yet wee find it matter of Fact their Heats to be furious that they last beyond they are cooled by the cold grave as in the case of the Honoble. John Pit Esqr. her Majestyes Consul for those parts (in denying his Corps Burial among his relations Countrymen and fellow Subjects) tis to your own knowledge uncontroulably evident, And their heat may be as furious towards him in regard they may suppose him a Principall witness against them for her Ma[jesty...]matters wch. [possibly they] may'nt be well able to Answer Wee remain.

N°. 112

To the Hon^ble. Thomas Pitt Esq^r.
Gov^r. & President and Councill
at Fort S^t. George.

Wee take this opportunity to acquaint your Hon^r. &c^ta. that on the 20^th. of June Ship Chambers ffrigat arrived at this Port, At Mallacca wee found M^r. Edw^d. Jones left there by M^r. Roberts w^th. orders to proceed for Amoy and receive three Thousand Tale as M^r. Jones then informed us delivered by M^r. Roberts to Anqua, at his departure not being able to procure Gold for it, Wee willingly recd him on board and have Entertained him in our ffactory. Recd. 5th. Decbr. 1703 [by Ship] Restoration [from B]engall.

Ship Aurengzeb came to us on the 8^th. of July she run on Shoar on an Island near Batavia and thereby received such damage that with great difficulty she was kept from foundering in her passage, but by the help of Cap^tn. Souths Carpenters She was firmly repaired.

Upon our arrivall wee immediately used our Utmost Endeavours to make an early Contract in hopes to procure an early dispatch but the great quantity of Cloth and other dead commodityes on each Ship inevitably delayed y^e. Compleating of it, till the Twentieth of August when wee found our selves under a necessity of agreeing with Anqua on the termes herewith remitted, haveing till that time [...] with.

By our Contract your Hon^r. &c^ta. may perceive that the Aurenzeb was to have been dispatched y^e. begining of November, y^e. Chambers ffrigat y^e. middle of December, but Anqua has been so farr from Complying with us y^t. wee have not been able to procure from him sooner than the first of February a Cargoe for the Surat Ship at w^ch. time she sailed haveing on board her whole Stock & something more.

It is w^th. great concern y^t. wee are forced to acquaint your Hon^r. &c^ta. how little wee have Since been able to get from Ankua for the loading of the Chambers ffrigat who is so far from thinking himself obliged by his Contract y^t. he confidently imposes upon us Sorts of Goods y^t. he can any where pick up though foreign to our Agreement & wholly improper for our Market.

The Coppar brought by Severall Juncks from Jappan he pretends is not to be bought unless wee w[ill take] all the Earthen & Lackered ware that the Propretors [have brought] from thence with it, which wee are forced to comply with, being sensible wee cannot otherwise be supplyed & that the other Ships upon our refusall would imediately lay hold of it, He pretends to have provided for the Aurengzeb though not Contracted for y^e. great quantity of Quicksilver wee have now on board but not comeing down before his departure he forces us to receive it.

We have not yet been able to procure one peice of Gold from him and he begins now impudently to tell us, that it is time enough to talk of that when [by] the Sale of our broad Cloth he is enabled to buy it, Upon [y^e.] whole matter wee think it our Duty plainly to acquaint your Hon^r. &c^ta. y^t. wee have not any hopes of being dispatcht this Season now so near Expireing unless wee will leave behind us to the whole amount of y^e. goods [sold] Anqua out of [our] Ships, w^ch. not dareing [to do], wee conclude wee shall be forced to remain here, Although wee have but too much Reason to fear y^t. what wee shall farther get from him will but poorly answer y^e. great Charge of the Ships Demourage and the disapointment in not receiveing such part of her Cargoe as wee could now send.

It is very difficult for us, to fix our resolution under so great a misfortune & disappointment, w^ch. as it could not be forseen or Suspected surprises us without any directions from the R^t. Hon^ble. y^e. Comp^a. for our proceeding, But since wee cannot possibly pursue those methods prescribed in our Orders, Wee shall only deviate where the Interest & advantage of y^e. R^t. Hon^ble. y^e. Comp^a. is apparently y^e. motive.

Anqua still pretends he has considerable quantityes of Goods comeing from y^e^. North, wee have long given no Credit to his promises, if they do arrive any time this month, Wee resolve y^e^. ship shall sail, if the Governm^t^. will permitt M^r^. Dolben to continue here, But otherwise wee dare not leave so great a part of our Stock in such precarious hands without any person to look after it Wee are

Ship Chambers Frigat touching at Mallacca in her passage to China I returned to this place on her, as order[ed] by M^r^. Rec^d^. 11th. Decr. 1703 by Pattamar.

Wee have recd yours of y^e^. 30^th^. past Month by Kittee Narrain on a Country boat, & also y^e^. Eight Thousand Pag^s^. sent us under his Care, Seaven of which shall be delivered the Merchants and the remaining three thous^d^. to compleat the third Payment wee must draw upon Your Hon^r^. &c^ta^. when due, Wee have no

money in Cash, which is the reason wee kept One Thousand Pagodas, Which with what wee can receive for Custome &c^{ta}. Debts standing out wee hope, may be Sufficient to defray this months Expence of the Garrison.

Wee thought our Selves obliged to send Your Hon^{r}. &c^{ta}. w[hat] Papers wee rece[ived ...].

The Paddy wee have bought Shall be sent by the first Conveyance except necessity compells Us to make Use of it here, for wee are not able to procure any more out of the Country and its now risen to Pag^{s}. 15½ ℔ Garse, But the Rain wee have had here this two days may lower its Price and induce People to bring it in from out the Country, when shall buy what more we can get.

Wee are persueing your hon^{r}. &c^{tas}. directions in Salting up Provisions, and laying in what necessary Stores wee can Provide for the use of the Garrison in case wee Should have any troubles w^{ch}. may happen so severe & wee may be so closely beseiged as that it will be impossible for us to Send advice to your Hon^{r}. &c^{ta}. of our necessityes which may detard Your Supplying us with Men, and what mischief the Nabob intends Us will certainly be done at his first comeing, Which with a greater Number of Men wee should endeavour to prevent.

Inclosed wee send your Hon^{r}. &c^{ta}. a list of what Goods our Merchants have brought in Acco^{t}. our new Investment also a list of what Cloth is in our Bounds belonging to the Madrass Merchants, Wee have Assurances from our Merchants that they will comply with their Contract and bring in their whole Investm^{t}. in January, But to have it timely washed for y^{e}. Feb^{ry}. Shipping will be difficult except you will please to send us a Supply of washers, Which wee are in great want of, and they Shall be returned in two months time, Wee have got what are to be had from Porto Novo &c^{ta}. But those will not be near Sufficient to wash our Cloth in time. By these Peons wee send your Hon^{r}. &c^{ta}. twelve & ½ p[...]ore of Steele.

For the future wee Shall Observe Your Hon^{r}. &c^{tas}. directions for the Choice of our Watchman, But Shevall Perera haveing enjoyed it many years and wee haveing no reason or orders to displace him was what induced us to continue him in his former Employ But its most certaine he ought to have no dependance upon the Wooriar.

Inclosed wee recd Copy of Comadore Brabourne &c^{tas}. Letter to your Hon^{r}. &c^{ta}. also Copy of the Governour of Quylones Letter to him.

Tuesday last Past by a Peon with Letters for Madrass, he advised us that Anjengo was beseiged but by whose forces or on what Acco^{t}. could not advise Us.

The two Chests of Syrrash wee have recd And hope by the next Conveyance wee shall receive a larger Supply.

We request your Hon^{r}. &c^{ta}. will [not be] unmindfull of returning to Us the fair and [foul] Consultation Bookes in M^{r}. Frasers time which was sent to your Hon^{r}. &c^{ta}. for him to Signe, for wee have no other Register here, Wee are

Recd. 16th. Decr. 1703.

Wee come now to acknowledge the Hon^r. of yours of the 19^th. Oct^br. & 4^th. Oct^br. p^r Mr. Stables Sloop & hope they are Long ere this safe arrived with you, our Books ending in Aprill are now prepareing and shall Speedily follow.

Wee observe what you write of y^e. Colchesters being early with us for whom wee hope to have all or most our goods ready, if any are wanting on her arrivall they shall be remitted soon after by one of Mr. Holcombes Ships designing on no Account to detain her but dispatch her with the greatest Expedition to Metchlepatam as you direct.

Rustundell haveing accomodated all his Affairs to the Southward is now certainly designed speedily for these Parts on his arrivall with us wee hope to treat with him so as to answer yo^r. Mr. [Holcombe] has ordered to be di[spatched with] the Greatest Expedition haveing nothing in our Godown that may be acceptable to him and should wee go to talk of money (and of which neither wee have none) it would stand us in above twice the Cost his present on his last comeing not standing us in above 450 Pagodas & valued by him at 4000 Rupees there is now a very freindly Correspondence between us, the Cheif haveing sent him a present of a dozen fine Hawks, some Atcheen Oranges & a Nury & he being sett forward wee have sent our Vacqueel to meet him as on last comeing to sound him well and prepare all things necessary for our treatment & to divert if possible his comeing this way for should he come through our Town 'twill be both more troublesome & expensive and our Fortification may Possibly be an eye sore to him and occasion an inte[rven]tion of the well begun Correspondence w^ch. we [shall] endeavour to Cherrish & Maintain and as occasion offers advice your Hon^r. &c^ta. of all things necessary and relateing hereto.

Some of the Mutta Sardeels are already gone to meet him & in their way called on us wee have been and Shall bee as frugall as possible in our presents to them

five days [that if] they do not Perform, they shall be sent up as you have ordd. Wee hope wee have not been so remiss in this business as You have been pleased now to express, Since in Severall of ours wee wrote our proceedings in this Affair, But particularly in ours of ye. 21st. of May last, wee gave your Honr. &cta. a full account what Progress wee had made therein, and at the Same time sent a List of all our Inhabitants concerned in that Bussiness with an Account of their Shares who had paid and who were then una[ble]. In answer to which You were pleased to approve of [what] wee had then done & ordered the money to be remitted your Honr. &cta. when you would oblige Somiah to [dismiss] the Persons that had paid, After which in yours of [... Ultimo] You [also say you] will take care that [he would] give discharges and were pleased to think well of ye. Reasons wee gave of Narra Reddees Solliciteing this bussiness, But in yours of ye. 26th. July, Ordered that the money Should remain in Mr. Secretarys hands as wee advised it was since which wee have recovered from some other of the Partners the Severall Summs mentioned as ℔ the Inclosed List, By which you will find that all except Ramah Chittee have paid their Shares which if Somiah thinks not convenient to accept and give his discharge for the Same wee shall send ye. severall persons to you to be concluded by your Honr. &cta. After which wee Suppose Surrapa &cta. Merchants can't plead hinderance in Narra Reddees Country.

Tis impossible to advise Your Honr. &cta. exactly what Number of Bales wee shall have ready for that will depend upon the dispatch of our Washers which wee are in great want of, But if they make a tollerable dispatch, Wee Shall hope to be able to send you Six hundred Bales by the latter end of January.

The reason of the Generall Books being so farr behind hand is from Mr. Hayne's indisposition which Still continues, And our Bookes being now to be stated in a New Method, Wee have no Assistant who is capable of giveing him any help here notwithstanding he is in hopes to have them in a readiness to go home by the February Shipping.

In our last advised your Honr. &cta. wee had paid the Merchants Seaven Thousand Pags. part of the Eight Thousand You were pleased to send us and this [was de]livered them [by] Bill for the [.....] Thousd. more to compleat the third Payment, To which wee pray your punctuall compliance, Which being the needfull with due respects crave leave to Subscribe,
